

NOTES OF THE NORTH

GET VIEWS ON HIGHWAY

A letter from the Porcupine Chamber of Commerce asked endorsement of a resolution requesting re-outing of No. 11 Highway between New Liskeard and Latchford. The highway should bypass the towns, resulting in considerable saving of time, the letter pointed out. Council agreed that there were good arguments in favor of the proposal, but that endorsement should be withheld until the views of the communities most affected had been ascertained.—Cochrane Post.

NEW VEIN CUT AT PENN

Penn Cobalt Silver Mines Ltd. reports that a fourth vein of high grade silver has been cut while slashing the walls of No. 11 vein on the 70-foot level.

This new vein will grade about the same as No. 11, over 5,000 ounces to the ton. The vein runs at almost right angles to the other three veins in No. 701 crosscut, which are all within a distance of twenty-five feet. Benching in these veins into the ore pass from the 140-foot level is now under way.—Rouyn-Noranda Press

HEADGEAR NEEDED

It looks as if someone will have to donate headgear to the New Liskeard Lions, if any more of members take a knock on the nut.

Smith and Foley of the Juveniles have received hard knocks, and both were taken to the hospital for observation.

Both are out, Smith back in play again, but Chuck Jemmett is keeping his fingers crossed and hoping that no further injuries will cut into his short lineup.—Temiskaming Speaker.

FLUORINATE WATER

Dr. Back was present to suggest that in setting the 1952 budget, council make provision for fluorination of Cobalt's water supply. He says equipment for this is quite simple to install and operate. The initial cost would be about \$1,000 and after that about \$200 a year.

Records show that the use of fluorine cuts down tooth decay in children by at least 30%. He presented many points in support of his suggestion.—Cobalt Concentrates.

NEW SANATORIUM

Construction of the ultra-modern 155-bed sanatorium to serve the Sudbury-Algoma district, is proceeding at a record pace and may be completed by November 1st, it was reported this week. The site on the South shore of Lake Ramsay, Sudbury, is surrounded on three sides by water and commands a magnificent view.

A long-recognized need will be filled by the \$1,327,500 institution. Sudbury Star.

MORE NURSES NEEDED

Three additional staff nurses are needed for the public health

nurses service to operate efficiently, Mrs. Jean Rhoten disclosed last night in her annual report presented at the Temiskaming Health Unit meeting.

She said in the past six months of 1951, six staff nurses, two part-time Victorian Order of Nurses and one supervisor have covered a population of 41,629. Need for more staffers is caused by the expansion of the Health Unit to include the southern townships in the Temiskaming district—Northern News.

British Consols Play-off

In the club play-off for the British Consols event in the Cobalt-Haileybury Curling Club, R. J. Poppleton's rink, composed of Bill Fleming, Neil McAulay and Harold Sadler, and Bill MacArthur's rink, made up of Bill and John MacArthur with Jack McDonald and Val Williams.

These two rinks will journey to North Bay this week-end for the zone play-offs against rinks from New Liskeard, Belleterre, Temami and North Bay.

The two winners at North Bay will contest the Association finals in Noranda, February 8th, 9th and 10th for right to represent the T. & N. O. Curling Association in the three-cornered play-off with the Northwestern Association and the Northern Association to produce a winner for Northern Ontario representative to the Brier.

Lady Curlers From Town Attend Bonspiel at Belleterre

The lady curlers from Haileybury who attended the bonspiel at Belleterre over the past week-end report having a wonderful time.

There were four visiting rinks there, two from Haileybury and two from New Liskeard, with the latter two rinks coming home with the first prizes in the two events. A home rink skipped by Mrs. C. Vachon and one from Belleterre won second prize.

The ice, which is looked after by Mr. Silas Cooks of Haileybury, was in A.1 shape and while they only have two sheets of ice, everything went according to schedule and some close games were played.

The players on Mrs. Vachon's rink were Mrs. T. Tulloch, vice-skip; Mrs. P. Leith, second and Alyce Ross, lead.

Ladies' Curling Games

Since last report of the standing in the second draw of the Ladies' Curling, the following is the result of the games:

Wednesday, Jan. 24th—McFarlane won from Cragg; A. Keddie from Tallon.

Thursday, Jan. 24 — Lowery won from Tulloch, Dempster from Wiseman, Hughes from Harrison and Austin from Lemay.

Fri., Jan. 25—Poppleton won from St. Louis, McNally from McAulay.

Sat., Jan. 26 — Tulloch from Wiseman, McFarlane from Tallon, Cragg from A. Keddie and Dempster from Lowery.

Monday, Jan. 28—Austin from McNulty, McAulay from St. Louis.

Tues., Jan. 29—Harrison won from Tallon, Poppleton from Tulloch, Wiseman from McFarlane.

Lemay from Hughes.

There are still two evenings of play before the regular games will be finished and then the play-off, if necessary.

In the afternoon games, Friday, Jan. 26—Bond won from Vachon McDonough from Jenkins and O'Shaughnessy from MacArthur.

1952's NEWER and MIGHTIER CHEVROLET TRUCKS

give you THE BEST AND THE MOST FOR YOUR MONEY

Nineteen-fifty-two brings a new era in Truck Transportation — made possible by Chevrolet engineers! Here, for '52, are more Chevrolet Truck models to choose from than ever before! They'll carry bigger payloads! They'll haul loads faster — powered by the famous valve-in-head Chevrolet engines rated up to 120 horsepower.

