

Has Ship Lost By Enemy Action; Now In Air Force

Edward H. McKinlay Has Second Trip Overseas on War Service; A Former Haileyburian

The following interesting sketch of the wartime activities of a former local boy was received a few days ago by The Haileyburian:

"Edward H. McKinlay, son of Mr. and Mrs. J. H. McKinlay, once a resident of Haileybury and a student at the Haileybury Mining School, will soon be leaving for overseas service again.

In his first overseas service he held the berth of a Junior Engineer Officer on the motor ship Macy, which was attached to the British Merchant Navy.

After the loss of his ship by enemy action he returned home and went to work at the Defence Industries Limited at Nobel, Ont., as a gun cotton analyst in their main laboratory. At the end of ten months he was in line for position of shift foreman in the gun cotton lab., but sacrificed this position to join the R.C.A.F. and begin training for the position of radio technician.

Since then he has successfully taken the course at McGill University in Montreal, and later graduated as a Leading Aircraftman from the R.A.F. radio school at Clinton, Ont.

While at the Clinton school in addition to his other duties he was given the position of flight commander which he still holds.

At present he is spending his embarkation leave with his parents at Midland, Ont., which is the town of his birth.

He wishes to take this opportunity to thank Mr. Wm. Tuke, principal of the Haileybury Mining School, for the kind assistance given in helping him secure this position in the radio branch of the R.C.A.F."

Mrs. Ann Shipley of Kirkland Lake, in a radio interview last week, said there was no probability of the gold mines shutting down or their production being seriously curtailed by war conditions.

Golf Club Notes

The third qualifying round for the President's Cup was played last Saturday and Sunday. The final result showed that Ron Morrisette and Don Campbell had qualified with 82-18-64 and 76-7-69 respectively.

The Gordon Cup event, which determines the Junior Champion, has been postponed. The new date will be announced later.

As the date set for the President's Cup final, Saturday, August 15th, conflicts with the dates set for the tournaments to be held at Kirkland Lake and Sudbury, it has been decided to postpone this event.

The Seagram golf tournament will be held at Sudbury on the 14th and 15th of August and the Invitation tournament will be held at Kirkland Lake on the 14th, 15th and 16th. All members of the Haileybury Golf Club are eligible to play in either tournament. All those planning to participate in either tournament are requested to get in touch with the Captain.

Arrangements have been made to broadcast the scores in the first and second days' play in the Canadian Open Golf Championship, and also the final day (Saturday, August 8). The Thursday and Friday time will be 6.30 to 6.45 p.m., while on Saturday from 3.30 to 5.00 and 5.30 to 6.00, with the presentation ceremony following the final round.

There will be a meeting of the Lawn Bowling Club on Friday evening at 8 o'clock, on the court house greens.

There have been 3,546 desertions from the Canadian army since the outbreak of war, 31 from the air force and 91 from the navy, according to a return tabled in the House of Commons.

Officers conducting the aptitude tests for recruits from the Cochrane district were surprised slightly yesterday when they travelled to Cochrane to administer the tests to five Indians who had filed application for enlistment in the active forces.

All the Indians passed the examinations. And one of them established a proud record by achieving the highest percentage recorded since the introduction of the "M" tests in the district. He was Sydney William Moore of Moose Factory.—Timmins Press.

Officers and other ranks stationed at Fort Chippewa Barracks had an abundance of fresh green peas served with their meals today due to the generosity of George Kemp, Sundridge florist, who supplied the training centre with sufficient to provide entire camp strength with one, and probably two good feeds of the popular vegetables.

The peas were picked by a detachment of soldiers who were transported

to Sundridge on Wednesday to take advantage of the generous offer of the florist, who has already donated thousands of flowers and other plants to the training centre last year and this year.—North Bay Nugget.

On his return, Harold said he had experienced no tire or any other kind of trouble on the trip.—Temiskaming Speaker.

