

## News Notes of the North

(Continued from Page 2)

fell into the water crossing a bridge leading to the house where they were then living. Wilfrid went in after his brother, and was drowned.

Monday, Alexandre, aged 14, died from blood poisoning, and this morning, Herman, aged six, died from the same infection. Louis, aged nine, is the third victim of the attack, and was reported putting up a brave battle this morning.—Northern News.

### Speed Trap Profitable

Newspapers of the Porcupine district claim that the Matheson police have set a speed trap close to the town and are discovering many motorists who exceed the speed limit set for municipalities. In one week 10 residents received summonses, it is reported, and others from points as far distant as Toronto were similarly served. It is claimed that the "ten and costs" which is levied in all cases where convictions are registered, is building up the municipality's finances at a great rate.

### To Visit Quintuplets

The Porcupine District Pipe Band has chartered a special train for an excursion from Timmins, Schumacher and South Porcupine to North Bay on September 19th, from where there will be bus service to the Dafoe Hospital for a visit to the Dionne quintuplets. The train will leave Saturday night, remain in North Bay on Sunday and return that night.

### Moosonee Excursions

Excursions from Cochrane to Moosonee are announced by the T. & N. O. Railway, to be run each week-end until September 26th. The rate is single fare and one-fifth for the round trip and passengers will be permitted to remain in the northern terminus until either Monday or Thursday of the following week.

### Find Gold on Farm

Recent assays of gold ore found on the Ellies farm three miles north of Timmins that ran \$15.75 to the ton, have led to the forming of the Ellies Gold Syndicate, units in which will soon be available in Timmins, it was reported this week.

Abe Ellies is to be president of the new syndicate which is to be capitalized at 5,000 units having a par value of \$10 each. Each unit represents 300 shares in a company to be formed later. The funds raised are to be used for diamond drilling.—Porcupine Advance.

### Stole Brother's Sheep

A New Liskeard despatch to the daily papers last week said:

"Pleading guilty to a charge of sheep stealing when he appeared here today before Magistrate Atkinson, William Boyce, Harris township farmer, was given suspended sentence and placed on bond for two years. It was alleged Boyce and his hired man, Dave Read, had shot a sheep own-

## DRAEGERMEN GREET MAN THEY SAVED AT MOOSE RIVER

Alfred Scadding, who was imprisoned in the Moose River Mine for ten days last April, paid a visit to the Nova Scotia exhibit at the Canadian National Exhibition and greeted some of his rescuers. He is seen here with Hon. "Mike" Dwyer (left) Minister of Mines for Nova Scotia, and two draegermen, Pat O'Donnell and Bob McNeil.

ed by Boyce's brother, David, afterwards butchering it and placing the meat in the cellar of the Boyce home, where Provincial Constable Walker, summoned by a neighbor, who heard shots, found it. A similar charge against Read was withdrawn."

### Build Road to Mud Lake

The new mining camp of Mud Lake, 50 miles east of Haileybury in Quebec, is to have a motor road built in from Latulippe, according to an announcement by W. R. McDonald, Liberal M.P. for Pontiac county. A contract has been signed and work will commence at once, the announcement says.

### Churches Desecrated

Roman Catholic churches in Timmins, South Porcupine, Iroquois Falls, Ramore, Connaught and Kirkland Lake have recently been broken into by thieves, poor boxes robbed and sacred articles desecrated, according to reports. There has apparently been a series of these crimes and up to last week-end police were without

clues to the identity of the miscreants.

### Honor Cochrane Fire Chief

Chief Ed. Caswell, head of the Cochrane fire department for the past 20 years, was elected vice-president of the Dominion Association of Fire Chiefs at its recent convention. Mr. Caswell is one of Cochrane's pioneer citizens and has stayed with the town through many vicissitudes. He is at present filling the position of town foreman.

Our debts: To God we owe fear and love; to our neighbors justice and character; to ourselves prudence and sobriety.

The older we grow in this interesting and sometimes difficult world, the more convinced we are that the most important thing is to love and help others. We wonder sometimes if folks know how much real pleasure and enjoyment can be got out of life by simply trying to make someone else happy. It is so easy, and takes so little! Let's not wait until friend or loved ones are gone, or are too ill or infirm to enjoy our kindnesses, but do them now.

