

Golf Club Notes

The hostesses for tea on June 25 will be Mrs. H. Jenkins, Mrs. M. McNulty, Mrs. I. Gleason and Miss Kay Keddie.

A mixed two-ball foursome is planned for Saturday, June 21. This should be good fun, so come on everybody and win yourself some golf balls.

On Friday, June 20, the second round of the President's Cup (Ladies' section) will be played. Marge Murphy brought in the low score with Clara McNulty following closely on her heels in the first round played last week. The course is drying up quickly and playing conditions should be considerably improved soon.

Tuesday, June 24 will see the second round of the McIsaac event get under way. Due to the bad weather last week, the first round of this popular event had to be held over, so this day's play will include the first round also thus two players will qualify for finals.

Fifteen players competed in the Tuer event, which was played on Tuesday, over a fairly wet course with every one's score soaring. Audrey Bond had the lowest net, qualifying with 38. Flora McFarlane qualified in second place with a net 46.

A Junior Kiwanis Club, composed of high school students, has been formed in Cobalt, the second such organization in Canada.

Joseph Tremblay, 85 years of age, died at his home in North Cobalt last Thursday. He is survived by his widow, four sons and three daughters, 33 grandchildren and five great-grandchildren.

Continuous Rain Here Brings Lake Level to Record Height

(Continued from Page 1) floods. At one or two points along the lake, the action of the water has caused erosion pretty close to the pavement.

Some local residents claim the water in Lake Temiskaming is

NOTICE OF APPLICATION

The Liquor Licence Act, 1946 Licensing District No. 14 TAKE NOTICE that Canadian Legion, Branch 44, B.E.S.L. of the Town of Cobalt in the District of Temiskaming will make application at a Special Meeting of The Liquor Licence Board of Ontario to be held at the Council Chamber, Municipal Building, in the Township of Kirkland Lake, in the District of Temiskaming on Friday the 18th day of July, 1947, at the hour of 9.30 o'clock (D.S.T.) in the forenoon for the issuance of a Club Licence for the following premises: Canadian Legion Club Rooms, 38 Silver Street, Cobalt, Ontario. Any person resident in the licensing district may object to the application and the grounds of objection in writing shall be filed with Mr. Bruce Williams K.C., the deputy registrar of the licensing district, whose address is 62 Government Road W., Kirkland Lake, at least ten days before the meeting at which the application is to be heard. DATED at Cobalt, Ontario, this 16th day of June, 1947. C. R. SOPHA, President Branch No. 44, Canadian Legion Cobalt, Ontario.

higher than at any previous time, while others recall somewhat similar conditions in the spring of 1929 when the pumphouse was flooded. The height of the seawall protecting the building was later increased by three feet.

The farmers are perhaps the worst sufferers from the continued wet weather. Little seeding has been possible and they can only hope for a late fall to get any crops harvested that may still be raised. One man said on Tuesday he had only been able to sew two bags of oats so far and he was at a loss to know what to do for next winter's feed.

Notes of the North

SHORT ON TEETH

The usual solemnity of the Tisdale police court at South Porcupine was broken recently when acting magistrate S. Platou, K.C., stated that he did not consider a man with only twelve teeth capable of biting the ear off another man.

The complainant, A. G. Budarick, charged that Iso Radmonovich bit off his left ear following a game of poker which ended in a wrestling match. The charge was dismissed.—Porcupine Advance.

RETURN TO EAST

A survey completed at Hollinger Consolidated Gold Mines Ltd. shows that 13 of the 23 miners from Nova Scotia who were hired this spring returned to the Atlantic coast after a few months' work here.

Only six of the 23 are still employed at the mine. Of these, two are regarded as potential machine runners and the other four are described as "quite satisfactory" employees.

Two of the Nova Scotia men left the employ of the mine because they said they did not like mining, that it was hard on their

Notice to Creditors

In the Estate of George Sutherland, Deceased. All persons having claims against the estate of the above-named deceased late of the town of Haileybury in the district of Temiskaming, who died on the 9th day of February, 1946, are required to file proof of the same with the undersigned on or before the 10th day of July, 1947.

