THURS., MARCH 4th, 1937

MEMORIES ARE SHORT

A good example of the shortness of man's memory is found in the weather summary issued this week by Jas. Reavell from the local meteorological station. For weeks past the most common expression heard, even among the old timers, has been, "I never saw a winter as mild as this one." Now it is revealed that only five years ago we had a milder winter, when the period from October to February, inclusive, is taken into account. February itself, in 1932, was within a few degrees of being as mild as the month just past, January was much milder and the whole period had an average temperature of 27 degrees, compared to the present 20 degrees.

No doubt men's memories in other ways often deceive them. Everyone loves to recall unusual events and differences between "then and now" but on the whole there is probably no great difference in general conditions as the ages pass. Of course there has been great progress in many ways, but the essential things and conditions remain for us pretty much the same as they were for our forefathers.

WHAT ABOUT TEMISKAMING?

A despatch from Porquis Junction to the North Bay Nugget states an announcement has been made that some 10 or 12 miles of paving will be done on the Ferguson Highway south of Cochrane this summer, and that a similar stretch eastward from Kapuskasing is also on the program. What about Temiskaming?

One wonders why the announcement of work further north was made at this time, or whether this particular section is to be neglected again this year.

This is about the time of year when the annual agitation for better roads in the North commences, but so far there appears to have been nothing done and nothing announced by the government that would lead to a definite conclusion that Temiskaming is to be included in the roads program. Another summer's traffic through the Temagami Reserve, with little or no improvement to the road, will just about mean the complete rebuilding of the highway which it took so many years to get in the first place.

The number of cattle of all kinds on Ontario farms at December 1st, 1936, was 2,503,200, according to a survey by the Department of Agriculture.

The Porcupine Advance says that railwaymen of the T. & N.O. in Timmins will vote in favor of a strike, according to a survey made by the newspaper among those who received strike ballots.

W. G. Nixon M.L.A. for Temiskaming, was elected chairman of the Agriculture and Colonization Committee of the Ontario Legislature, at its organization meeting on Tuesday.

A City Residence

for a day, a week or longer—from a single room with bath to the most sumptuous housekeeping suite equipped with linen, silver and china—affording every convenience, luxury and attendance. Delightful lounge reception rooms—unexcelled restaurant service—that briefly is the distinctive appeal of the Windsor Arms.

Ice Carnival at Arena Was Gala Event on Friday

Good Crowd in Attendance and Masquers Have Lots of Fun; Prize Winners Listed

The ice carnival staged on Friday night last at the local arena was a gala event, with a good crowd in attendance and with the masquers in particular having plenty of fun. There were the usual classes for the fancy and comic costumes worn by both adults and children, entertainment at intervals between the events and a big "barnyard" hockey game to wind up the proceedings.

The fire department, which operates the arena, announces that the net proceeds were \$42.60, half of which has been handed over for the benefit of the Children's Shelter, and the men in charge wish to extend thanks to the judges of the costumes, Mrs. L. Erenhaus, Mrs. J. O. Belanger and Mayor S. J. Mason; to the merchants and others who donated the prizes and to all who helped in any way to make the event a success.

Prominent in the entertainment were Messrs. Gratton and Potvin, who, with the assistance of the Fleury brothers of North Cobalt as musicians, staged the comedy acts which greatly pleased and mystified the audience.

All the races were keenly contested and the parade of those taking part in the carnival made a great hit. The following is the list of prize winners:

- Boys' Race, under 12—Osborne Burton; Guy Vanier. Girls under 12—Velma Cook; Therese Joyal. Boys under 16—Allan McIsaac, Ronald Lewis. Girls under 16—T. Scott, V. Cook. Boys' Obstacle Race—H. Holly, Howard Hutt, Billy Austin.

