SMALL BRITISH DESTROYER BATTLES TREMENDOUS SEAS

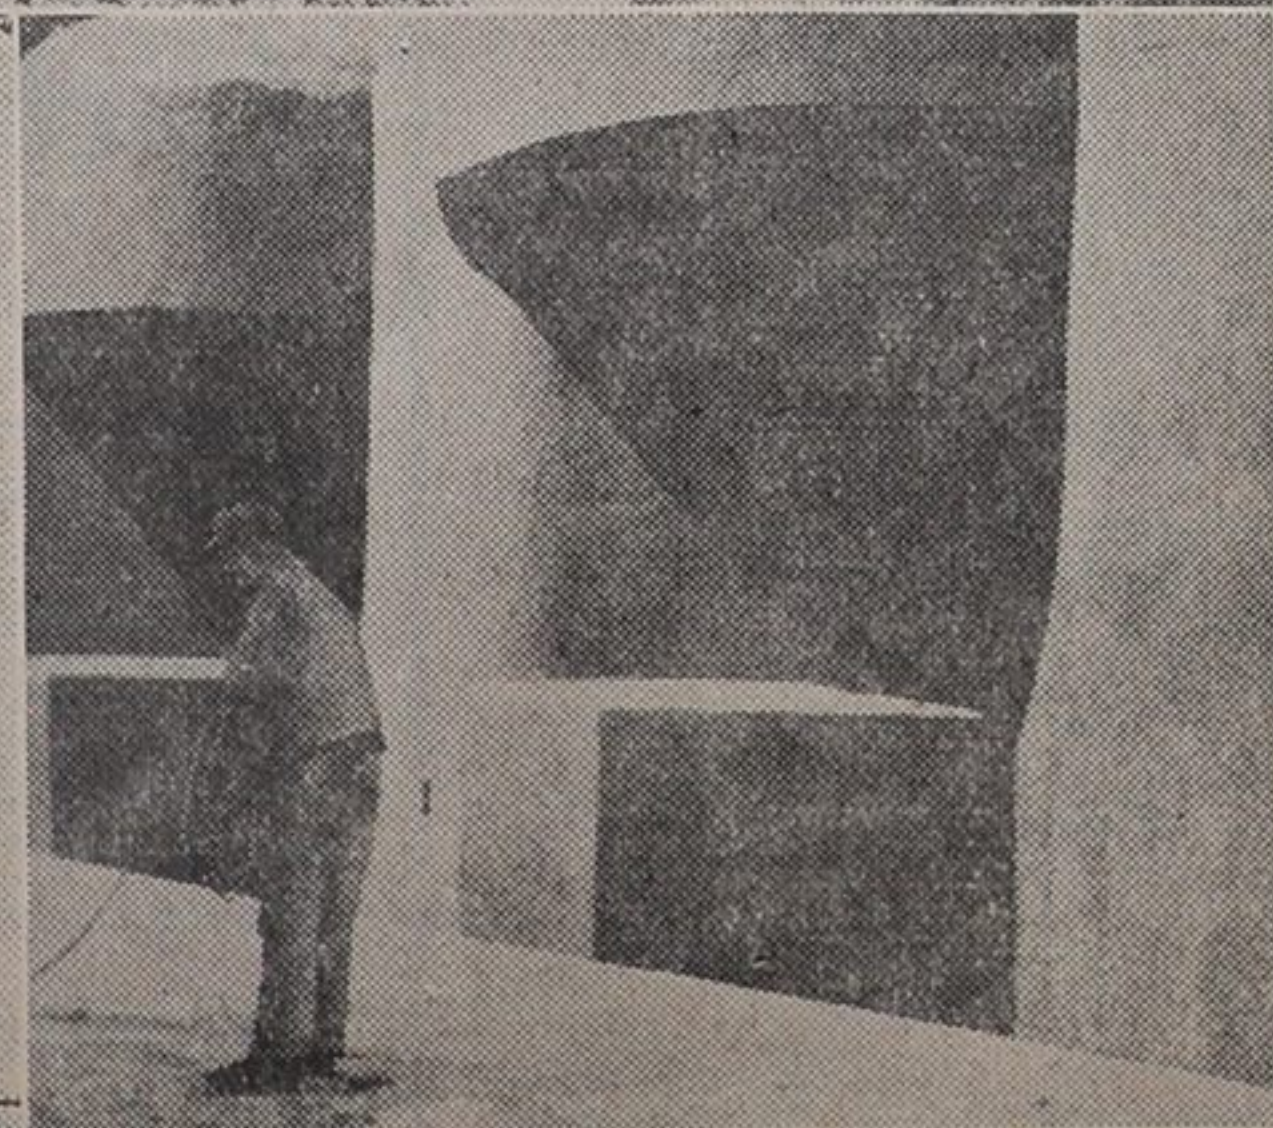

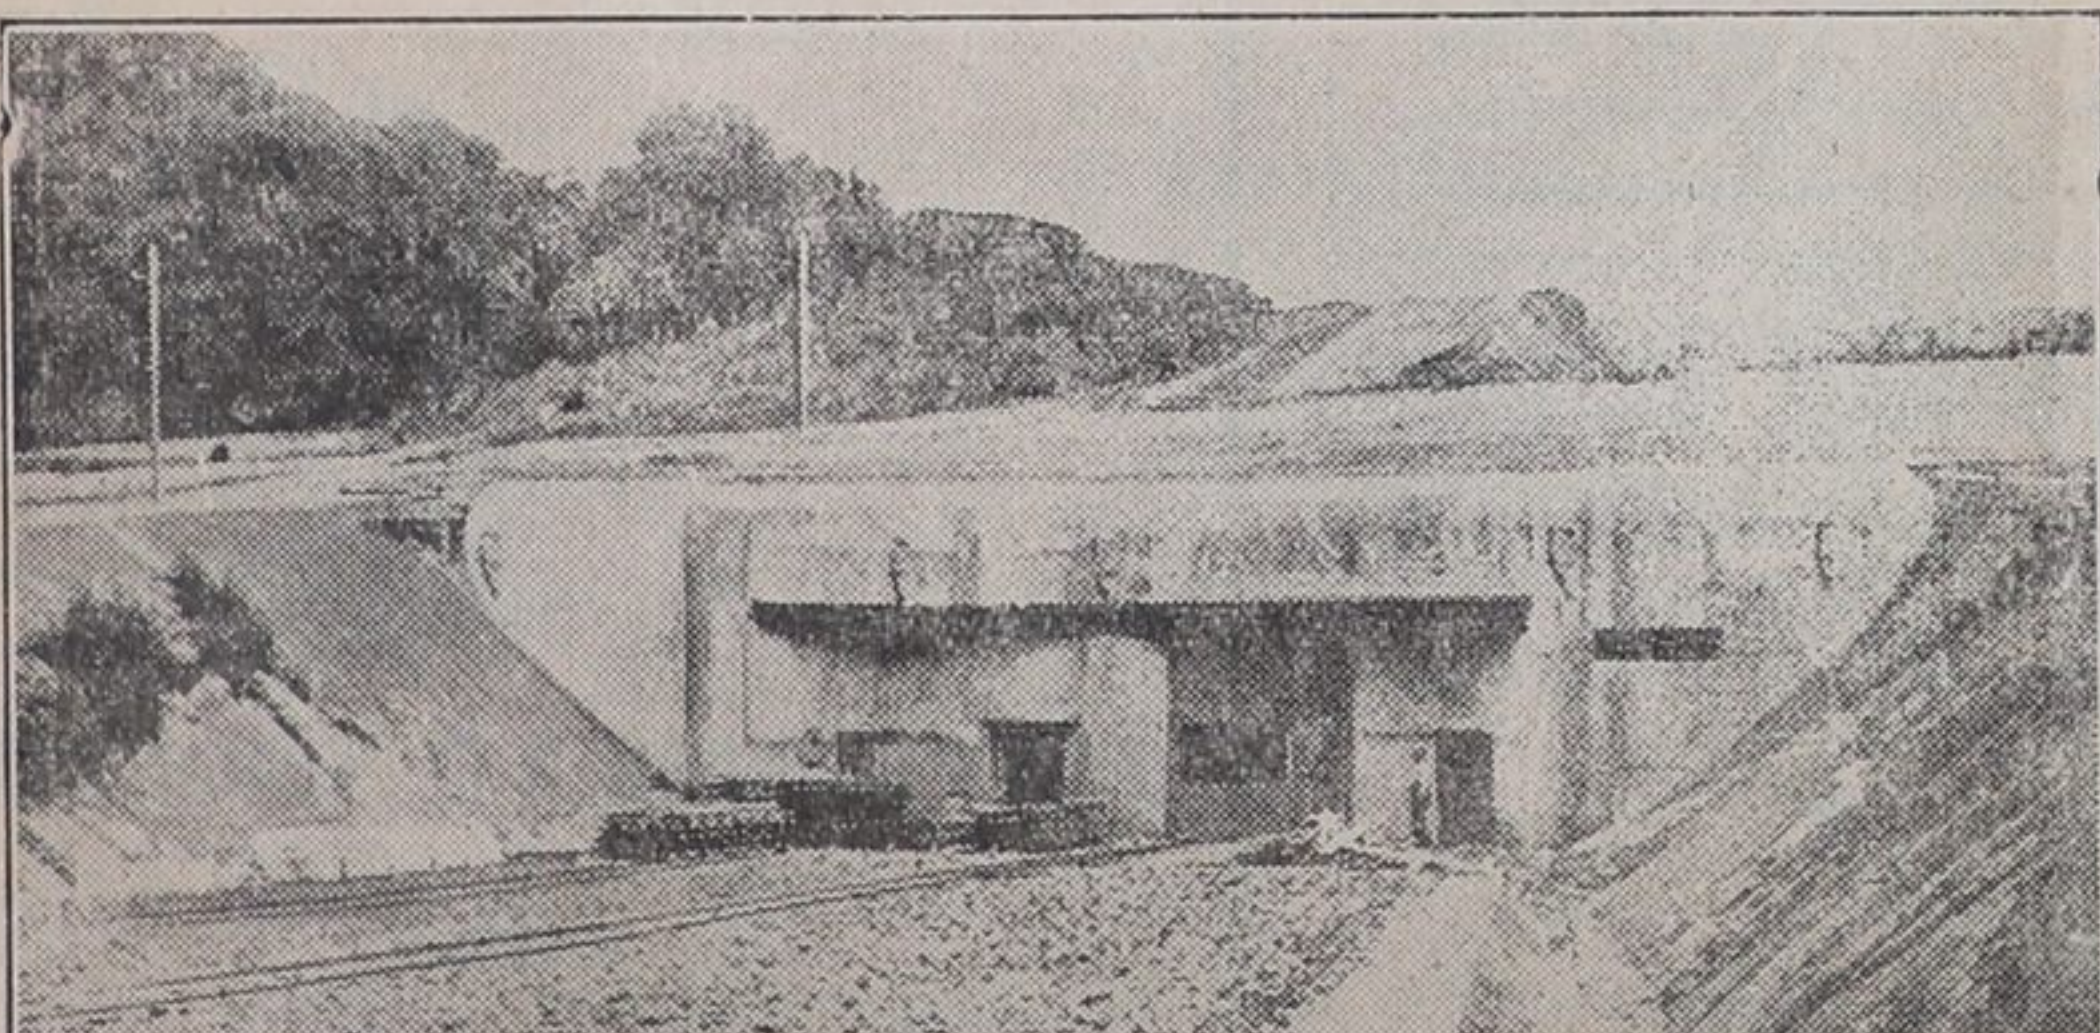

H.M. destroyer "Sturdy", attendant to the aircraft carrier "Furious" would appear to be very well named. This photograph, taken from the "Furious" en route to Gibraltar for the Spring Cruise, shows the "Sturdy" almost disappearing from sight in the waves. She withstood the heavy seas easily and arrived in port none the worse for the adventure.

THOUSANDS MOURN A "KINGMAKER"

The cortege of General Kondylis, who helped to restore King George of Greece to his throne, is shown passing through the streets of Athens while thousands of sorrowing people watch the procession. Note the picturesque uniforms of the soldiers marching on each side of the cortege

FRANCE DETERMINED DEMILITARIZED RHINE WILL NOT BE FORTIFIED

As it became increasingly evident that Germany desires to fortify the demilitarized Rhine zone, France appears equally certain that it shall not become an armed border. Above are pictures of one of