After that date the estate will be distributed having regard only to the claims of which the undersigned shall then have had notice.

Dated at Haileybury this 11th day of June, 1947.

Duncan Edwin Sutherland Haileybury, Ontario, Administrator of the Estate

R. D. CUMMING, Haileybury, Ontario, Solicitor for the Administrator

nerves. One left because he did not like the pay. Another was released for losing time.—Timmins Press.

ONLY ONE RECOURSE

Truckers who overload came in for more scathing criticism at Wednesday night's meeting of the executive council of the Board of Trade. Responsibility for the condition of the roads was apportioned by various speakers to these truckers, the weather and lack of maintenance during the war years. As truckers were the only one of the three elements about which anything could be done immediately, it was decided to following the previous representations on the subject to the Department of Highways and provincial police.—Cochrane Post.

HORRENDOUS STORM

The weather is something residents of the twin cities, like people everywhere, talk about and complain about and it is accepted as a starter in any polite conversational derby. It makes news when it becomes unusual. Early on Wednesday morning the town was wakened out of its sound sleep, with wits scattered and goose pimples raised, as a tremen-

dous Wagnerian symphony of sound, a gigantic battle of the gods, took place in the skies above. Horrendous peals of thunderous thunder and great flashes of lightning played across the sky in the murky darkness. It was followed appropriately yesterday by the hottest day of the year so far.—Rouyn-Noranda Press.

ROAD COMPLAINT

The roads are in terrible condition and in most townships you could only go for half a mile before stopping and wondering if it would be better to go ahead and get stuck or go back and waste gas. On many roads as bad as they are, trucks of all kinds are hauling pulpwood of all kinds and making ruts deep enough to lay sewers and install waterworks. You can't motor on township roads in the winter for snow and in the summer for ruts and mud holes. So why spend thousands of dollars on maintenance. The South already has roads and the government should spend a large share in the North, where the No. 11 pavement is the only thing you can call a good road.—Zalek Vertlieb in Temiskaming Speaker.

NOT SABOTAGE

A bag containing 18 sticks of dynamite was found near the Ontario Northland Railway tracks in the vicinity of Sesekinika recently and was destroyed by Constable Lyle "Bud" LeBar, in charge of the local detachment of the Ontario provincial police, it was learned today. The detonator was set on one stick.

Despite the suspicious circumstances under which the dynamite was found, police believe it was quite possible that the powder was left accidentally by some prospector. Over a period of years police have found "hundreds of pounds" of dynamite left in the bush and in all sorts of strange places. It is not believed that the dynamite is left behind for sabotage purposes.—Kirkland Lake Northern News.

GOVERNMENTS ACT

Both the Dominion and Ontario governments stood committed to take action toward alleviation of the Lake Nipissing flood situation today. As a result of a series of urgent demands for action by Mayor J. L. Shaw and the North Bay Board of Trade, both E. P.

Murphy, deputy minister of works for the Dominion and Hon. Geo. H. Doucette, Ontario minister of public works, have announced their willingness to have engineers from both governments meet in North Bay to study methods of reducing the level of Lake Nipissing, which has caused hundreds of thousands of dollars property damage in recent weeks.—North Bay Nugget.

NEW HORIZONS IN Canada Unlimited

DIPLOMA IN CANADA'S FUTURE

WHETHER it be an engineering degree or a metalworking certificate, whether it be received in cap and gown or dungarees, this paper represents accomplishment. It states that this young man has prepared himself with training for leadership in his field... that he has foresight and faith in himself.

But more than this, it indicates that our reservoir of trained youth has been increased; that still more Canadians have equipped themselves to accept the challenge offered by Canada's promise of rich rewards to imagination and initiative.

Combined with Canada's vast resources, these ambitious young men and women give substance to the New Horizons in Canada Unlimited.
