Noted in Passing

The winter started in earnest on Friday last, with a big snow and wind storm and rapidly falling temperatures. The wind continued throughout Saturday and Sunday and later the calm weather brought a particularly hard frost for December, with the mercury touching 36 below on Tuesday morning at the government bureau and thermometers in different parts of the community registering as low as 40 below. Yesterday there was an improvement, but it remained well below the zero mark throughout the day.

In spite of the extreme cold, there were few traffic accidents, nothing requiring police attention it was stated at provincial headquarters. Some motorists got into minor difficulties and it was not uncommon to see the old cranks being put into use when engines refused to start by the usual means. The hills are somewhat slippery, but on the whole conditions are not bad, and it was evident that care was being exercised by all drivers.

And a word of advice to the tardy Christmas shoppers: Better not delay too long in these troublous times. Many store keepers are working shorthanded, many lines of merchandise are scarce and there are many other reasons why the shopping should not be put off until the last minute. By spreading it out we can all be assured of the best possible service with the least possible amount of hardship on the part of both buyer and seller. There are only seven more days, but even in that period we can exercise judgment to the general advantage of the community.

ONLY TWO PARCELS DISPOSED OF AT COLEMAN TAX SALE

(Continued from Page 1) safe docket prepared a year ago. This money, it was stated, represented taxes paid to keep in good standing several small lots that had been put up for sale plus funds for the redemption of some ground that had been sold at the 1942 tax sale and now was being redeemed. By a coincidence, the date of this week's sale was only the final day for redeeming properties sold last December.

The two claims picked up by purchase on Monday were four acres of land in the Mud Lake area, west of the town, and 19 8-10 acres in the bed of Giroux Lake, in the eastern part of the township. In the case of the former, Robert Piche of Kirkland Lake bought the fraction, paying the taxes, interest and costs of \$16.14, while he also assumes responsibility for the assurance fee due to the Ontario government. The second deal was made with W. L. Forrest, whose address is given as Goderich, and who secured the claim under the lake on payment of outstanding obligations to the municipality of \$86.15.

This water lot had been listed in the name of Mrs. T. A. Thornton of Chicago, and the Mud Lake four acres was stated to be owned by the Samuel O'Rourke estate. There were two other properties listed as the property of Mrs. O'Rourke, who lives at Boston Creek, and who, as Mrs. Crawford, was formerly a resident of West Cobalt.

Both owners have the usual year and a day in which to redeem their respective lands, in this case December 14,

NOTICE TO CREDITORS

In the Matter of a Bulk Sale of certain fixtures, equipment and stock-in-trade, etc., of a retail store located on Roche Street at Matachewan, Ont. TAKE NOTICE that Thomas Connelly, executor to the estate of Donald Connelly, who died on or about the 21st day of October, 1943, has made a sale of the business carried on by the late Donald Connelly at Matachewan, Ontario, and the undersigned has been appointed trustee under the Bulk Sales Act.

All persons claiming to rank as creditors of the business of the said late Donald Connelly are required hereby to file their claims with the undersigned, duly certified by a statutory declaration, on or before the 31st day of December, 1943, after which date the purchase price of the said business will be distributed amongst the creditors of the said Donald Connelly estate of whose claims, if any, the undersigned shall have received notice.

DATED at Haileybury this 26th day of November, A.D. 1943. JOSEPH A. LEGRIS, 28 Georgina Avenue, Haileybury, Ontario, Trustee.

Ontario Hospital Monument To Democratic Way of Life

24 Hours a Day For 68 Years

The eerie shriek of the siren sank to a low moan as the ambulance braked to a quick stop beside the crowd collected around the crumpled heap by the roadside. Tender hands lifted onto the stretcher what had been a happy care-free youngster but a few short minutes before. The doors closed and the car glided swiftly away with its burden of pain, bound for the Hospital for Sick Children—that splendid institution which for 68 years has waged unceasing war against accident, sickness, disease and death.