France's northern defences built underground for ammunition storage and reserve shelter for troops. At the lower right shows a concrete gun emplacement at one of the defences, while at the left is a map showing some of the fortified zones along the German border.

"MOST SHAPELY LEGS"

In competition with scores of chorines, Mme. Billie Borge was judged to have the "most beautiful legs in Paris," title held for many years by Mlle. Mistinguette, famous entertainer.

CANADIAN BLIZZARD TRAVELS SOUTH

It is quite easy to imagine the surprised look which must have appeared on the face of the gentleman in the above picture when he first opened his front door after the recent blizzard. Half an hour's strenuous digging enabled him to make a new entrance, and although the snow was not labeled "Made in Canada" it is positive it was. The house is near Duluth.

GOING TO RESCUE OF MAROONED INHABITANTS

CCC workers rescue family

New blizzards sweeping down from Canada threatened a crucial shortage of food and fuel in the midwestern States. Our picture shows part of a gang of 150 CCC workers digging through drifts near Maryville to rescue a family of four, one of whom died before the rescue was effected.

His Majesty on the Canadian Pacific

Canadians have a particularly warm spot in their hearts for King Edward VIII, a sincere affection honestly earned by His Majesty during his visits to this country as Prince of Wales. The picture layout shown above graphically illustrates several phases of his different journeys by Canadian Pacific steamships and rail lines. Illustration No. 1 shows His Majesty in the typically courteous act of thanking the crew of the Royal Special. No. 2. His Majesty and Sir Edward Beatty, G.B.E., K.C., LL.D., chatting on the station platform at Calgary. No. 3. In the driver's seat. His Majesty on the "right hand side" of Canadian Pacific engine 2231. No. 4. Edward VIII, with the exception of his voyage on H.M.S. Renown, has travelled across the North Atlantic on Canadian Pacific Steamships. The picture shows him with Captain E. Griffith on board the Empress of France.
