**Twenty Guessers
Name Right Date
of Ice Going Out**

Lake Declared Clear on
Sunday, April 29th, by
Annual Contest Referee

Sunday, April 29th, 1951, is the official date for the ice leaving Lake Temiskaming this year, and an even score of guessers in The Haileyburian's annual contest named the date before April 9th. The number of successful guessers is considerably larger than was the case last year, although the number of entries was just about the same as usual.

The last three days of April and the first three of May appeared to be the favored dates, and the 29th is just around average. The lake has been known to open up on April 9th, and on the other hand, the ice has remained until May 23rd. These dates are exceptional, however.

All lucky contestants will receive The Haileyburian for the next year free of charge. This since the start of the contest. There will be another contest next spring.

Here is the list of winners:
Ivor Hughes, Haileybury.
S. H. Glassford, Haileybury.
Mrs. F. Fishley, Haileybury
Gilberte Dupuis, Haileybury
Jos Isherwood, Temagami
Wm. Isherwood, Cobalt
Mrs. N. Austin, Haileybury
Albert Palmer, Haileybury,
H. G. Pickard, Haileybury
Wilmot McFarlane, Englehart,
Mrs. E.B. Campbell, Haileybury
Claude Proulx, Sudbury
Mrs. Shepherd, Haileybury.
Lillian Ross, Haileybury
Mrs. W. J. Dobbins, Haileybury
V. Barrett, Haileybury
Miss Solvig Pearson, Haileybury
Mrs. F. Girling, Haileybury
Mrs. M. J. Foster, Haileybury
Mrs. W. T. Joy, Haileybury.

TOP MINERAL

Gold continued to be the most valuable single mineral produced in the Yukon during the 1950 season, the Department of Resources and Development reports. Total value of gold produced was estimated at \$3,832,720 compared with \$2,950,920 for 1949. Most gold production resulted from placer operations carried out with large hydraulic dredges in contrast to the days of individual panning.

More than one-third of Canada is covered by forests.

BIG TANKER READY TO CARRY ALBERTA OIL

The world's largest freshwater terminal of the 1,126-mile-long Interprovincial pipe line, and Alberta crude oil to Ontario, the 15,800-ton "Imperial Lequoc" is expected to carry about 175 million gallons of Alberta oil in a season—4 million gallons on each trip. Built at Collingwood Shipyards, she was launched last November and will ply between Superior, Wis., and Sarnia. She will make a round trip every five days and is fitted with the latest in navigation aids. The crews of 36 men each have excellent quarters, with not more than two men to a cabin, and recreation rooms for officers and men. There are 15 bathrooms with showers in each ship.

**PROVINCE IS SHORT OF
ENGINEERS, HIGHWAYS
MINISTER STATES**

A recent statement by Geo. H. Doucett, Ontario Minister of Highways, that his department is short of engineers, was confirmed by E. A. Kelly, head of the department branch in New Liskeard. Mr. Kelly said that he could use at least 20 more trained engineers during the construction season. "There is a great shortage of engineers all over the province", he said.

Mr. Kelly added that he expects seven undergraduates to work on survey parties during the summer vacation from university.

TRANS-CANADA HIGHWAY

During the first construction season since the Trans-Canada Highway Agreement was signed last year, federal and provincial engineers have jointly inspected over 4,000 miles of the designated route. Federal Supervising Engineers of the Department of Resources and Development have been appointed for each province. Inspecting engineers, who assist them, worked closely with provincial Departments of Highways and Public Works.

Contracts have been awarded for 575 miles of grading; 190 miles of paving. Completion of

Canada's first coast-to-coast highway, scheduled for 1956, will provide a road built to uniform standards linking British Columbia with Newfoundland. The highway, in addition to its value for national defense, should encourage new settlement, stimulate development of natural resources and give a substantial boost to tourist revenues.

GUIDES TO GOOD FISHING

Anglers' guides to good fishing in the National Parks are available free at the Parks and from the Canadian Travel Bureau, Ottawa. The guides, packed with useful data for the sportsman which includes the names of lakes and species of fish to be caught there, cover three regions—Eastern National Parks, Prairie National Parks and Mountain National Parks.

Miss Jessica Catt and her kiten, Don Alonzo de Gonzales Catt, are now lodged temporarily at May's. If anyone wants a kiten, born in H.H.S. and with a whole boys' chorus of godfathers, he's welcome to it.

INFANT WELFARE CLINIC

Haileybury Public School
Thursdays 2 to 4 p.m.

The Canadian National Railways operate 2,677 locomotives, 106,281 freight cars and 3,459 passenger cars.

There are about 140,000 retail stores in Canada and this year Canadians will buy about nine billion dollars worth of goods from them.

UNEMPLOYMENT INSURANCE BOOKS MUST BE RENEWED

EMPLOYERS!—Please send all unemployment insurance books for 1950-51 and previous years immediately to the National Employment Office with which you deal, unless renewal arrangements have already been made. They must be exchanged for new books.

Before sending in your 1950-51 insurance books, make note of the date to which stamps are affixed, so as to avoid duplication in the new books.

Renewal of books is important to you, to your employees and to the Commission. Please Act Promptly.

TO THE INSURED WORKER!—Have you an insurance book in your possession? If so, please take or send it to the nearest National Employment Office for renewal immediately. If you send your book, enclose your present address so that your new book may be sent to you promptly.
