

## News Notes of the North

(Continued from Page 2)

Morden, find that they came to their deaths by a cave-in caused by a large fall of rock while inspecting workings in the stope 2702 East A 2 in the Lake Shore Mines on August 15, 1936, there being no blame attached to anyone.

### Frosts in Cochrane

The district of Cochrane has experienced two rather severe frosts during the present month, according to the Northland Post, and considerable damage has been done to gardens and field crops. The whole season, it is said, has been a very unsatisfactory one, but residents there are consoling themselves with the fact that they have not suffered seriously from drought and are hoping for better things in the future.

### Skunk in a Gold Mine

The Porcupine Advance on Thursday last told of the capture of a skunk on the 425-foot level of the Hollinger Mine, and described in a humorous vein the steps taken by the miners, who discovered the unwelcome visitor, towards removing it. "If ever anything was rushed underground," The Advance said, "that skunk got a quick ride to the nearest shaft. Hurriedly dumped into a tin, he had the cage very nearly to himself on that fast trip to the surface. He had very few minutes of fresh air before he died." It was thought the animal had either fallen down or wandered into one of the many vents that come to the surface.

### A Versatile Citizen

One of Kapuskasing's most versatile men has been found in the person of W. J. "Bill" Robinson. "Bill" like Nero fiddles while fires burn. He keeps track of forest fires during the week, plays the violin Saturday nights at dances at the Orange Hall, and on Sunday is on the board of strategy of the Kapuskasing ball team.—Northern Tribune.

### Gold Ore Confiscated

Ben Granger, formerly a porter on the C.P.R. pullman running from Montreal to Timmins, will spend three months at hard labor in the Haileybury jail as punishment for carrying a revolver without a permit. A charge of having gold illegally, laid against the same man, was dismissed by Magistrate Atkinson at Tuesday's court when there was insufficient evidence to show that a little black cloth bag

containing \$400 worth of partly treated gold ore was ever in the possession of the lanky dark man. The gold itself was estrated by the magistrate.—Porcupine Advance.

### Find Cow in Well

The loss of a cow from the Dominion Experimental Farm at Kapuskasing had those in charge of the institution guessing for some three days recently, and as it was feared that the animal had been stolen, the services of Constable Gall were enlisted. It was finally discovered that the cow had fallen into an unused well on the farm, thus providing a new version for the old nursery rhyme, "Ding dong bell, Pussy's in the well." The cow was dead.

### Dispute Over Famous Basket

Charges of assault causing actual bodily harm have been laid by Mrs. Alex. Legros, midwife to Mrs. Oliva Dionne at the birth of the quintuplets, against Sydney Brown, Harry Simard and Mildred Adams, North Bay, provincial police stated today. Though details are not known, it is understood the laying of the charges is the result of a dispute between Mrs. Legros and the three defendants over a basket which the quintuplets are said to have occupied at birth.—North Bay Nugget.

### Bad Fire in Gold Camp

A Canadian Press despatch from Kirkland Lake says: "Fire of unknown origin swept through

the Yolles furniture warehouse, Delorme's lumber yard and Henderson's cement works in this Northern Ontario town Saturday causing damage estimated at \$100,000.

A four-hour battle by firemen succeeded in preventing flames reaching six large oil and gasoline tanks and the buildings of the Sylvanite mine. Chief Mathieson estimated the lower part of the town would have been flooded with flaming oil and gasoline had the fire reached the tanks."

### Record Gold Mining Year

Canadian gold production during 1935 established an all-time high record for both quantity and value. The total production of new or primary gold totalled 3,284,890 fine ounces, valued in Canadian funds at \$115,595,279 compared with an output of 2,972,074 fine ounces valued at \$102,536,553 in 1934. Increases in output over 1934 were recorded for Nova Scotia, Quebec, Ontario, Manitoba, Saskatchewan and British Columbia. Ontario, Quebec and British Columbia were the principal gold producers, accounting respectively for 67.5 per cent, 14.3 per cent, and 11.9 per cent of the total Dominion production. An interesting feature of the year was the first officially recorded contribution of lode gold from the Northwest Territories, represented by gold contained in ores shipped from the Great Slave Lake district. The average price in Canadian funds of gold, based on the average prices paid by New York or Lon-

don, was \$35.19 per fine ounce, a reduction per cap. totalled \$10.55 in compared with \$34.50 in 1934. 1935, compared with \$9.48 in 1934. The value of Canadian gold production was the outstanding feature in Canada's mining activities during 1935. Gold mining in 1935. The value of Canadian gold production was the outstanding feature in Canada's mining activities during 1935. Gold mining in 1935.

## Treasurer's Sale of Lands for Arrears of Taxes

Township of Bucke, District of Temiskaming

To Wit:—

BY VIRTUE OF A WARRANT issued under the hand of the Reeve and Seal of the Township of Bucke, in the District of Temiskaming, bearing the date of the 16th day of June, 1936, to me directed, commanding me to levy upon the lands mentioned in the following list of arrears of taxes thereon, together with costs incurred, I hereby give notice that unless the arrears and costs are sooner paid, I will proceed to sell such lands, or so much thereof as may be sufficient to discharge such arrears and charges thereon, at the Township Municipal Offices in the Townsite of North Cobalt, by public auction, on Monday, the 2nd day of November, 1936, at the hour of 2 o'clock in the afternoon.

Adjourned sale, if necessary, will be held at 2 o'clock, p.m., on Monday, November 9th, 1936, at the council Chambers, North Cobalt, whereat the Township reserves the right to purchase any or all of unsold lands with taxes and costs accrued.

Nor. Cobalt— Sunday School—2 p.m.

## When the Easiest Way Is the Best Way

THERE are no two ways about it! Certainly the easiest way to get the most for every dollar you spend is to buy products that you know about through the advertisements in your local paper. You don't have to go out and look for buying opportunities. The advertisements bring them to you. And all you need do is consider the facts, compare values and decide on the soap or the sedan that best fits your judgment and your pocketbook.

Certainly the best way of making your money go farthest is to buy merchandise of proved value. Advertised merchandise. Merchandise that is bought and used by many people. Merchandise that must be superlatively good enough for its maker and your local retailer to keep calling it to the attention of people week after week and year after year.

*This is the service — of convenience and profit — that the advertisements offer you. It will pay you to read them regularly and take advantage of everything they can do for you!*

## "Somebody to See You!"

If everybody with something to interest you should come and ring your bell, what a nuisance it would be! Think of the swarming, jostling crowd, the stamping of feet on your porch and carpets!

Every week we know of many callers who come to see you. They never jangle the bell — they don't take up your whole day trying to get your attention. Instead they do it in a way that is most considerate of your privacy and your convenience. They Advertise in your newspaper!

In this way you have only to listen to those you know at a glance have something that interests you. They make it short, too, so you can gather quickly just what you want to know. You can receive and hear them all without noise or confusion in a very few minutes.

In fairness to yourself look over ALL the advertisements. The smallest and largest—you never can be sure which one will tell something you really want to know.