COSTUMES

- Fancy Dress Couple—Mrs. J. White and Mrs. Leliever. Fancy Dress Lady—Mrs. Jay Gould, Mrs. Wm. Farmer. Fancy Dress, Gentleman—Paul Burnett. Fancy Dress, Boy under 15—Jack Leishman, Jack Lettner. Fancy Dress, Girl under 15—Patsy Douglas, Mildred Ferguson. Best Comic Costume—Albert Matton. Men's Race, Open—A. Houle, Ernie Dupuis. Ladies' Race, Open—Mrs. L. Herron, Miss Regimbal. Mystery Balloon—Leonard Villeneuve.

HAUL SUPPLIES FOR HYDRO COMMISSION RESERVOIR PROJECT

Supplies are now being hauled in over a winter road from Nellie Lake, for a reservoir project of

Haileybury in 1927

Items from the Files of The Haileyburian of Ten Years Ago

Ten years ago this week Emmett Smith's rink of curlers was in Toronto playing for the Dominion championship, and local sport fans were watching the results with great interest.

Two defective chimneys and a boy playing with matches were held responsible for three fires reported in The Haileyburian on March 3rd, 1927. In none of the fires was there great damage sustained.

After considerable preliminary work, the organization of Vega Chapter, Order of the Eastern Star, was reported as completed 10 years ago this week with 50 charter members.

Fred Thompson is the winner of the Jemmett trophy at the local curling rink as the result of a closely contested final game with Jos. Branchaud.

The Haileybury Choral Society announces that practice meetings are to be held each Wednesday evening in the United Church.

Hon. Wm. Finlayson, minister of lands and forests, announced that the government's fleet of aeroplanes for forest fire prevention would be augmented by the addition of several machines this year.

The local war veterans were planning 10 years ago for a celebration of the anniversary of the battle of Vimy, and invited all returned soldiers to attend a meeting to make the arrangements.

Local skaters and masqueraders had a great night's fun at the big ice carnival held in the arena on Friday night last. The sport included a "Confederation" hockey match between two local teams picked at random from the galleries.

The Hydro-Electric Commission on the Frederickhouse River, to the north of Connaught, according to advices this week from the north. A large dam will be built on the river, it is stated, during the coming summer to provide a storage basin for the power development at the Abitibi Canyon. There will be between 200 and 300 men employed on the work, according to report.

The Frederickhouse river joins the Abitibi at Island Falls, some distance above the canyon development and the report is to the effect that a greater flow of water at certain seasons of the year will be provided by the proposed reservoir.

