

## English Paper Ridicules Tale of New Gold Rush

So-Called "Wild West" Style Is  
Used in Telling of Inter-  
view by Telephone

The London Daily Express, which as noted in these columns recently held an interview with long-distance telephone with Sheriff William Thuerck in regard to the reported gold strike in Bryce Township, near Englehart, has used the story to throw ridicule on a section of Northern Ontario of which it knows nothing.

In the issue following the talk with the sheriff, the so-called "wild west" style of writing is used and an attempt is made to show that this district is something like the fabled mining camps of a far gone age.

Just what was the intention of the reporter, who represented himself as the financial editor to Mr. Thuerck, it is hard to say. It could scarcely be possible that any great number of English people would take the article seriously, it is so entirely ridiculous.

The article starts off as follows: "The cry of gold has sent thousands of people in cars, buggies, covered wagons, and on foot, to Bryce Township, near Englehart, Northern Ontario, where a spectacular gold discovery is said to have been made. Mr. William Thuerck, sheriff of Haileybury, sat in his jailhouse last night and talked into the telephone, while outside cars, horses, buggies streamed past towards the sleepy Canadian township which has been transferred into a hectic whirlpool by the discovery of gold." The reporter then gives what purports to be a conversation with the sheriff, which is really beyond belief. He tries to describe in what he apparently fondly believes to be the vernacular of this country details of what he was told by Mr. Thuerck, ascribing statements and using words that we venture to say have never been heard in the district of Temiskaming.

The only possible explanation we can see for the article is that the reporter, on discovering that the gold strike was not of such great dimensions as he was at first led to believe, dug up some old novel of many years past, let his imagination run loose and hoped to at least write something that would give readers of his paper a thrill. Still one wonders why. No possible object could be gained and the thing is so far-fetched that it could not be believed by anyone with average intelligence. It must remain one of the unexplainable occurrences, but it is surely no credit to English journalism.

### District Ore Shipments

During the period July 2nd to July 17th, there were seven cars of ore shipped from Cobalt mines, according to the statement of the T. & N.O. Railway. The heaviest shipper was E. C. Peterson, with two cars containing 185,112 lbs. The O'Brien also had two cars in the list, totalling 150,000 lbs. A car each was shipped by the following: Nipissing Mines, 108,119 lbs.; Imperial Bank, 103,556 lbs.; Frankel Bros., 72,049 lbs., a total for the period of 618,836 lbs.

### Sifting Gold From Gravel

Just as the prospector selects only the nuggets and discards the pebbles, so also the Mill Owners Mutual Fire Insurance Company of Iowa selects and insures only those properties which measure up to a high standard of construction, maintenance, and ownership.

That makes for low losses and substantial savings—savings that are passed on to policyholders in the form of annual dividends. Let us explain what this can mean to you. See us at once!

pany towns who gave their lives in the Great War.

Members of the Copper Cliff Canadian Legion will attend the ceremony in a body. It will commence at 8 o'clock—Sudbury Star

### Add Drilling Crews

An aggressive diamond drilling campaign is now in progress on the property of Numaque Mining Co., in Bourlamaque Township, Northwestern Quebec. The consulting engineer, Paul d'Aragon, M.E., left Montreal last night and will meet W. A. Hooton, E.M., who is in charge of operations at the property. Two drill crews are being brought in to supplement the one crew now operating. The three drills will be capable of completing about 900 feet of work per day.

### Thousands See Quints

While the actual count of visitors to the Dionne quintuplets last week-end was not available, it was conservatively estimated at North Bay that 6,300 persons saw the famous sisters during Saturday and Sunday. On Saturday 891 cars passed over the road between Callander and the Dafeo Hospital and on Sunday the number was 1,229. An accurate count of the visitors is kept at the

turnstiles leading into the hospital grounds, but Hon. David A. Croll, chief guardian of the babies will release the figures only at the end of the month.

### No "Honor" Marks

No "honor" marks are given candidates who pass the High School Entrance examinations in the Kapuskasing district, according to a decision of the entrance board in that district. The Northern Tribune complained about this, with the result that a letter of explanation from W. Hiscocks, secretary of the board, was published in last week's Tribune. The system of granting certificates on the recommendation of the school principal, the letter states, makes it very difficult to arrive at "honor" standing, as "there is no exact uniformity in estimating the abilities of the candidates."

### Shot Neighbor's Cow

Walter Babbington, a Truax Township farmer, was committed for trial on a charge of shooting a cow belonging to a neighbor, Walter Paget, when he appeared before Magistrate Atkinson in police court here on Friday. The cow had apparently been bothering him and he took the law into his own hands. He was allowed out on bail pending his trial.

### Youthful Burglars

Three youthful burglars, two of them seven years of age and the other nine, will appear before Magistrate Atkinson in Kirkland

**IT COSTS  
YOU NOTHING  
to be COURTEOUS  
to other motorists**

I ASK YOU to please remember, as you hurry along the highways bound for some distant point, that it costs you nothing to be courteous to other drivers and it saves you money.

- It costs you nothing to sound your horn on the highway as you are about to overtake a fellow motorist and it may prevent an accident and thereby save you money.
- It costs you nothing to give the other fellow a wide berth when you meet him and it may prevent a side-swipe and thereby save you money.
- It costs you nothing to hand-signal your intention to slow down, turn or stop and it may prevent a collision and thereby save you money.
- It costs you nothing to "nip" along at the speed of the traffic you are in and it prevents other motorists from having to "cut-in" in order to get "there" and thereby removes one of the greatest causes of costly accidents.
- It costs you nothing to be courteous and considerate of your companions of the road and it will prevent accidents and thereby save dollars and cents for everybody and prevent broken bones and broken hearts as well.

So I appeal to you from the standpoint of sheer economy to be courteous to other motorists on all occasions.

Practise and preach the golden rule of the road—"Show to others the same courtesy that you would like to have shown to you".

Sincerely yours,

*B. J. Weston*

## When the Easiest Way Is the Best Way

THERE are no two ways about it! Certainly the easiest way to get the most for every dollar you spend is to buy products that you know about through the advertisements in your local paper. You don't have to go out and look for buying opportunities. The advertisements bring them to you. And all you need do is consider the facts, compare values and decide on the soap or the sedan that best fits your judgment and your pocketbook.

Certainly the best way of making your money go farthest is to buy merchandise of proved value. Advertised merchandise. Merchandise that is bought and used by many people. Merchandise that must be superlatively good enough for its maker and your local retailer to keep calling it to the attention of people week after week and year after year.

*This is the service - of convenience and profit - that the advertisements offer you. It will pay you to read them regularly and take advantage of everything they can do for you!*

## "Somebody to See You!"

If everybody with something to interest you should come and ring your bell, what a nuisance it would be! Think of the swarming, jostling crowd, the stamping of feet on your porch and carpets!

Every week we know of many callers who come to see you. They never jangle the bell—they don't take up your whole day trying to get your attention. Instead they do it in a way that is most considerate of your privacy and your convenience. They Advertise in your newspaper!

In this way you have only to listen to those you know at a glance have something that interests you. They make it short, too, so you can gather quickly just what you want to know. You can receive and hear them all without noise or confusion in a very few minutes.

In fairness to yourself look over ALL the advertisements. The smallest and largest—you never can be sure which one will tell something you really want to know.