It's a fact! Wherever trucks must really earn their way, wherever costs are figured down to the last cent — that's where a 1952 Chevrolet Truck, and only a Chevrolet, fills the bill! That's true whether your job calls for a sedan delivery or an extra-heavy!

See for yourself. Check Chevrolet Trucks point for point — count up the features that make Chevrolet more than ever The Leader! First in value, first in demand, first by far in actual sales!

A GENERAL MOTORS VALUE

Models for every load and purpose

Whatever your trucking needs, there's a Chevrolet truck model suited for your purpose. Whether you're in the market for panel deliveries, cab-over engines, forward controls or any other style, you owe it to yourself to see your Chevrolet truck dealer. That's where you'll find exactly the truck you want.

Complete range of wheelbases and carrying capacities

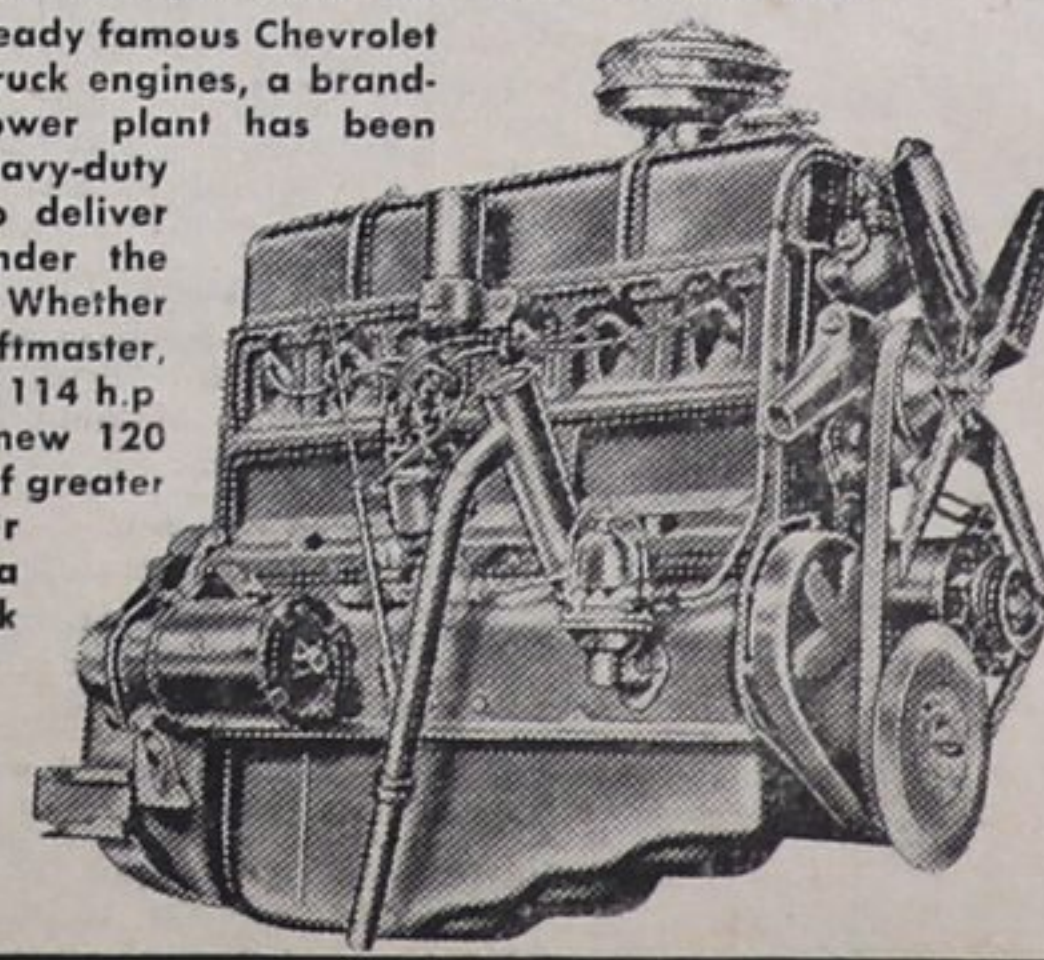

The Chevrolet truck line for '52 offers you a wider choice of wheelbases, ranging right up to 212". Carrying capacities have also been increased to 17,500 lbs. with the 1700 Heavy Duty series. And all this extra payload and carrying capacity is yours at amazingly low cost. No other truck line gives you so much for so little.

Axle capacities for every job

The right axle for any type hauling job — still another reason why the Chevrolet truck line lets you carry more payload without overloading. Chevrolet truck axles are designed to absorb the shocks and jolts caused by rough roads and heavy loads. What's more, they deliver greater pulling power with less engine effort throughout the entire speed range. And there's now a heavier two-speed rear axle available for the Heavy Duty models.

4 great power plants to choose from

To the three already famous Chevrolet valve-in-head truck engines, a brand-new fourth power plant has been added! It's a massive, heavy-duty 120-h.p. engine designed to deliver outstanding performance under the toughest working conditions. Whether you choose the 92 h.p. Thriftmaster, the 105 h.p. Loadmaster, the 114 h.p. Torquemaster or the husky new 120 h.p. engine, you can be sure of greater dependability and greater power-per-gallon from a Chevrolet valve-in-head truck engine.
