"O CANADA"

Dominion Day, July 1st, is celebrated to commemorate the founding of the Dominion of Canada, which union of the provinces took place July 1st, 1870. Canada has proved that "union is strength", and our country has gone steadily forward since that day.

In the words of Sir Wilfrid Laurier, "We are here a nation, composed of the most heterogeneous elements—Protestants and Catholics, English, French, German, Irish Scotch—everyone, let it be remembered, with his traditions, with his prejudices. In each of these conflicting antagonistic elements, however, there is a common spot of patriotism, and the only true policy is that which reaches that common patriotism and makes it vibrate in all toward common ends and common aspirations."

THE LOWLY SPUD

You get a lot of mail in a newspaper office. It may be a questionnaire, it may be an official bulletin, it may be a long survey with lots of statistics—we burnt three cartons of papers last year when everybody was really worried about the shortage of paper.

This month, we have a lot of material on hand dealing with potatoes. The first five theories were very interesting except we got all confused and couldn't face a potato at the dinner table. So, we went to the local grocery store and found out that although old potatoes were more expensive last week, the situation is now reversed.

In the middle of all this research, we decided the best place to go to get information was right from the Minister of Agriculture, Mr. Gardiner because he has had that job for too long a time and he knows what he is doing. He got so distressed about the high price of the product that he banned the import of potatoes from the United States. In this way, everybody should be happy because the potato growers in Canada won't have any competition which everyone should be protected from because it is very tiring and the householder won't have her budget all upset by changing prices—they will remain at same high level—this is called a price support policy or putting a floor under things to hold one party up.

atoes are banned but Grade B are not Grade B in quality; they are graded according to size. Grade B are Grade A, only less than 1 7/8 inches thick—in other words, small new potatoes.

YOU AND YOUR HEALTH

Two weeks ago we received a report from the Department of Health which pointed out that to be a healthy individual one should start the day off properly with a good, hearty, nourishing meal. Since we found ourselves tiring on the hills this particular week, we got up a half an hour early and approached the breakfast table with a new attitude—we carefully had a three-course meal which slowed us up going down the hills too; however, since the Health Department said so, we were determined to go on.

LOST THROUGH UNKINDNESS

Why was Gandhi not a Christian? In an autobiography published in India he writes that in student days he had been greatly touched by reading the Gospels, and seriously considered being baptised a Christian. He felt that in Christianity would lie the solution of the racial problem and the caste differences which were dividing both India and South Africa.

One Sunday he went to a nearby church to attend the service, planning to see the minister at the close of the service and ask for instruction. When he entered the church, the ushers objected to giving him a seat and suggested he go to the colored people's church. He went out and never went back.

"If the Christians also have caste differences," he thought to himself, "I might as well remain a Hindu and attack this evil from within."

"Ye sons of Canada, awake! Stretch forth the mighty arm of toil; Embattle, beautify the soil Your fathers won by brave turmoil; And while your glory spreads, behold Your virgin empire still unfold Her halycon hope, her wealth untold." J.A. M. Taylor

Yesterday, June 25th, the war in Korea was two years old. Britain was first of United Nations to join the Americans in Korea. Britain's Far East Fleet was placed under General McArthur within three days and first British land forces went into front line in Korea during August.

GONE AND FORGOTTEN

As you journey through the country, you often come across a neglected cemetery but none more so than the once well kept and beautiful one in Haileybury which is now in a frightful state. Situated on a hill overlooking Lake Temiskaming, the Old Cemetery (as it is known) is found by wending your way along a winding road in the south end of town.

It is difficult to even walk through it for weeds and long grass; most of the stones placed there to mark the graves have either toppled over or are in the verge of doing so.

No blame can be attached to anyone in particular for this neglect as most of the relatives of those buried there have moved away and the few who have remained here are not able to bear the burden of keeping it all in repair.

This is just a note in passing, but it does seem pathetic that some of our cemeteries are allowed to get into this state.

BOY SCOUT NEWS

Tennis Club To Have Services Of Professional

During the past few weeks Senior members of the Tennis Club have been conducting classes of instruction in tennis. This has been quite an undertaking with such a large crop of junior enthusiasts. The club expects soon to announce the definite dates and classes for mid-July, when we have been promised the services of a tennis pro-instructor from Toronto.

Keith Valentine will look after your equipment needs in regard to restringing of racquets and there are still four racquets available at reduced prices. Tennis balls are now available at various prices (depending on the type) in local sport stores. The Club would appreciate information on locating any used racquets which could be obtained for Juniors.

Bright and early on Monday morning, if plans materialize, the Boy Scouts are off to Don Russell's Camp for a week's camping in the great outdoors.

Monday evening, the Haileybury Scouts trimmed the Cobalt Scouts in a baseball game on the Public School grounds. The final score was 25 to 5, and Scout Gordon Connelly smacked the ball three times for home runs. The Cobalt Scout Master and Assistant Scout Master "Buzz" Hayward of Haileybury were the official umpires. Thursday night in Cobalt, the Silver Town lads will seek their revenge.

"THE MAN I MARRIED" by Mrs. Robt. A. Taft.

An intimate glimpse of Sen. Robt. A. Taft who some day may be President—told by the woman who knows him best! Read Mrs. Robert A. Taft's own story, "The Man I Married", in this Sunday's (June 29) issue of The New Color Magazine American Weekly, exclusively with The Detroit Sunday Times

This is R. A. (Rube) HORNSTEIN, officer in charge of the Dominion Public weather office in Halifax, who discusses what makes the weather and why, in the broadcast series Ask the Weatherman, heard Sunday evenings at 6.20 on the CBC Trans-Canada network. In his programs he debunks—and upholds—old weather theories handed down through the centuries, and gives colorful, up-to-date explanations of anything from drizzle to hurricanes and Chinooks.

It is expected to post membership soon and rules of play.

Town Dump Clean-Up

This week, work began off the town Dump. The Temiskaming Health Unit after an inspection of the area and with the full cooperation of Mayor A. H. Cooke and Councillor O. Allard, are going ahead with a program for better conditions which are urgently needed. Thoughtless persons who actually have no right to do so have been dumping waste anywhere and everywhere, leaving behind a frightful mess. This will be bulldozed into the ravine and the whole area will be thoroughly cleaned up!

An insecticide expert from the

Canadian Pest Control Operators and Company is spraying the dump this week to kill off the flies which are attracted to it in the outhouses in the area.

How Big Are You?

Are you big enough to apologize, to take the small place in life, whether it be in the church, school or home?

It takes a big soul to forgive and to forget.

A man must be bigger than his pet notions, ideas, his church, and the little crowd to which he belongs.

He must be big enough to be charitable in his views and opinions and believe in others.

Urging Extra Care ON THE WEEK-END!

Holiday week-ends are periods of extra hazard and added congestion on the highway. These conditions will continue to result in accidents unless offset by patience, forethought and alertness on the part of all highway users.

Thousands of visiting tourists and children on vacation add to already crowded highways. The need for extra care is obvious. A traffic death is a needless death.

You risk your life when you drive too fast for conditions—fail to stay in your own traffic lane—or fail to obey signs and regulations designed for your protection—or, when on foot, you fail to take necessary precautions.

Enjoy your week-end. Make it safe—one you will remember, happily.