READY FOR ANY EMERGENCY The Hospital stands ready at all times to meet any emergency. Accident cases are not the only ones which must have prompt attention. Children with deformed backs and limbs, defective eyesight, rare diseases and physical disabilities must have prompt help too. Neglect may mean permanent disfigurement, deformity or chronic disease. While fourteen days is the average each public ward patient is treated, a large number are inmates for weeks, some for months and a few receive treatment over a period of years. Many are problem cases, sent there because of the world-wide reputation earned by the doctors who donate their time and talents without stint in the service of suffering little ones.

CAUSE FOR PRIDE Though the Hospital for Sick Children is situated in the City of Toronto, it belongs essentially to all the people of Ontario because it welcomes children from every part of the Province who are in need of medical aid or hospital care.

No exceptions are ever made. There are no barriers of race or creed. Children of parents from every walk of life find sanctuary. Those who can pay, do so gladly. Those who cannot are never turned away. The people of Ontario may well feel proud of this institution—this living monument to our democratic way of life.

Some idea of the immense value and wide scope of the Hospital's work may be formed from the fact that during the past year alone, over 9,025 sick and crippled children were given treatment in its public wards, while in the Out-patient department

over 60,427 visits were recorded.

SECOND TO NONE Because the operating costs of the Hospital are among the lowest in North America for institutions of a similar type, and because of the high quality of the services and medical assistance provided, the Hospital for Sick Children is recognized in the hospital world as outstanding in efficiency. There are over eighty physicians and surgeons on the staff, all of them leading specialists in child ailments. These men give their services free to the public ward patients.

NOT SELF SUPPORTING The Hospital is not self supporting and the reason for this is not hard to find. Less than 5% of the patients are able to pay the full cost of their care. The other 95% are the public ward cases who occupy 414 of the 432 beds in the Hospital at all times. The cost of providing hospital care for each public ward patient is about \$150 per day more than the combined income from the patient (or the patient's municipality) plus the government grant. As a result of this, each year the Hospital faces a deficit amounting to many thousands of dollars. This year this deficit is greater than ever before, mainly due to conditions created by the war.

SYMPATHETIC PUBLIC LENDS A HAND Were it not for the generosity of sympathetic and understanding people, business organizations, societies, clubs, etc., the scope and work of the Hospital could not be maintained on its present scale. Each year about this time a province-wide appeal is made for financial help to meet the annual deficit.

This year over \$125,000 must be raised. Because of the fact that patients are admitted from every part of the province, the Hospital does not share in Toronto's United Welfare Fund. Therefore, it makes its own appeal. It does so, confident in the knowledge that a generous and understanding people will come to the aid of little children who depend on them for a chance for health—a chance to take their place in the years to come as members of a prosperous and industrious society. No canvassers are employed by the Hospital, so send your gift direct to the Appeal Secretary, The Hospital for Sick Children, 67 College Street, Toronto 2.

Haileybury History Items from the Files of The Haileyburian of 15, 10 and 5 Years Ago

Twenty Years Ago Navigation on Lake Temiskaming was still open when The Haileyburian was published on December 13th 1923, with the steamers Meteor and Temiskaming making their final trips of a busy season. Both were to be laid up for the winter on December 15th. The local fire brigade had celebrated the opening of the hall with a card party; the G.W.V.A., meeting in one of the old street cars, had decided on the erection of a new club room; T. & N. O. engineers had made a preliminary report on the route of the branch from Cobalt to South Lorrain, and the first service had been held in the basement of what was to be the new United Church.

Fifteen Years Ago Local curlers had prepared schedules for the opening events 15 years ago this week, although the ice was not yet ready for play; Jos. A. Laurin, acting as court interpreter, was complimented on his efficiency by Mr. Justice Jeffrey at the fall assizes; the lake had frozen on December 8th; Wm. MacArthur had the distinction to be the last motorist to travel over the Ferguson Highway before it was snowed up for the winter, and S. J. Mason wrote to the town council asking that daylight

1944. The second phase of the present sale for taxes is scheduled for December 27 next when, if last year's experience is any guide, there may be a number of bids received for claims scattered up and down the township. Altogether, the current list contains 119 individual parcels up for taxes, and its pages include a number of properties that formerly bore well-known names in the camp's busier days. Some of them were in last year's list also, but brought no bidders then, council including them in the current catalogue in an effort to clean up this business.