CAN'T LOCATE BODY

On Sunday, Mr. Sol Sky and a party including Coroner F. C. Evans spent the day on Night Hawk river and lake in another search for the body of David Sky, thought to have been drowned last fall in this vicinity. They found a hip-boot and a half a jacket recognized as belonging to the missing man, but as yet no body. The provincial police are making a thorough search today of the river and bush at the point where these articles of clothing were found. Mr. S. Sky has made many week-end searches for the body of his nephew since the spring break-up but until Sunday no definite personal traces (except his canoe) have been found.—Porcupine Advance.

PLENTY OF PROJECTS

A despatch from Quebec City says: "Premier Adélard Godbout received a delegation from Abitibi County at his office here yesterday. Hon. Pierre Emile Cote, provincial minister of lands and forests and of game and fisheries was also present. The delegation, headed by Hector Authier, member of parliament for Chapleau, and Felix Allard, member of the provincial legislature for Abitibi, asked the provincial government to open a pulp mill at Senneterre; to complete the 26-mile road between Barraute and Val d'Or; to exploit peat-moss east of Senneterre; and to build a sanatorium for tuberculosis. Premier Godbout said that the requests would be considered.

ODD TRAFFIC CASE

An example of the Highways Traffic Act case of the future appeared before Magistrate Atkinson at court when James Lazarou answered to a charge of furious driving laid against him by Constable Ivan Morrow of the local force. Lazarou, testified the policeman,

was observed racing his pony-drawn wagon down Government Road West.

Morrow told the court the small Shetland pony was perspiring freely and was frothing at the mouth while his driver urged him to greater speed with shouts. The pony cart occupied by Lazarou passed many automobiles on the street before finally being brought to a stop. After weighing the evidence, Magistrate Atkinson ruled that Lazarou pay a fine of \$10 or spend the next 30 days in jail.—Kirkland Lake Northern News.

MORE WOOL IS NEEDED for Canada's War Effort

CO-OPERATE IN ONTARIO'S EFFORT TO PRODUCE MORE WOOL. HELP INCREASE THE SIZE AND NUMBER OF ONTARIO SHEEP FLOCKS

PRODUCING more wool to clothe Canada's fighting forces and her civil population is a vital task which deserves the earnest consideration of every Ontario farmer. A brief study of the wool production of North America and of world conditions occasioned by the war reveals an alarming situation that calls for straight thinking and forthright speaking.

North American Wool Production 1941		North American Wool Consumption 1941	
Canada	19,200,000 lbs.	Canada	109,000,000 lbs.
United States	455,000,000 lbs.	United States	977,000,000 lbs.
Total	474,200,000 lbs.	Total	1,086,000,000 lbs.
DEFICIT - - - - - 611,800,000 lbs.			

You can see that with shipping space at a premium and with every merchantman a target for enemy submarines, the situation is indeed critical. More wool must be produced at home and it's up to Ontario farmers to help produce it.

The Ontario Department of Agriculture is working to effect an increase of 25% in this province. To do this, all present flocks must be kept, and in addition, 110,000 ewe lambs from the 1942 crop must be kept on the farm. If every present flock owner kept three ewes from this crop, most of the increase would be obtained. But since many sheep owners cannot accommodate any more animals, the Department is asking Ontario farmers to establish 1,000 new flocks which will absorb all surplus ewe lambs. Your Agricultural Representative will be able to put you in touch with men who have lambs for sale or men who wish to purchase them.

In establishing 1,000 new flocks, it is intended that expansion take place by counties in proportion to the present sheep population. You will see what expansion must be accomplished in your county in the lists below.

THE RAM POLICY

Any farmer starting a new flock of 15 ewe lambs or more may secure a ram for two years on loan from the Dominion Government.

CONSULT YOUR AGRICULTURAL REPRESENTATIVE

For complete information about securing ewes, ewe lambs, or rams, or about any part you can play in helping Canada produce more wool, consult your county Agricultural Representative or W. P. Watson, Live Stock Branch, Dept. of Agriculture, Toronto.