## The SNAPSHOT GUILD

STUDIES IN CONTRAST

Day and Night.

YOU photograph Junior in his sailor suit, his cowboy suit, dressed for a party and in overalls. You snap Uncle Henry digging in the garden and standing by the car, immaculately garbed to go somewhere. You take a picture of "Sis" in her bathing suit at the seashore and again in her costume for winter sports. You see the same face, but different togs, different activities. These are contrasts which you achieve almost unwittingly with your human subjects, but did it ever occur to you to try for such contrasts with your scenic views?

There is no end of opportunities which nature offers for pictorial studies in contrast. By returning to old scenes at different times and photographing them in the different robes in which they are clothed by the climatic changes of the seasons you will obtain some remarkably different pictures and at length have in your snapshot album a record of entrancing interest. Often such pictorial contrasts are progressive gems of Mother Nature's moods. And in taking pictures at different seasons and under different conditions we enlarge our repertoire of camera tricks—or rather it would be best to say, widen our field of camera knowledge, for really good pictures are rarely the result of tricks.

Perhaps the window from the downtown office exposes a view of a busy city street. Not very inspiring? Well, perhaps not in its everyday dress but haven't you admired

its shimmering beauty on a rainy day when taxi tops, umbrellas, raincoats and asphalt were glistening in the rain? After dark offers other possibilities with the countless electric signs holding aloft their messages, or when some public building or monument is illuminated by floodlights. Rain, snow, sleet—nature's changing moods often transform the drab and colorless into scenes of great charm. Such a simple thing as water glistening in the ruts of a country road may make the difference between a routine and an interesting picture of that same road. A picturesque bridge over a park lake may become much more appealing if pictorial comparison of this object is drawn in a different season. A rock-bound coast with the sea calm or in stormy mood reveals, in your album, the power that is at Neptune's command.

Consider the artistic possibilities embodied in a group of evergreens as they look in winter and again in summer; in flower-dotted meadows contrasted with the same scene in winter dress, or the beauty of a thundering waterfall and when muted with scintillating ice.

Look over your album. Pick out those prints which you believe would make good comparison and when the proper season arrives visit that familiar scene and photograph it a second time. You'll be surprised at the opportunities and the results. And don't forget, now is the time to picture the lovely contrasts that winter makes.

JOHN VAN GUILDER

Cheerfulness is the best promoter of health. Repinings and murmurings of the heart give imperceptible strokes to those delicate fibres of which the vital parts are composed and wear out the machine. Cheerfulness is as friendly to the mind as to the body.

## WESTERN CANADA EXCURSIONS

From all Stations in Eastern Canada  
GOING DAILY — SEPT. 19 to OCT. 3 inclusive  
Return Limit: 45 days

### TICKETS GOOD IN

- COACHES at fares approximately 1c per mile.

## When the Easiest Way Is the Best Way

THERE are no two ways about it! Certainly the easiest way to get the most for every dollar you spend is to buy products that you know about through the advertisements in your local paper. You don't have to go out and look for buying opportunities. The advertisements bring them to you. And all you need do is consider the facts, compare values and decide on the soap or the sedan that best fits your judgment and your pocketbook.

Certainly the best way of making your money go farthest is to buy merchandise of proved value. Advertised merchandise. Merchandise that is bought and used by many people. Merchandise that must be superlatively good enough for its maker and your local retailer to keep calling it to the attention of people week after week and year after year.

*This is the service — of convenience and profit — that the advertisements offer you. It will pay you to read them regularly and take advantage of everything they can do for you!*

## "Somebody to See You!"

If everybody with something to interest you should come and ring your bell, what a nuisance it would be! Think of the swarming, jostling crowd, the stamping of feet on your porch and carpets!

Every week we know of many callers who come to see you. They never jangle the bell — they don't take up your whole day trying to get your attention. Instead they do it in a way that is most considerate of your privacy and your convenience. They Advertise in your newspaper!

In this way you have only to listen to those you know at a glance have something that interests you. They make it short, too, so you can gather quickly just what you want to know. You can receive and hear them all without noise or confusion in a very few minutes.

In fairness to yourself look over ALL the advertisements. The smallest and largest—you never can be sure which one will tell something you really want to know.
