

Boards of Trade want Road Paved Between Towns

Believe Time Ripe for Project Covering Ten Miles; New Liskeard Takes Lead

Believing that the time is ripe to press for the paving of the Ferguson Highway through the three principal towns in this part of the district, the New Liskeard Board of Trade at a meeting last night passed a resolution to be submitted to Premier Henry and Hon. Leopold Maculay, Minister of Highways, urging that this work be undertaken in the near future. The New Liskeard Board sent invitations to both Haileybury and Cobalt Boards to be present at the meeting and those who attended from the two towns were urged to call meetings of their Boards to take similar action at an early date. In the meantime the resolution from New Liskeard is being sent forward, in order to start the ball rolling.

Members of the Haileybury Board who were spoken to on the question were all in accord with the idea. They point out that, as the government is endeavoring to substitute employment for direct relief as far as possible, this should be an admirable scheme. Recent improvements which have been made on the stretch of highway between the three towns together with others that are contemplated, make the road a permanent one, and anyone can see during the motoring season that the amount of traffic appears to warrant the expenditure, which would eliminate large sums in repairing, besides giving much better satisfaction.

There seems to be no reason to doubt that both Cobalt and Haileybury will get behind the project and do their part to impress on the government the importance of having this work commenced at an early date. Even during the present winter a start could be made by hauling the necessary materials, as is done in other sections of the province.

While the necessity for providing a better roadway cannot be denied, the provision of employment is perhaps the greatest need at the present, it is pointed out by those who are behind the scheme. It is also stated that, while the paving of sections of the Ferguson Highway has been discussed on many occasions, there has been no concerted effort to bring the question directly to the notice of the government. This is to be remedied through the Boards of Trade, and every citizen should support those organizations in every possible way.

BREAK IN COLD SPELL ON TUESDAY BROUGHT RAIN, HAIL, THUNDER

A short break on Tuesday in the cold spell that has been prevalent during this month brought with it a variety of weather that is not often experienced in this section of the country. There was rain, hail and thunder, interspersed with short periods of sunlight, and it looked as though there was a big break coming. However, it did not last long and that evening another change came, with a shifting of the wind towards the north and a decided drop in temperature.

Compared with last November, the present has been a very cold month. Temperatures of four, five and six below zero have been common, whereas last year the first zero touched was on the 20th of the month. Eight below on the 26th and three on the 27th were the coldest points touched during the month last year and the temperature rose from then on for several days.

Carry on Work at Gillies Airport Through Winter

Government Changes Decision to Stop Operations; Only One Third of Site Cleared

Dr. E. F. Armstrong, president of the Cobalt Board of Trade, learned early this week from Ottawa that the Department of National Defence would continue the work of clearing the airport site at Gillies' Depot throughout the winter, and that the 55 men employed there would be kept on. It had been announced that the camp, in common with several others of a like nature, would be closed and the men transferred to different airport sites, but Dr. Armstrong communicated with the Department and secured the assurance that the project would be carried on.

Dr. Armstrong stated that of the 360 acres which comprise the site, only one-third had so far been cleared of trees and that less than 50 acres had been stumped. He emphasized the fact that the wood cut on the ground was needed for relief supplies and also that the airport site would be an ideal one for camp purposes when militia units hold their annual training period in the district, as they did a couple of years ago.

Men at the camp were recruited chiefly from the unemployed single men of the district and have found the work there much more satisfactory than remaining on relief in the towns and communities.

Gets Judgement in His Suit Over Promissary Note

Taylor Pipe Wins Suit Against A. B. Davis in Court Here; May Be Appeal

The contention of Aben B. Davis, dairyman of Argentite, that Taylor Pipe owed him 7,500 shares of Goodfish Gold Mines stock to be offset against a promissory note for \$484.68 which plaintiff held from Davis, failed when the action brought by Pipe was tried before Judge Hartman in District Court here last Friday. While the case was based largely on a grocery bill which the defendant Davis admitted owing, and while there was no dispute over either the note, dated October 1, 1931, or its several renewals, much of the evidence related to a mining deal in which both parties had been interested, and involving a claim in Bernhardt township they had sold to the Goodfish interests for 125,000 shares of stock.

