

Englehart Wins Opening Game of Central Group

Unsteady Fielding and Erratic Pitching Combine for Railroaders' Victory

Haileybury fastballers opened the season much the same as yast year, when they took a shellacking from the Englehart crew, by a 13-0 count. Last night at public school grounds.

A combination of too much McKinnon and unsteady fielding in pinches spelled doom to the local lads. "Sonny" Jim had the game in hand all the way, and when he slackened off near the end his support was good. The little fellow from North Bay fanned eleven of the locals and allowed only a pair of bingles, not really hit with much vim. He only walked one man, the first to face him in the opening frame.

One the other side, Eddie Bettiol opened by getting the side out in the first inning, without trouble, but then his own wildness, a quartet of bingles, two errors and a couple of passed balls in the second frame netted the visitors ten big, juicy runs. Doug Hargrave relieved and went along to the sixth inning before allowing the railroaders any further tallies but then two walks an error and two bingles brought in Englehart's final three runs.

Doug Hargrave and Len Johnson, following one another in the hitting order, singled to centre and created the only threat to the visiting pitcher, who bore down struck out two men and forced the final hitter in the frame.

Haileybury gave up nine safeties, 8 walks and erred an equal number of times, to practically present the contest.

The homesters were minus two of their best players and shortage of manpower prevented the coach using pinch hitters or making substitutions. Look for a big improvement as the season rolls along. They play at Latchford on Friday evening and have Cobalt as guests here Sunday p.m.

The line score:
r. h. e.
Englehart 0 10 0 0 3 0—13 9 0
Haileybury 0 0 0 0 0 0—0 2 8

Since the end of the Second World War jobs have been found in Canada for 80,000 disabled and physically handicapped persons.

TENNIS STARS U.K.-BOUND—Three of Canada's top tennis stars, Brendin Macken, (second from left), Henri Rochon, both of Montreal, and Lorne Main (right) of Vancouver, are pictured discussing the proper grip with Capt. E. A. Shergold aboard the Canadian Pacific liner Empress of Scotland, just prior to sailing from Quebec to England. Tuning up for Canada's Davis Cup matches later in the summer, they will take part in European tournaments, while overseas, including the Wimbledon classic.

NOTES OF THE NORTH

DEWATER KERR LAKE

A. D. Hellens, consulting engineer states that work will commence at once to dewater the Kerr Lake main workings to the 140 ft. level and the No. 3 shaft workings to the second or 123 ft. level. In the main workings, or No. 7 shaft area, there is an estimated 8,000 tons of 1/2 to 1 per cent cobalt ore, above the 140 ft. horizon. An additional 2000 tons of 3/4 to 1 per cent ore may be had by dewatering to the 175 ft. level of No. 7 shaft.

In the No. 13 shaft area exploration will be carried out for silvAr ore. There is a stope known to contain 300 tons of silver mill rock grading 25 oz per ton or better. — Kirkland Lake Northern News.

PLENTY OF SICKNESS

Rev. N. D. Knox, rector of St. John's Anglican Church, and his wife are having more than their own share of sickness in their home at present. Peter, their six-year-old son, developed red measles recently, and soon after, the twins, Elizabeth and Diana, three years old, came down with the variety known as German. Almost as soon as they had recovered from these, they contracted the more severe red type, and a few days later, 18-months-old Eileen

was the victim. All three little girls are quite sick, and Mr. Knox remarks "our house is not peaceable". However, he says, the canary is still healthy.—Temiskaming Speaker.

WOULD LEGALIZE 'SWEEPS'

Councillor Leo Del Villano set off a flurry in council Monday when he introduced a resolution calling for Timmins to endorse a petition to the Federal government asking for legalizing of sweepstakes, with the proceeds going to hospitals, homes for the aged, and children's aid.

A similar petition to be submitted to the Ontario Mayors' and Reeves' Association annual convention by the City of Welland, only calls for aid to hospitals. Del Villano's resolution would have broadened its scope. After debate, the resolution was withdrawn by Del Villano.—Timmins Press.

TREAT NEW SETTLERS

Plans have been completed for a supper to be tendered by the Board of Trade on Friday, June 8th to the recently arrived Dutch settlers and their wives. An informal program will follow. The gathering will be in the Clute school, and the Clute Women's Institute has agreed to cater.—Cochrane Northland Post.

MINERS FIGHT FIRE

Underground operations were

suspended Saturday afternoon at Donchester Mine in Duparquet as a bush fire neared the boiler plant on a 200-yard front.

A 50-man underground shift was kept on the surface to fight the blaze, according to R.V. Hopper, the mine's secretary-treasurer, and with the help of fire rangers and other mine employees, they succeeded in stemming the fire's progress.

Rain, which began falling in the evening, put out the fire, he said. "But it was dangerously close at one time" he remarked.—Rouyn-Noranda Press.

HAVE NEW LIBRARY

Silverleaf Young Adults held one of their regular meetings on Tuesday night.

Their "Library for Cobalt" project is now operating nicely, and books may be borrowed after 4 p.m. and in the evenings on Tuesdays when members of the Club take turns acting as librarians.

There are quite a few members both children and adults.—Cobalt Concentrates.

WORRY YET TO COME

Worried about the caterpillar influx? Save it for next year—there'll be more of them then. That interesting forecast (bar-

ings such caterpillar killers as heavy spring frost) emerged following a discussion of the unwanted creepers by department of lands and forests officials, a federal government forest insect ranger and a Nugget representative (he listened).

Another interesting item: The caterpillars will NOT kill trees, unless they are badly diseased, and the trees will grow a second foliage this year to replace that stripped by the worms. — North Bay Nugget.

A savage?
Not at all. The Walrus is an extremely shy animal.

The great tusks which adorn this huge animal are not offensive weapons. They are the tools which he uses to collect his food. With them he digs up the clams and other shellfish of his diet.