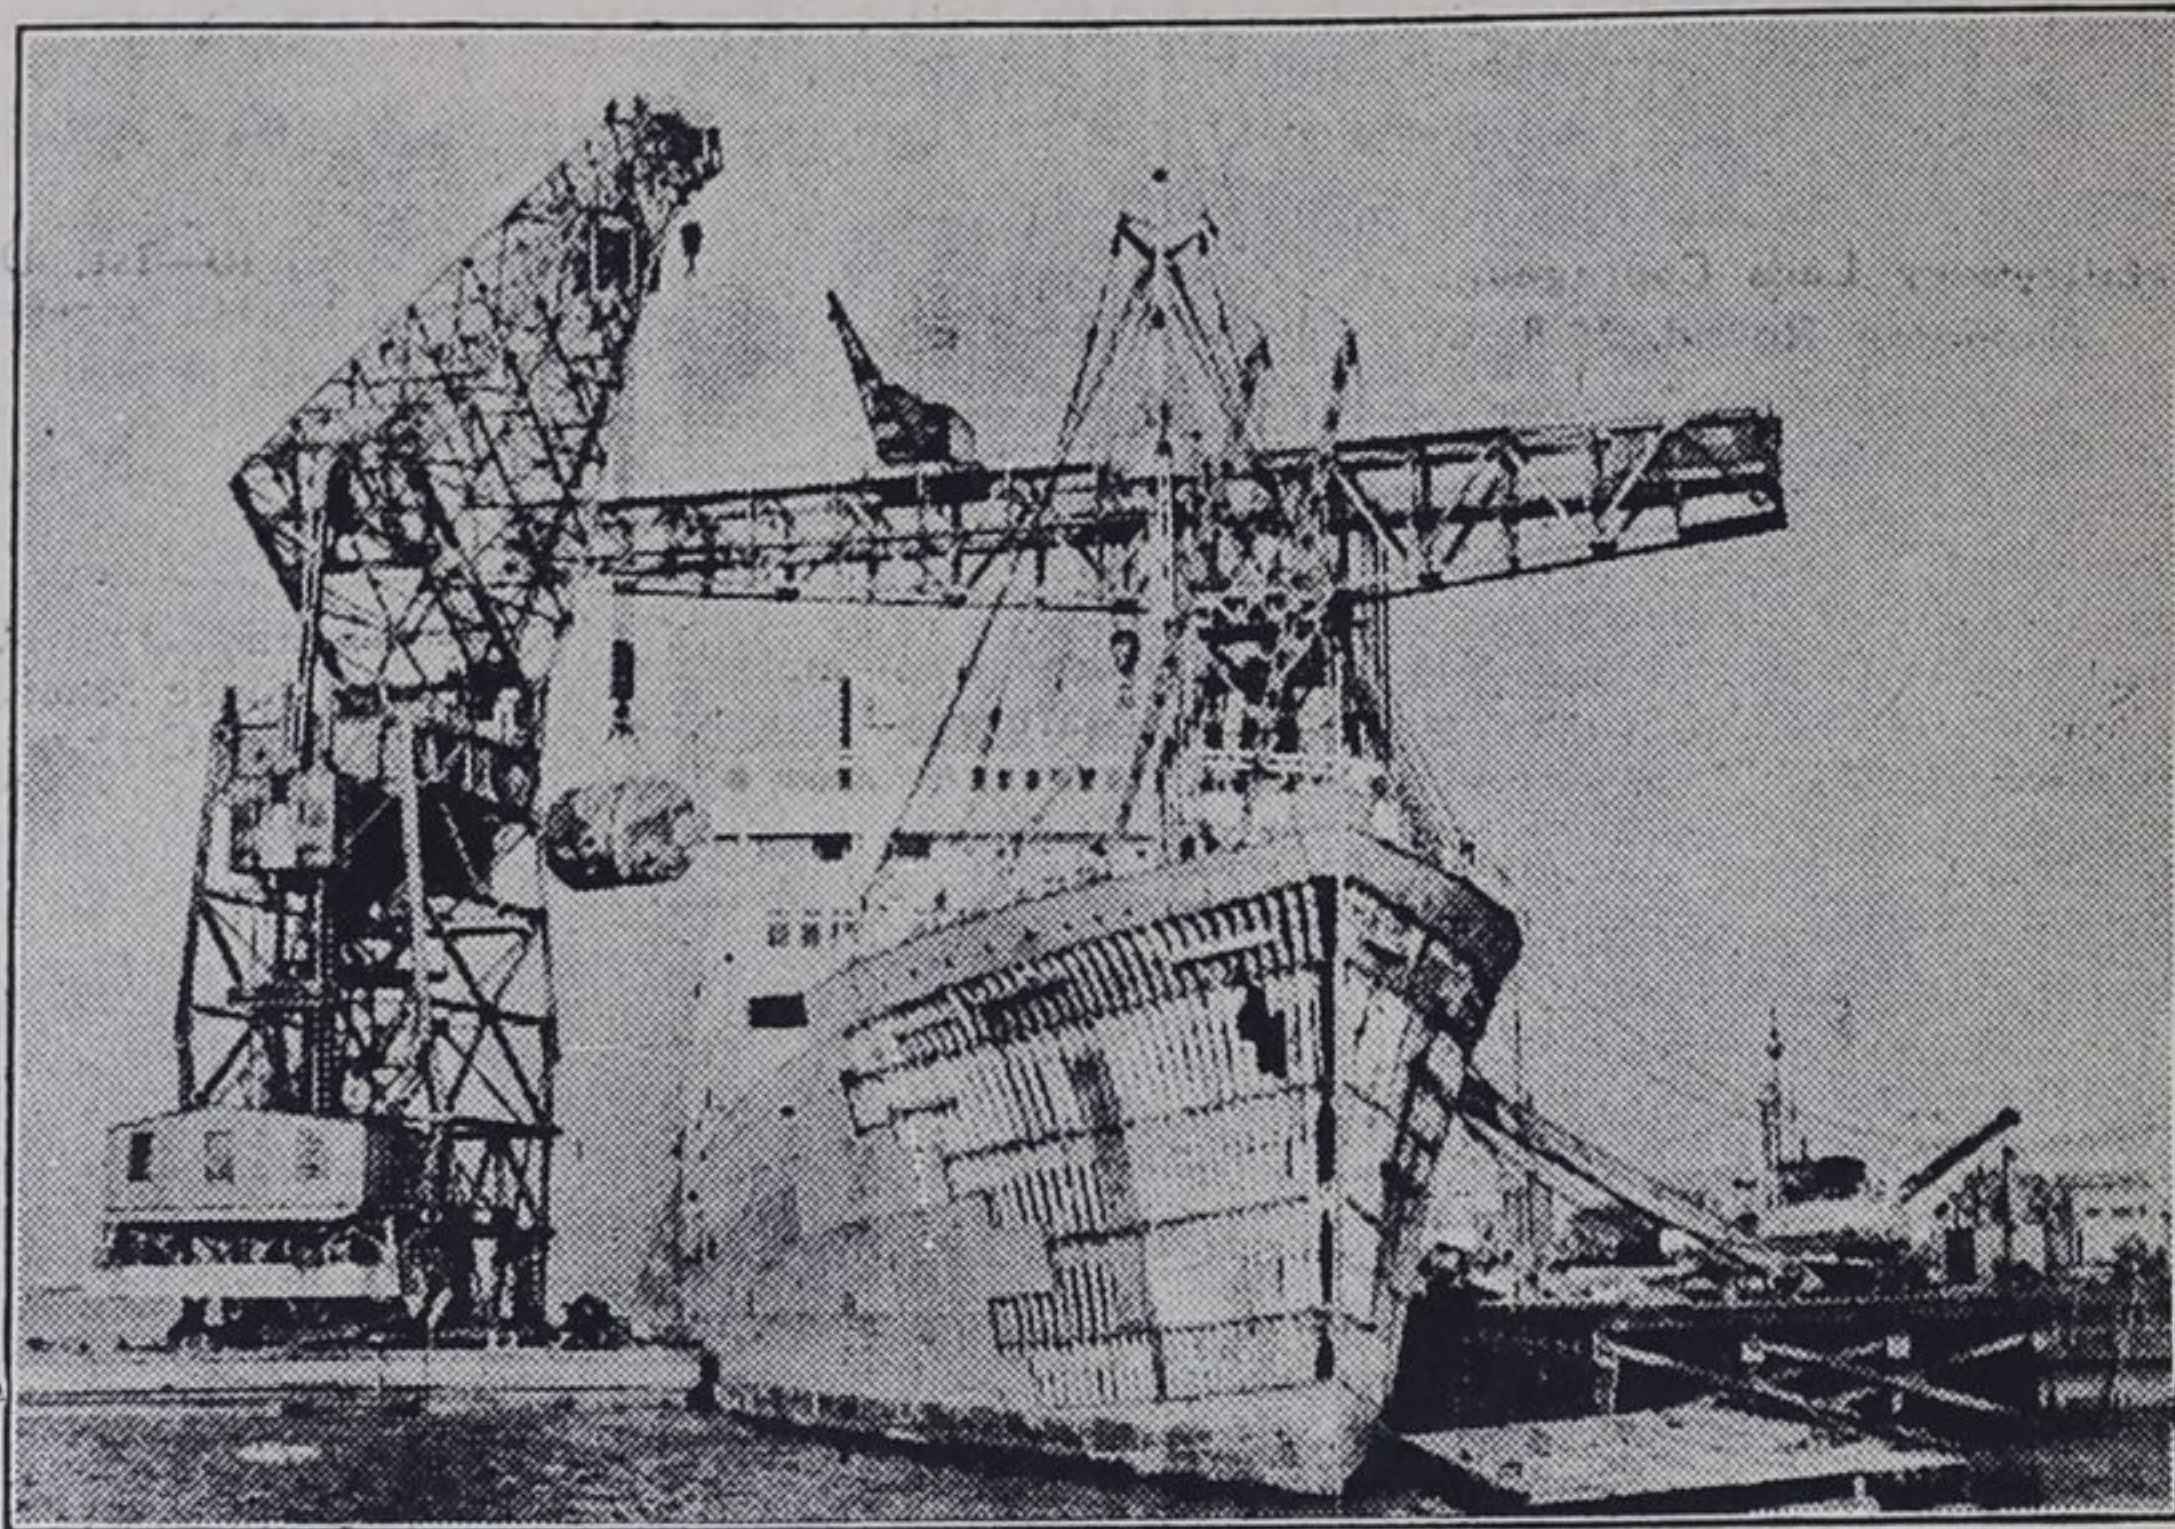

When the Easiest Way Is the Best Way

THERE are no two ways about it! Certainly the easiest way to get the most for every dollar you spend is to buy products that you know about through the advertisements in your local paper. You don't have to go out and look for buying opportunities. The advertisements bring them to you. And all you need do is consider the facts, compare values and decide on the soap or the sedan that best fits your judgment and your pocketbook.

Certainly the best way of making your money go farthest is to buy merchandise of proved value. Advertised merchandise. Merchandise that is bought and used by many people. Merchandise that must be superlatively good enough for its maker and your local retailer to keep calling it to the attention of people week after week and year after year.