His Honor gave judgment for the plaintiff, with costs, while he dismissed the counter claim, but it is likely that an appeal will be taken to Osgoode Hall by Davis, according to his counsel, George Mitchell, K.C. The history of the claim goes back more than two decades from the time of its staking by prospectors, at which time it was registered in the name of John and Jacob Otto. In 1913, the evidence stated, Davis acquired the claim by buying out the others, with whom he had been associated, and in September 1923 after keeping it in good standing in the interval, he had given Pipe a 9-20ths interest in part payment of a bill at Pipe's Cobalt store, the value being placed at \$1,000.

Pipe did not register his interest until January 5, 1928, and when he and Davis made a deal with the Goodfish Company later on, the Otto brothers and William Scanlon, another associate, filed a caution, claiming a one third interest in the land. M. G. Hunt, secretary-treasurer of the company, produced records dealing with this phase of the dispute, of which Pipe disclaimed any interference by him, and of which it was sworn that the caution had been against the Davis interest only. Davis maintained that, acting on Pipe's advice he had settled with the Ottos and Scanlon for 15,000 shares of the company's stock, Pipe to go 50-50 on the deal, but it transpired that the entire number had been deducted from Davis' share of the stock.

Plaintiff denied any dealings of this nature and said he had no knowledge of the brothers Otto, although on this point defendant declared they had traded with Pipe in 1911 and would not go anywhere else for supplies at that time. Plaintiff admitted knowing Scanlon, but denied having

Mining Company Loses its Appeal on Assessment

Aladdin-Cobalt Will Take Case to Ontario Railway and Municipal Board

Judge Hartman on Tuesday dismissed the appeal brought by the Aladdin-Cobalt Mines Limited, against a decision of the Court of Revision in Cobalt, and the question of the proper assessment of the company's lots in that town will be taken to the Ontario Railway and Municipal Board for further consideration, it was intimated by J. A. Legris, appearing for the Toronto solicitors of the English mining concern.

His Honor previously had suggested that a stated case be submitted to an Osgoode Hall bench of Supreme Court Judges, and Mr. Legris was willing to adopt this course, but the Cobalt Town Council, to whom it had been referred, would not agree and decided to let the matter rest with His Honor. Mr. Legris already had stated his clients had intended to go to the Ontario Railway and Municipal Board if the judge's decision was not favorable to them.

The dispute is one of long standing. The company contends that there is no registered plan of its holdings in the town of Cobalt and that its lots there, both those vacant and those occupied by tenants under leases, have been doubly assessed. There was a similar appeal last year to Judge Hayward, at which time a conference between the interested parties was suggested by the Judge, but this never materialized and no decision ever had been given in the case.

BOYS FROM HAILEYBURY PLAY ON SOCCER TEAMS AT TORONTO UNIVERSITY

The ranks of several boys from the Haileybury High School are appearing this fall on soccer teams at the University of Toronto, where they are apparently making good in sports and where several of them commenced courses with the opening of the fall term. Ainslee Aldridge is playing on the University College team and also with the Varsity Intercollegiates, while Graham Kearney, Herb Millen and Fred Tuke are on the S.P.S. team of the University. Friends of the boys in town are watching their progress, as reported in the sporting pages of the daily papers, and are keenly interested.

taken any part in the dispute over the caution. To his counsel, C. F. Tuer, he maintained the two items were separate transactions. Davis said that when he and Pipe made the deal over the claim in 1923, Pipe had searched the title and found it clear, and no trouble developed until after Pipe and Davis had received the first 25,000 shares of Goodfish stock.

HOLD ANNUAL MEETING OF CHILDREN'S AID SOCIETY ON MONDAY

The annual meeting of the Children's Aid Society of Femiskaming will be held on Monday next, November 27th, commencing at 8 p.m., in the writing room of Hotel Haileybury. The business of the meeting will be the receiving and consideration of reports from the officers and the various committees, and the election of directors and committees for the coming year. The Society is now regularly incorporated under provincial regulations, the change having been effected during this year, but every one interested in the work is cordially invited to attend.

The Children's Aid Society has rendered a wonderful service in the district, working continuously for the good of the homeless and neglected children, and is well worthy of the support of all good citizens.