A notice posted on the wall of the chamber where the sale was held stated that all arrears, including interest, due subsequent to December 31, 1942, on properties purchased when the redemption period expires, unless the ground has been redeemed by or for the owner, during the redemption period.

Fishing in the Great Lakes may be brought under government control to restore the depleted fisheries, if the recent recommendations of a joint American-Canadian commission are enacted into legislation by the two countries.

Adolph—Down to Witchcraft

Worried Hitler, according to reports, spends hours with sorcerers, seeking to counteract the "mass spell" invoked by dabbles in witchcraft. An authority on Voodoo tells—in The American Weekly with this Sunday's (Dec. 19) issue of The Detroit Sunday Times—why he thinks occult "Psychic Blitz" may be driving Adolph to a series of ruinous mistakes.

NOTICE

TREASURER'S SALE OF LANDS FOR TAXES

TOWNSHIP OF COLEMAN District of Temiskaming

To Wit:

By virtue of a Warrant issued by the Reeve of the Township of Coleman bearing date the tenth day of August, 1943, an Adjourned Sale of Lands in arrears for Taxes in the Township of Coleman will be held at the Council Chambers of the Corporation of the Township of Coleman at the hour of 10 o'clock in the forenoon, continuing until 5 o'clock in the afternoon, on the 27th day of December, 1943, offering, unless the Taxes and Costs are sooner paid, all those parcels of land remaining unsold after the closing of the Tax Sale of the Corporation of the Township of Coleman held December 13th, 1943.

At this Adjourned Sale the Municipality reserves the right to bid the amount shown in purchase of all or any of the Parcels.

Copies of the list of Lands to be sold may be had at my office.

Dated at Treasurer's Office, Cobalt Ontario, this 15th day of December, 1943.

L. M. STARK, Treasurer, Township of Coleman

saving be considered for the ensuing year.

Ten Years Ago

Best Ashley and Jack Nicholls were reported missing on a plane flight from Toronto to Fort Erie, in The Haileyburian 10 years ago this week. The town's fire loss for the year was just \$17.50 as reported by Fire Chief Bradley; there were still hard times in the district from the depression and residents were being asked to contribute to the Christmas Cheer fund; striking woodsmen in the Rouyn district were being transported by plane to Ville Marie jail, in relays as there were 76 of them; senior and junior hockey schedules were published that week and the rink was to be open the day after the paper was printed; three cars of ore had been shipped during the week by mines at Cobalt.

Five Years Ago

Hockey notes featured The Haileyburian five years ago this week, with schedules for both junior and Intermediate teams billed to start immediately after Christmas. Two tragic deaths were reported from Cobalt, a small girl being killed by a motor car and a man drowned in Clear Lake; local stores were planning for a "Boxing Day" holiday; the fire brigade had donated \$50 to the Christmas fund for the children at the Shelter, and there had been a "picture racket" in the district which was being investigated by Magistrate Atkinson in police court.

Illustration of a man with a lightning bolt for a body conducting a symphony of electrical appliances. Text: "SUNDAY, MONDAY AND EVERYDAY..." DAY in, day out, your electrical appliances — food-savers, labour-savers, time-savers — are more valuable to you now than ever before! They work most efficiently, and at minimum cost, if kept in good condition. Give them the attention they deserve at the first sign of wear or trouble. Minor repairs can be quickly and easily made at home. Do not neglect repairs until the appliance is out of commission. For more serious trouble, call your repair man immediately. Give them the care they need and they will keep you singing through the days — "Sunday, Monday and Every day". Reddy says: NORTHERN ONTARIO POWER COMPANY LIMITED