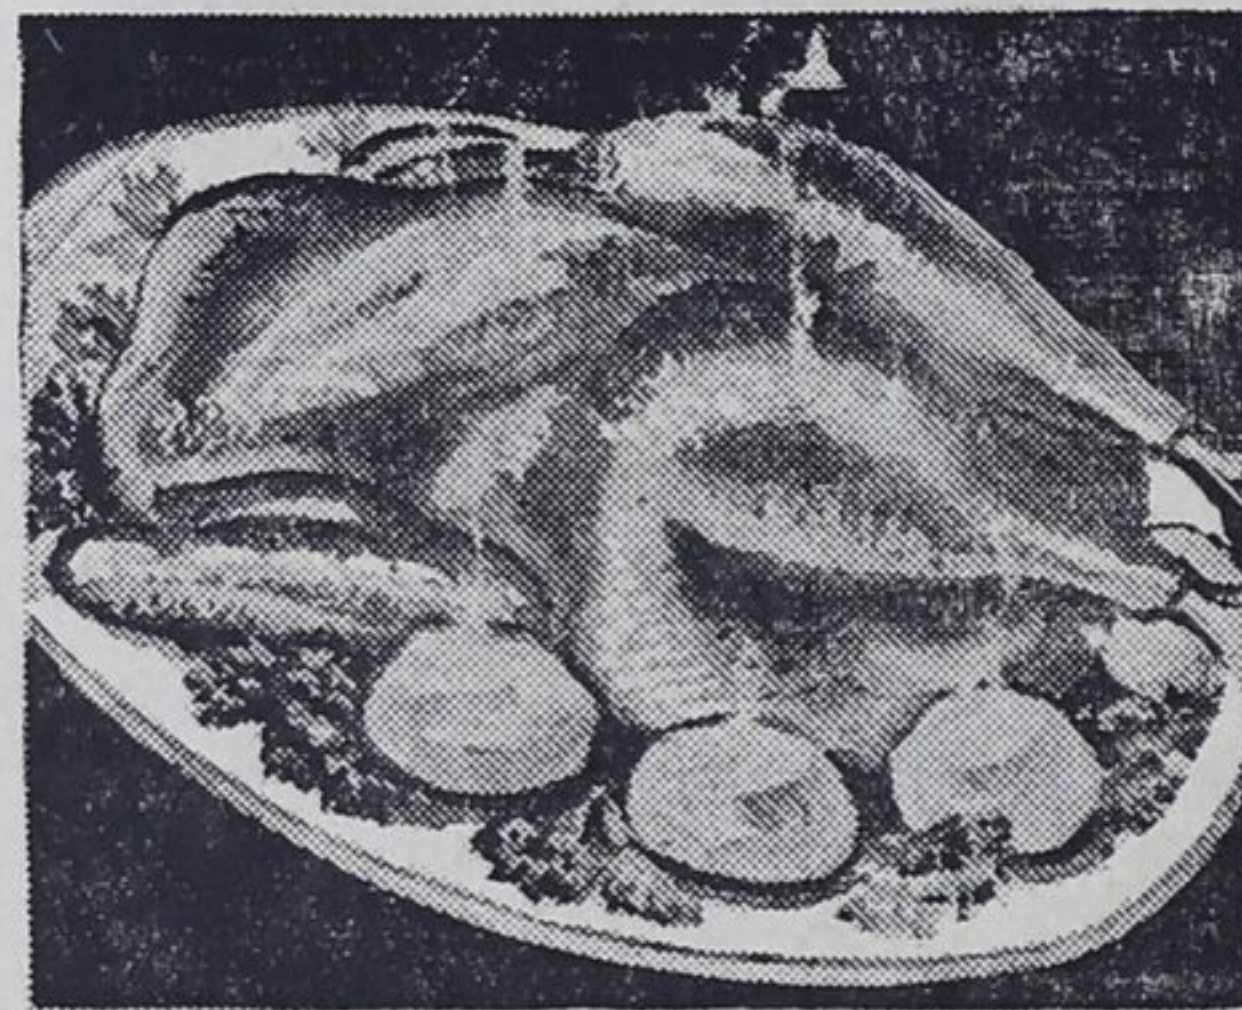

This is the service — of convenience and profit — that the advertisements offer you. It will pay you to read them regularly and take advantage of everything they can do for you!

