

# News Notes of the North

(Continued from Page 2)

a ground floor higher than street level for the complete 40 by 94 size of the lot will be finished on the second storey with a view to expansion with only part of the space over the ground floor built in at present.—Northern News.

## Mining Boom at Bourkes

Mining activity in Melba township, a few miles east of Bourkes, is causing a good deal of interest in that section of the North. A Montreal company is said to have had good diamond drilling results and is considering sinking a shaft. The township, as well as those adjoining, have been staked almost solid and many prospectors are in the area doing exploration work.

Melba first came into the limelight two years ago this fall when a mild rush occurred, following the discovery of rich ore on the surface.—Porcupine Advance.

## Fire Stops Production

Production at the plant of the Falconbridge Nickel Mines, Sudbury area, is suspended following a fire which destroyed the Stinson power plant of the Ontario Hydro-Electric Commission on Thursday last. Damage at the plant was estimated at \$300,000 and the city of Sudbury's supply of electricity has been cut to some extent, but not seriously. Plans for the rebuilding of the plant are being made, but it is said that it will be several weeks before it can be put into operation again.

## Steel Man Visits Mines

A recent visitor to Noranda and district was Reginald Bedford, chairman of the John Bedford & Sons, Limited, of Sheffield, Eng. Mr. Bedford, who is accompanied on a trip throughout the mining districts of Canada by his secretary, Russell Morley, expressed his amazement at the remarkable development of this North Country since his previous visit here some ten years ago.

Head of one of the largest steel corporations in England—a concern which has been in existence well over a century—Mr. Bradford is making an extended tour for the purpose of interviewing the executives of all the principal mines of Canada.

## Will Add to Population

The town of Timmins and the township of Tisdale, nearby, through their respective municipal councils, have reached an agreement for the annexation by the former of a block of ground which will add some 3,000 population to the big gold mining town. The area consists of two or three suburbs which have grown up in the township, immediately outside of the town's boundaries. The agreement will be placed before the Ontario Municipal Board for its approval and, if there are no objections from the people concerned, it will in all probability be completed.

## Dread Disease at North Bay

Clarence Rheaume of North Bay is in a critical condition from the ravages of the deadly streptococcus viridans infection. In an endeavor to save his life last week a blood transfusion was secured from Michael Johnson.

proprietor of a hotel at Wolfe Island, near Kingston. Mr. Johnson, one of the few known people who have recovered from the dread disease, volunteered his services and came to North Bay for the transfusion. It was found on arrival that his blood was not entirely suitable, but a serum was compounded from it which it was hoped would prove efficacious.

## Build New Fish Hatchery

Construction of the new fish hatchery 20 miles from North Bay on the new highway to Timiskaming, Quebec, will begin immediately, it was announced today by J. W. Jones, superintendent of construction for the Ontario Department of Game and Fisheries. Location of the hatchery will be at a spot a mile west of the highway, and approximately one mile north of 30-Acre Lake. Facilities are admirable, especially for trout, which require the cold water. It is stated that water in the region is as low as 44 degrees even in midsummer.—North Bay Nugget.

## Salvage Burned Timber

An announcement from Queen's Park on Saturday by Premier Hepburn and Hon. Peter Heenan Minister of Lands and Forests, said that a plan had been completed for the salvaging of fifty million feet of burned over timber in Northern Ontario. The plan would give employment to between 2,500 and 3,000 men, it was stated, and it was claimed to be the largest salvaging operation in the history of Ontario lumbering. The area east of Port Frances, said to have suffered worst in the summer forest fires, is where the burned timber will be cut and two of the larger

lumber companies have been allotted limits there.

## More Forest Fires

District Forester W. B. Greenwood of North Bay announced at the week-end that the total number of forest fires in his district this year had been 127. His territory extends north as far as Matachewan. Last year's total was 123. Last week saw the fire season about over, according to Mr. Greenwood, although the district is still quite dry in some places. This year the majority of the fires occurred in July and early August, whereas in normal years the greater number occur earlier in the season.

## Crerar Coming

Personal confirmation has been received here from Hon. T. A. Crerar, Dominion Minister of Mines, of his intention to make a special visit to Kirkland Lake. In a letter to E. W. M. Paisley, president of the Liberal Association, Mr. Crerar says that he will be glad to make arrangements for the visit for any time after October 19, on which date he will return from a tour of the western provinces.—Northern News.

## Win Baseball Trophy

The Wright-Hargeaves baseball team won the championship of the E.O.B.A. and the Ottawa Journal Cup last week, when they defeated the Ottawa Eastview nine, three games to two, in the series played in the gold camp. The deciding game was played on Saturday, with the Miners taking the long end of a 6-2 score. All the games were hard fought and were followed by large crowds of fans.

FASCIST ARMIES HAVE WEAK LEGS

## When the Easiest Way Is the Best Way

There are no two ways about it! Certainly the easiest way to get the most for every dollar you spend is to buy products that you know about through the advertisements in your local paper. You don't have to go out and look for buying opportunities. The advertisements bring them to you. And all you need do is consider the facts, compare values and decide on the soap or the sedan that best fits your judgment and your pocketbook.

Certainly the best way of making your money go farthest is to buy merchandise of proved value. Advertised merchandise. Merchandise that is bought and used by many people. Merchandise that must be superlatively good enough for its maker and your local retailer to keep calling it to the attention of people week after week and year after year.

This is the service — of convenience and profit — that the advertisements offer you. It will pay you to read them regularly and take advantage of everything they can do for you!

# Treasurer's Sale of Lands for Arrears of Taxes

Township of Bucke, District of Temiskaming

To Wit—

BY VIRTUE OF A WARRANT issued under the hand of the Reeve and Seal of the Township of Bucke, in the District of Temiskaming, bearing the date of the 16th day of June, 1936, to me directed, commanding me to levy upon the lands mentioned in the following list of arrears of taxes thereon, together with costs incurred, I hereby give notice that unless the arrears and costs are sooner paid, I will proceed to sell such lands, or so much thereof as may be sufficient to discharge such arrears and charges thereon, at the Township Municipal Offices in the Townsite of North Cobalt, by public auction, on Monday, the 2nd day of November, 1936, at the hour of 2 o'clock in the afternoon.

Adjourned sale, if necessary, will be held at 2 o'clock, p.m., on Monday, November 9th, 1936, at the council Chambers, North Cobalt, whereat the Township reserves the right to purchase any or all of unsold lands with taxes and costs accrued.

All above mentioned lands are patented.

C. D. CHENIER,  
Township Treasurer

Dated at North Cobalt, Ont., July 18th, 1936

## "Somebody to See You!"

If everybody with something to interest you should come and ring your bell, what a nuisance it would be! Think of the swarming, jostling crowd, the stamping of feet on your porch and carpets!

Every week we know of many callers who come to see you. They never jangle the bell — they don't take up your whole day trying to get your attention. Instead they do it in a way that is most considerate of your privacy and your convenience. They Advertise in your newspaper!

In this way you have only to listen to those you know at a glance have something that interests you. They make it short, too, so you can gather quickly just what you want to know. You can receive and hear them all without noise or confusion in a very few minutes.

In fairness to yourself look over ALL the advertisements. The smallest and largest—you never can be sure which one will tell something you really want to know.