Heard Broadcast From Miles Above Earth's Surface

Local Radio Fan's Short Wave Set Picks Up Conversation of Balloonists

Wm. Farmer, Rorke Avenue, had the unusual experience on Monday of listening in to a conversation carried on between balloonists miles up in the air and their coadjutors on the earth, through the medium of his short wave receiving set in his home. The reception was quite clear, Mr. Farmer says, and he was able to follow the talk without difficulty.

The balloonists were Lieutenant T. G. W. Settle, of the U.S. Navy and Major Chester L. Fordney, who accompanied him on a flight into the stratosphere from Akron, Ohio. They kept in touch with Col. Frank Knox, of the Chicago Daily News, until they had reached an altitude of over 53,000 feet, and reports published on Tuesday said the balloon had been up to a height of 58,000 feet before the descent was begun. The flight started at 9.27 a.m. and the big balloon was brought safely to earth at about eight o'clock that night in a marsh near Elmer, New Jersey.

The majority of local people are less concerned with the scientific objects of the trip into the upper air than they are with the fact that radio broadcasting has been brought to such a stage in its development that a conversation, carried on under such conditions, could be heard so plainly at this distance. It appears that the short wave receiving sets have almost eliminated distance entirely, and no one can foresee what may be accomplished in another few years.

Police Watching Pulp Cutters on Strike in North

Five Hundred Men Asking Same Terms Secured in Spruce Falls Settlement

Provincial police to the number of 15 are said to be watching a gathering of 500 pulp cutters, who have gone on strike in the Smooth Rock Falls district, where they were employed by the Abitibi Power and Paper Company, and where they have asked the same terms and conditions as those obtained by men of the Spruce Falls Company at Kapuskasing, who took similar action a few weeks ago. Reports from Cochrane, where the men have congregated, this week, are to the effect that there has been no disorder, but precautionary measures are being taken by the provincial officers. Inspector F. B. Creasy, in charge of district headquarters in Haileybury, went to Cochrane at the week-end and a number of officers from other points have been there for some days. Sergeant Roy Elliott, recently promoted to that rank, is in charge at the northern town.

One Toronto paper on Friday reported that the strikers have rented two large hotels in Cochrane, where they are staying, and have prepared for a 10-month struggle with the employers. Their resources have been pooled and they are receiving assistance from union workers in other lines it is claimed. More men are expected to join the ranks, but all was orderly, although the men were doing their best to prevent any strike breakers being sent in to the abandoned camps. It is said that they stopped all vehicles leaving Cochrane in the direction of the Smooth Rock district with this object in view.

Local Man Gets Position With Iroquois Falls Drug Co.

I. B. Roger, a resident of Haileybury for several years past, has secured a position as manager for the Iroquois Falls Drug Co. and will leave at the end of this week for the paper town. Mr. Roger came to Haileybury as manager of the L. K. Liggett Co. local store, where he remained until earlier this year. Latterly he has been in the Knechtel Drug Store.

Mr. and Mrs. Roger and the family have many friends in town who will wish them every success in their new home, although regretting their leaving here.

Canadian National Railways Earnings

The gross revenues of the all-inclusive Canadian National Railways System for the week ending November 14, 1933, were \$3,028,114 as compared with \$3,000,627 for the corresponding period of 1932, an increase of \$27,487.

Town of Haileybury

Nomination Meeting

Friday, November 24th, 1933

NOTICE is hereby given that, pursuant to Section 75, Chapter 233, R.S.O. 1927, the Municipal Act, as amended by Section 7, Chapter 44, 1930, the annual meeting for Nominations for the Office of **MAYOR** will be held at the Council Chambers, Ferguson Avenue, from 10 to 11 a.m., and Nominations for the Offices of **COUNCILLORS** and **Members of the Public School Board** will be held from 12 Noon to 1 p.m.

Friday, November 24th, 1933

AND NOTICE IS FURTHER GIVEN that in case a Poll is necessary, such Poll shall be held on

Monday, December 4th, 1933

from the hour of Nine o'clock in the forenoon until Six o'clock in the afternoon.

H. CLIFFORD,
Returning Officer.
