Visitors from Toronto Get Nice Pickerel Catch

Some visitors in town from Toronto this week are quite pleased with the fishing on Lake Temiskaming. On Tuesday afternoon they went out for a short spell and returned with 30 nice pickerel divided among a party of five. The fish were fair sized, although there were no record-breakers in the catch. Miss Leila MacQuarrie and Mr. D. Johns were the members of the party who reported the catch to The Haileyburian, together with Harold Barrett.

Alfred Labreche of Earleton was taken to Englehart Red Cross hospital on Tuesday evening with severe cuts to his head sustained when the car went out of control on the old highway near Thornloe. He will face charges when he recovers, provincial constable A. Souliere said after investigating.

HE SERVED WELL

The death of Dr. R. C. Lyon on Saturday last, after an illness of two weeks, is a great loss to this community, which he had served so well for more than a score of years. A doctor's service is something more personal than that of men in other walks of life, bringing, as it does, an intimate contact with those for whose benefit he labors. People come to look on "the doctor" as not only a healer of their personal ills, but a personal friend, and the physician who responds to this feeling in the best traditions of the medical profession, can do more for the general welfare and peace of mind of those he serves, with the single exception of ministers of the gospel. Such a man was Dr. Lyon, and as such his ministrations to people of this community will long be remembered. He upheld those traditions throughout his medical career, devoting his best efforts and his highly developed skill in the cause of relief from physical affliction, and his friendly nature brought a cheerful atmosphere into the sick room.

It is well known to the majority of us that his own health suffered through his devotion to others and his untiring care and attention to his patients undoubtedly shortened his life. His memory will be held in high esteem by all who knew him, and the sincere sympathy of the entire community is extended to his wife and young family in their great sorrow.

Timber Crew Engaged in "Sweeping" of the Lake

A timber crew from the Upper Ottawa Improvement Company, which handles the towing of logs from the head of Lake Temiskaming to the foot, is engaged this week in the interesting operation of "sweeping" the lake. This consists of gathering up all the stray logs that have escaped from the booms and getting them in shape for towing down to Temiskaming, Que., to the mills. The men use an "alligator" for power and have their own quarters in a houseboat mounted on a large scow. Most of the timber lands along the shores, but there is a certain amount that remains out on the lake surface and interferes with navigation. The "sweeping" is usually done twice in the open season.
