

Ask Government To Meet Cost of Voters' Lists

George W. Tucker, secretary-treasurer of the South Temiskaming Municipal Association, has received a letter from a sister organization in the Rainy River district, in which support for a number of representations be made to the Ontario government

is asked. One of these relates to the preparation of voters' lists at the time of provincial elections and it is urged that the cost of these should be met by the province and not by the organized municipalities, as at present. The letter will be read at the annual meeting of the district association, scheduled to be held in New Liskeard next month.

PLANES OF THE R.C.A.F.
and how to spot them
APPROVED BY THE ROYAL CANADIAN AIR FORCE

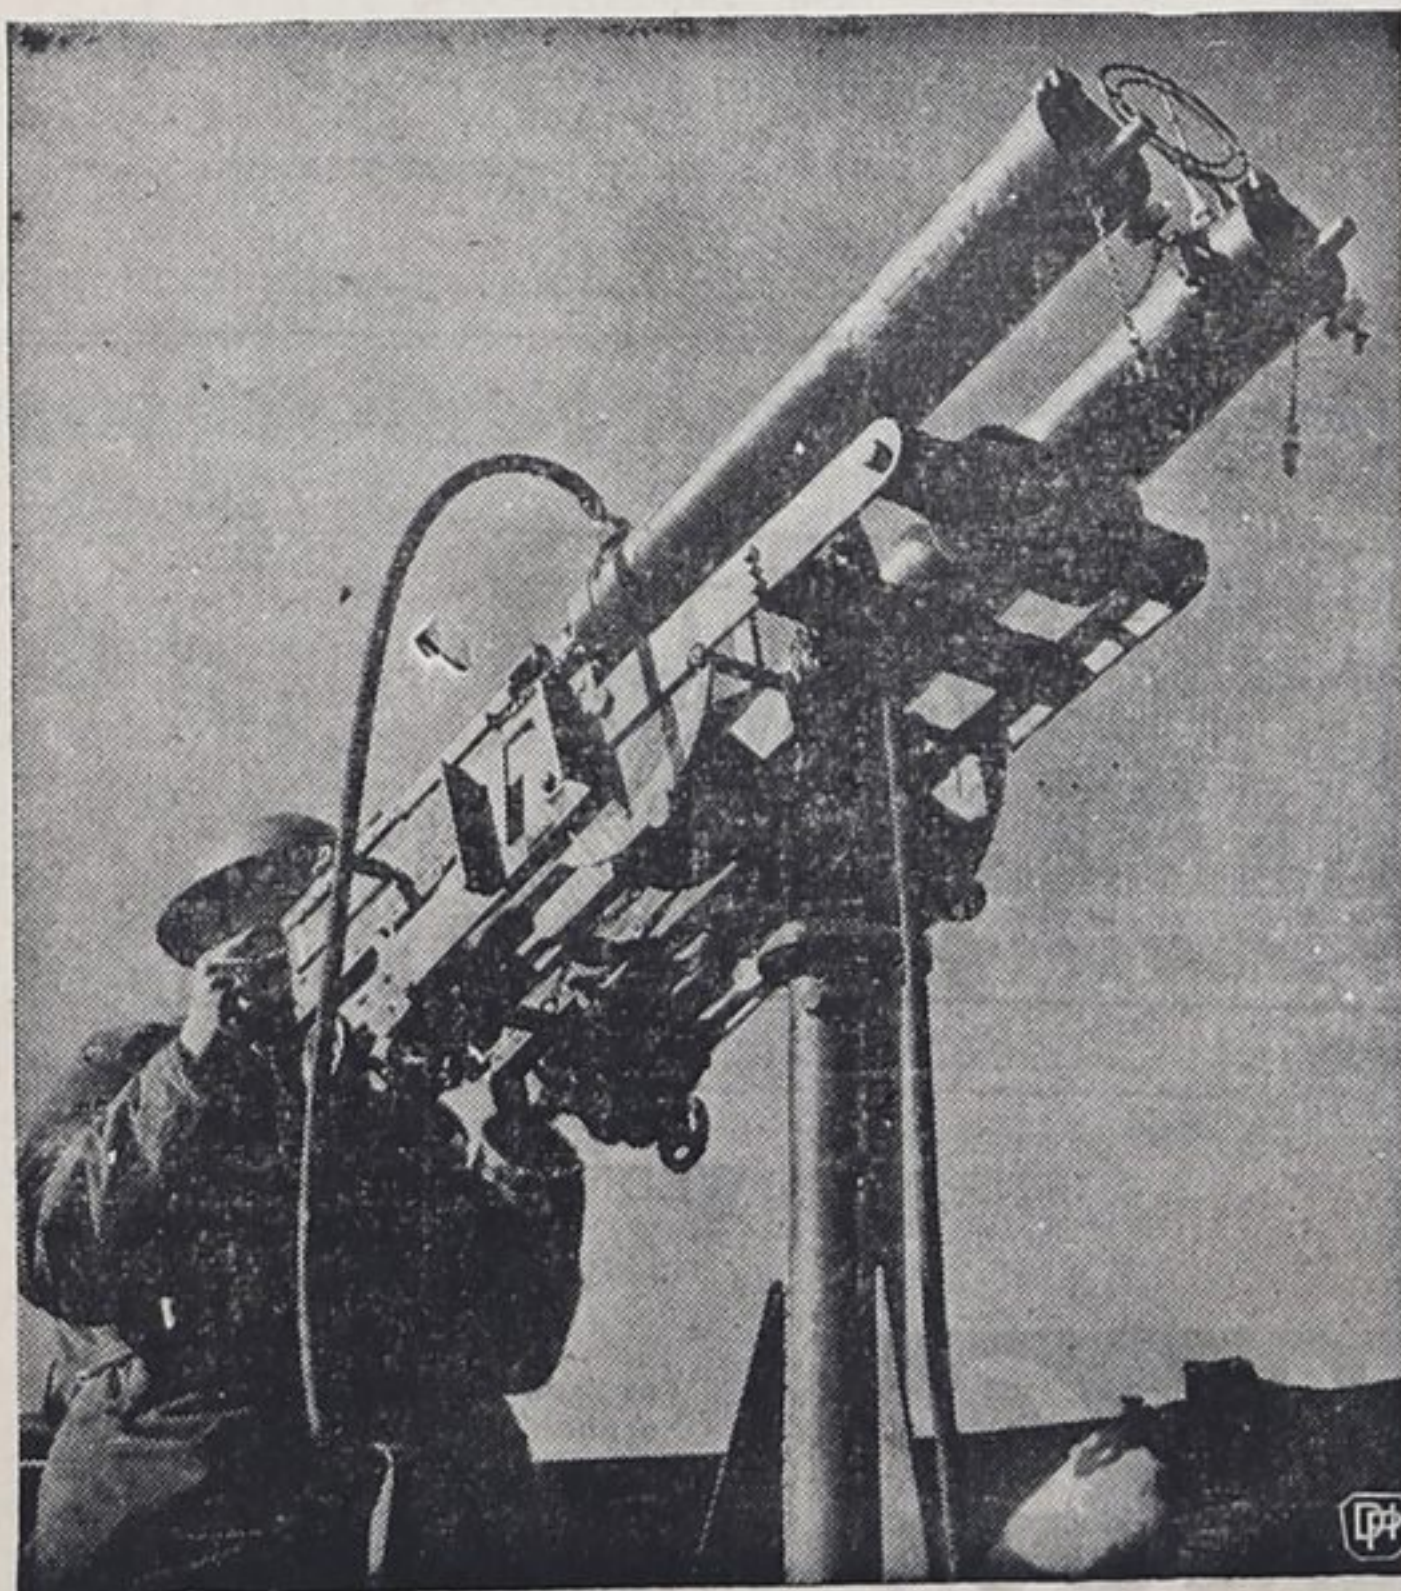

THE Manchester is a worthy descendant of a long and honored name in British aviation. "Avro 504" is a name known to every pilot who ever flew for the Royal Air Force in the first world war. And today in other, and more modern aircraft, the name lives on. The Avro Anson has made history, so it is altogether likely that the Manchester will do likewise.

The Manchester is unique in the fact that it is the only one of the so-called "heavies" equipped with two engines instead of four. But what engines they are! Twenty-four cylinder Rolls-Royce Vultures—and while no official data is provided, it is easy to guess that they must be rated close to 2,000-h.p. each.

This huge aircraft of 90' wing span is an all-metal, mid-wing monoplane, and designed for ease and speed in large-scale production. It is completely fitted with modern de-icing equipment and cabin-heating is installed. Bomb load is not published, nor is the speed admitted, but it must be in the neighborhood of 300 miles per hour. Armament is heavy, with two machine-guns in the nose, two in the upper gun turret and a further four in the "tail stinger"—all operate from power-driven turrets.

SWEEPING SKIES OVER CONVOY

Since the start of the war Canada's Navy has shown phenomenal ability to cope with heavy demands made upon it. Among the proudest achievements has been the work done on convoy duties. In this photo ready for the enemy from the skies a steel-helmeted seaman-gunner stands guard, hoping to get a Nazi bomber true on his sights.

Wife Preservers

When you line a cake pan with waxed paper, hold it in place with spring clothespins. If it is not held in this way the paper may slip and some of the cake batter go under the paper. Clamp clothespins firmly on edge of pan with paper, and your hands are free to pour the batter in.