FAMOUS LINER GOES TO SHIPYARDS FOR LENGTHENING

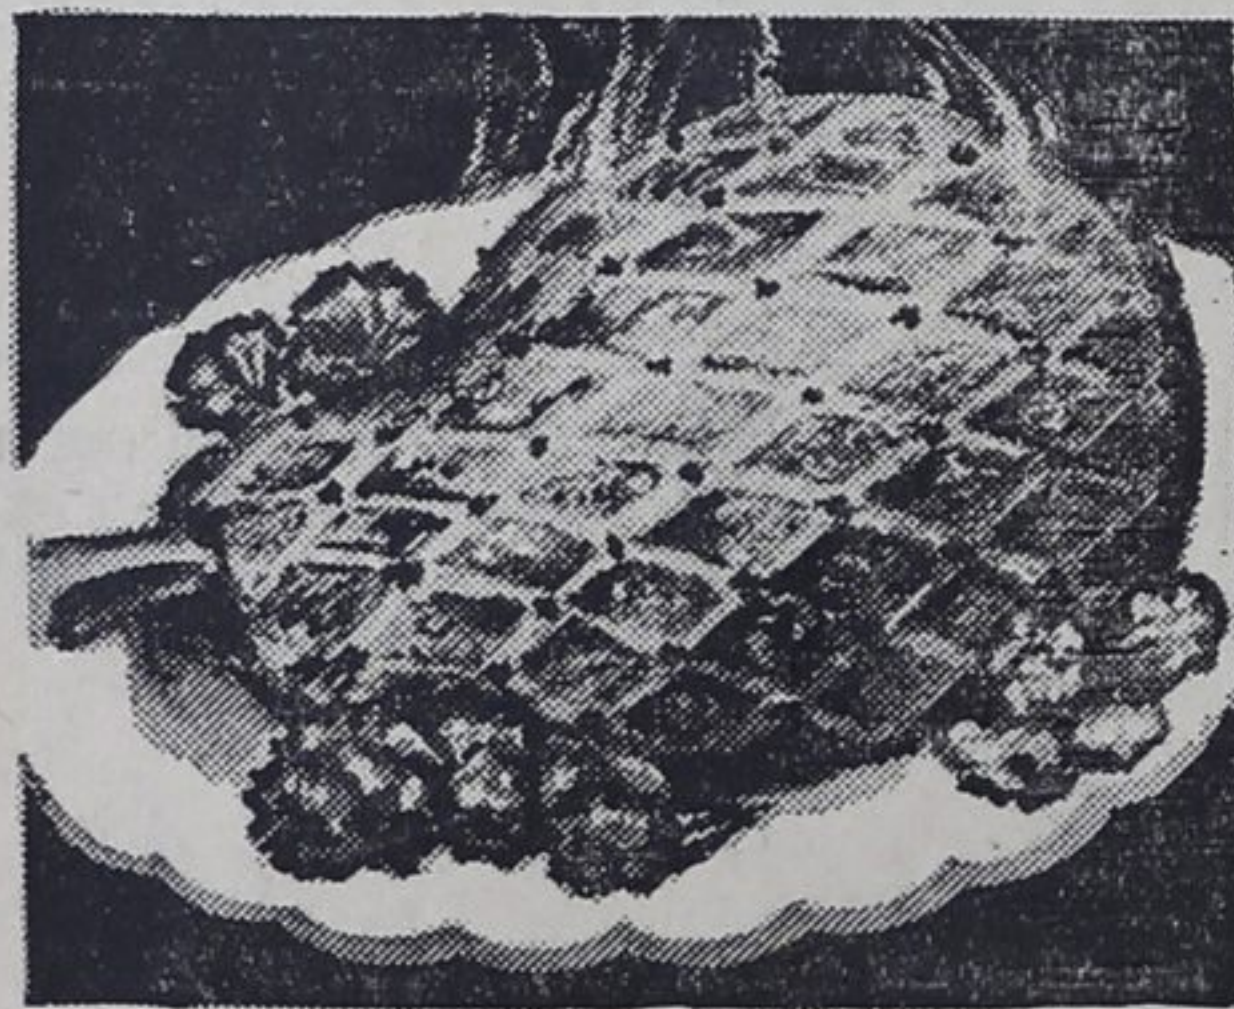

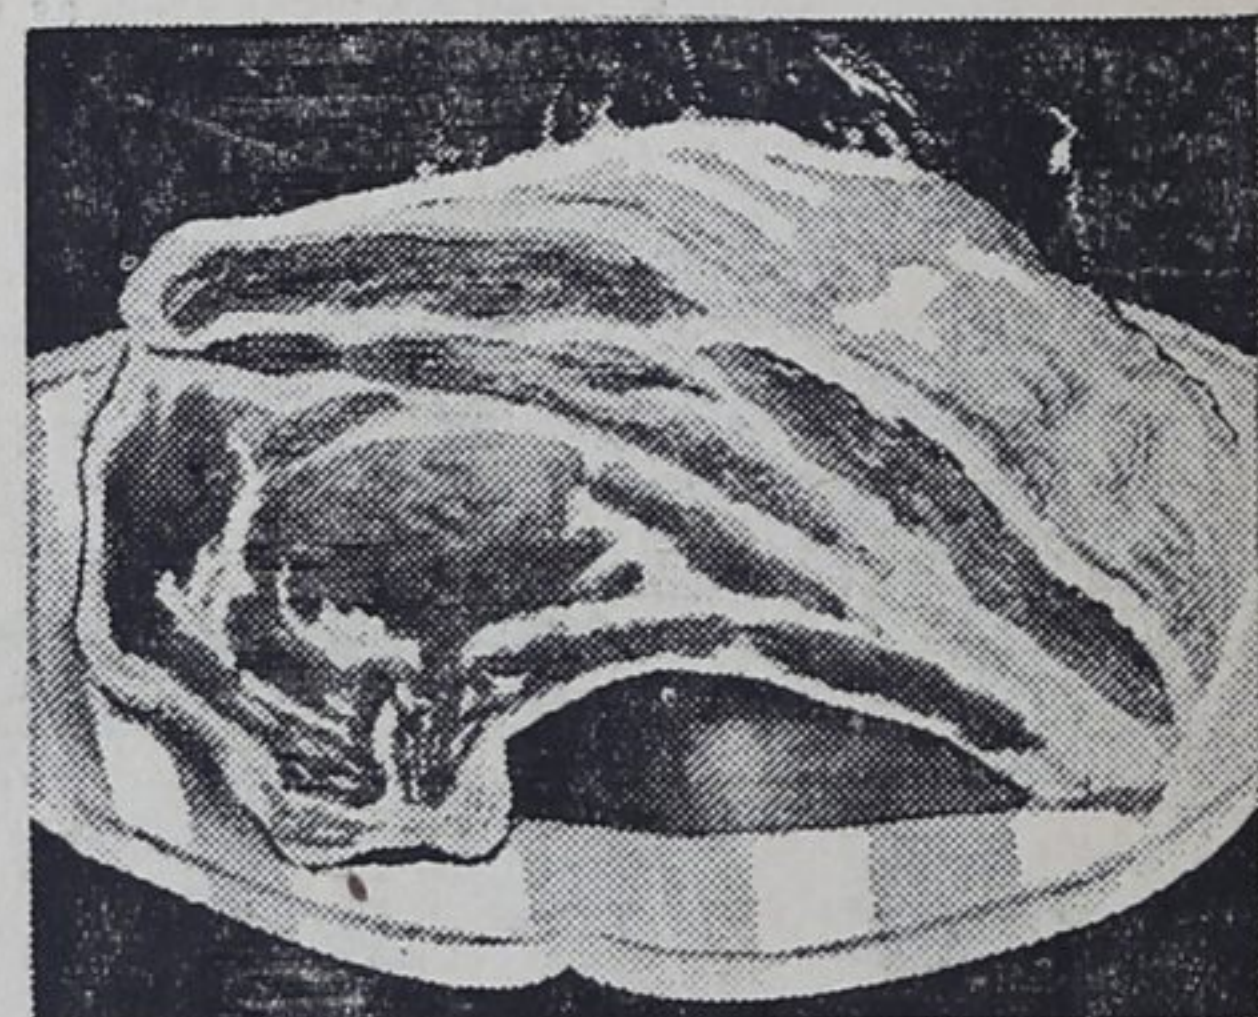

Our photograph shows the work in progress on the overhauling of the British liner "Arundel Castle" in the Belfast shipyards. Some of her plates have been taken off, and when the picture was taken the giant crane on the left was hoisting one of the boilers out of the ship to make room for alterations.

What IS MODERN COOKING

ROASTS that STAY Tender and Juicy

MEATS with LESS SHRINKAGE and MORE FOOD VALUE

NO watching or "fork poking" or "oven peeping"

— in other words . . .

ELECTRIC Cooking

Meat is the foundation of a man's meals. And does he like his meats well cooked! What a joy to have a modern range, one that unfailingly produces roasts that retain their flavors and juices. That are tender and appetizing. That are good to chew on and good to look at. Meats that are inexpensive to prepare because they don't dry out. That's modern cooking — electric cooking — quick, sure, economical. A few dollars a month will install a new electric range in YOUR home. Liberal allowance for your old stove.
