

Haileybury Downs New Liskeard Club With a 4-3 Score

The Haileybury Kinsmen Midgets again proved to be a third period club as they edged out their arch rivals, Liskeard Midgets by a slim score of 4-3. The cold weather had no effect on the play as in the entire session 12 penalties were handed out. Liskeard opened the scoring in the first period only to have Connelly come back to tie it up. Well on in the second Liskeard made it 2-1 and held throughout the period. In the third Connelly again scored twice more to give the locals a 3-2 lead. Ken O'Grady drove in what proved to be the winner and made the score 4-2. Liskeard ended the scorin with about two minutes remaining and in spite of a dying attempt to tie it up, Haileybury held to win their first game against Liskeard in over a year. Haileybury's next home game may be Sunday against Matachewan.

Cobalt Midgets gave the local boys a drubbing on Thursday night last, with an 8-3 score. Doran, Connelly and O'Grady scored for the home team.

Tuesday night, Haileybury lost a close game to New Liskeard final score 5-4. K. O'Grady, and G. Connelly were the scorers for Haileybury and Keech, Taylor, Waugh, Evans and Bush tallied for Liskeard. Referees warned players any rough stuff would be rewarded with banishment from the game. O'Grady, Fleming and Doran drew penalties. Haileybury now holds second place in the league.

Who Pays?

L. A. Lillico, O.C., High School lawyer for Kirkland Lake Collegiate and Vocational Institute will decide who pays the bill in the case of the damaged school desk. The Board feels that the two boys who wilfully did the damage should pay the \$6.00, and then the problem began.

In cases where damage is accidentally done, it is agreed that the boys pay but with wilful damage, the Board wasn't so sure.

Sixty Bantams Play Hockey at Rink Here

Although ice conditions have interfered with their schedule sixty kids up to fourteen years of age swam into the Haileybury Arena every Saturday morning to practice for Bantam hockey.

Last Saturday, there was no ice. However, now that the weather is colder, coaches Lorne Wiseman and Basil Treen hope to line up Bantam teams and get a working schedule, underway with neighboring towns.

Four teams—two Senior and two Junior have been playing against one another in the practices. By this week-end it is expected that two additional coaches will turn out to assist in looking after the mighty army of enthusiasts.

The boys are being sponsored by the Rotary and Firemen who will look after the equipment and the sweaters, which have not arrived yet. Following the N.H.L. Midget scheme, sweaters will be of N.H.L. Colors and bear the crest of one of the big time teams.

In Canada there are 6,300,000 workers. Of them 1,100,000 belong to unions of one sort or another.

MIDGET SCHEDULE, NOHA

JANUARY

31—Cobalt at New Liskeard

FEBRUARY

4—Cobalt at Haileybury
7—Haileybury at New Liskeard

C. I. M. M. Hear Talk on "Alcan Project"

Fifty members of the C.I.M.M. met on Friday evening in the Legion Hall to hear guest speaker, C. P. Monteith speak on "The Alcan Project" in Northern British Columbia under the direction of the Aluminum Company of Canada.

The \$500,000,000 expansion is the biggest of its kind ever to be undertaken in Canada. 2.5 million horsepower will be made available for the tremendous Kitimat plant—third largest in the world. Mr Monteith referred to the Arvida plant which not so long ago was considered to be an enormous undertaking and which will be greatly overshadowed by the new venture in British Columbia.

Cheap power is essential to the future of the company as the process to produce aluminum from bauxite demands a terrific amount. The aluminum ore

will be imported from British Guinea by way of Jamaica.

Future plans envision a community of 50,000 people.

Members from Matachewan and Gowganda were unable to attend the meeting due to road conditions. A. D. Hellens acted as chairman in the absence of Gus Shartner.

Mr. O. E. Walli introduced the speaker.

HIGH SCHOOL HIGHLIGHTS

By Ginny Mattias

If you see our students moving about town with long faces and a bitter twist to the lip, it is without doubt due to the fact that now we can be sure that the gym will not be finished until the basketball season is over. In the face of our genial treasurer, Shyllock Woods is longer than the rest—he has found out that he will be shelling out nearly \$28.00 a week for transportation to Co-

balt for basketball practice and games.

Last year the Junior Boys Basketball team lost all their games, but they came close to taking Englehart (Score 16-15 for Englehart).

Expecting to have the gym ready this season, the girl's basketball team had resolved to win the league this year. Although this is hardly possible without sufficient practice they will at least try to win some games. Cobalt defeated the girls by a score of 25-23. It was anybody's game with the teams closely matched all the way, considering that the Haileybury team has only had one practice

since November they should be congratulated on their fine show-

In the Boy's game, Haileybury came out on top with a 15-12 win.

Rheumatic PAIN

Good news for those who long for relief from rheumatic pain, but feel hopeless! Thousands get speedy relief from rheumatic and arthritic suffering by using T-R-C's. Don't let dull, wearisome aches, and sharp stabbing pains handicap you any longer. Try Templeton's T-R-C's today. Only 65c. \$1.35 at druggists. T-844

HOCKEY FANS! IS THIS GOAL LEGAL?

Two attacking players are at centre ice. One is suddenly grabbed by a spectator, but he manages to pass to his teammate . . . who goes on to score while the spectator still holds on to the other. Is the goal a legal goal?

Yes, play continues to completion and the goal is allowed. Play is immediately called only when the team of the player not in possession of the puck is interfered with.

The SNAPSHOT GUILD

TRICKS OF THE TRADE

Carry a small camera with you, and you'll never have to pass up charming pictorial subjects like this.

EVERY good news photographer knows many practical short cuts in this business of picture making, and many amateur photographers could adopt a few with beneficial results.

For instance, most topnotch newsmen make it a habit of carrying a camera at all times. They know one never can tell when a picture is going to "show up," and, whenever that may be, they want to be ready for it. Think of how many good pictures it might mean to you if you make it a practice to carry a small camera whenever convenient.

You'll also find that news cameramen are invariably looking ahead. They try to anticipate pictures, and that's a good trait to cultivate—especially when you're picturing sports or action of any kind. Watch the next news photographer you meet, and you'll see what I mean. His movements may be casual, but his eyes is alert. He has sized up the probabilities, the likely spots for good pictures, and technically he's set for those conditions. Then when the picture opportunity ar-

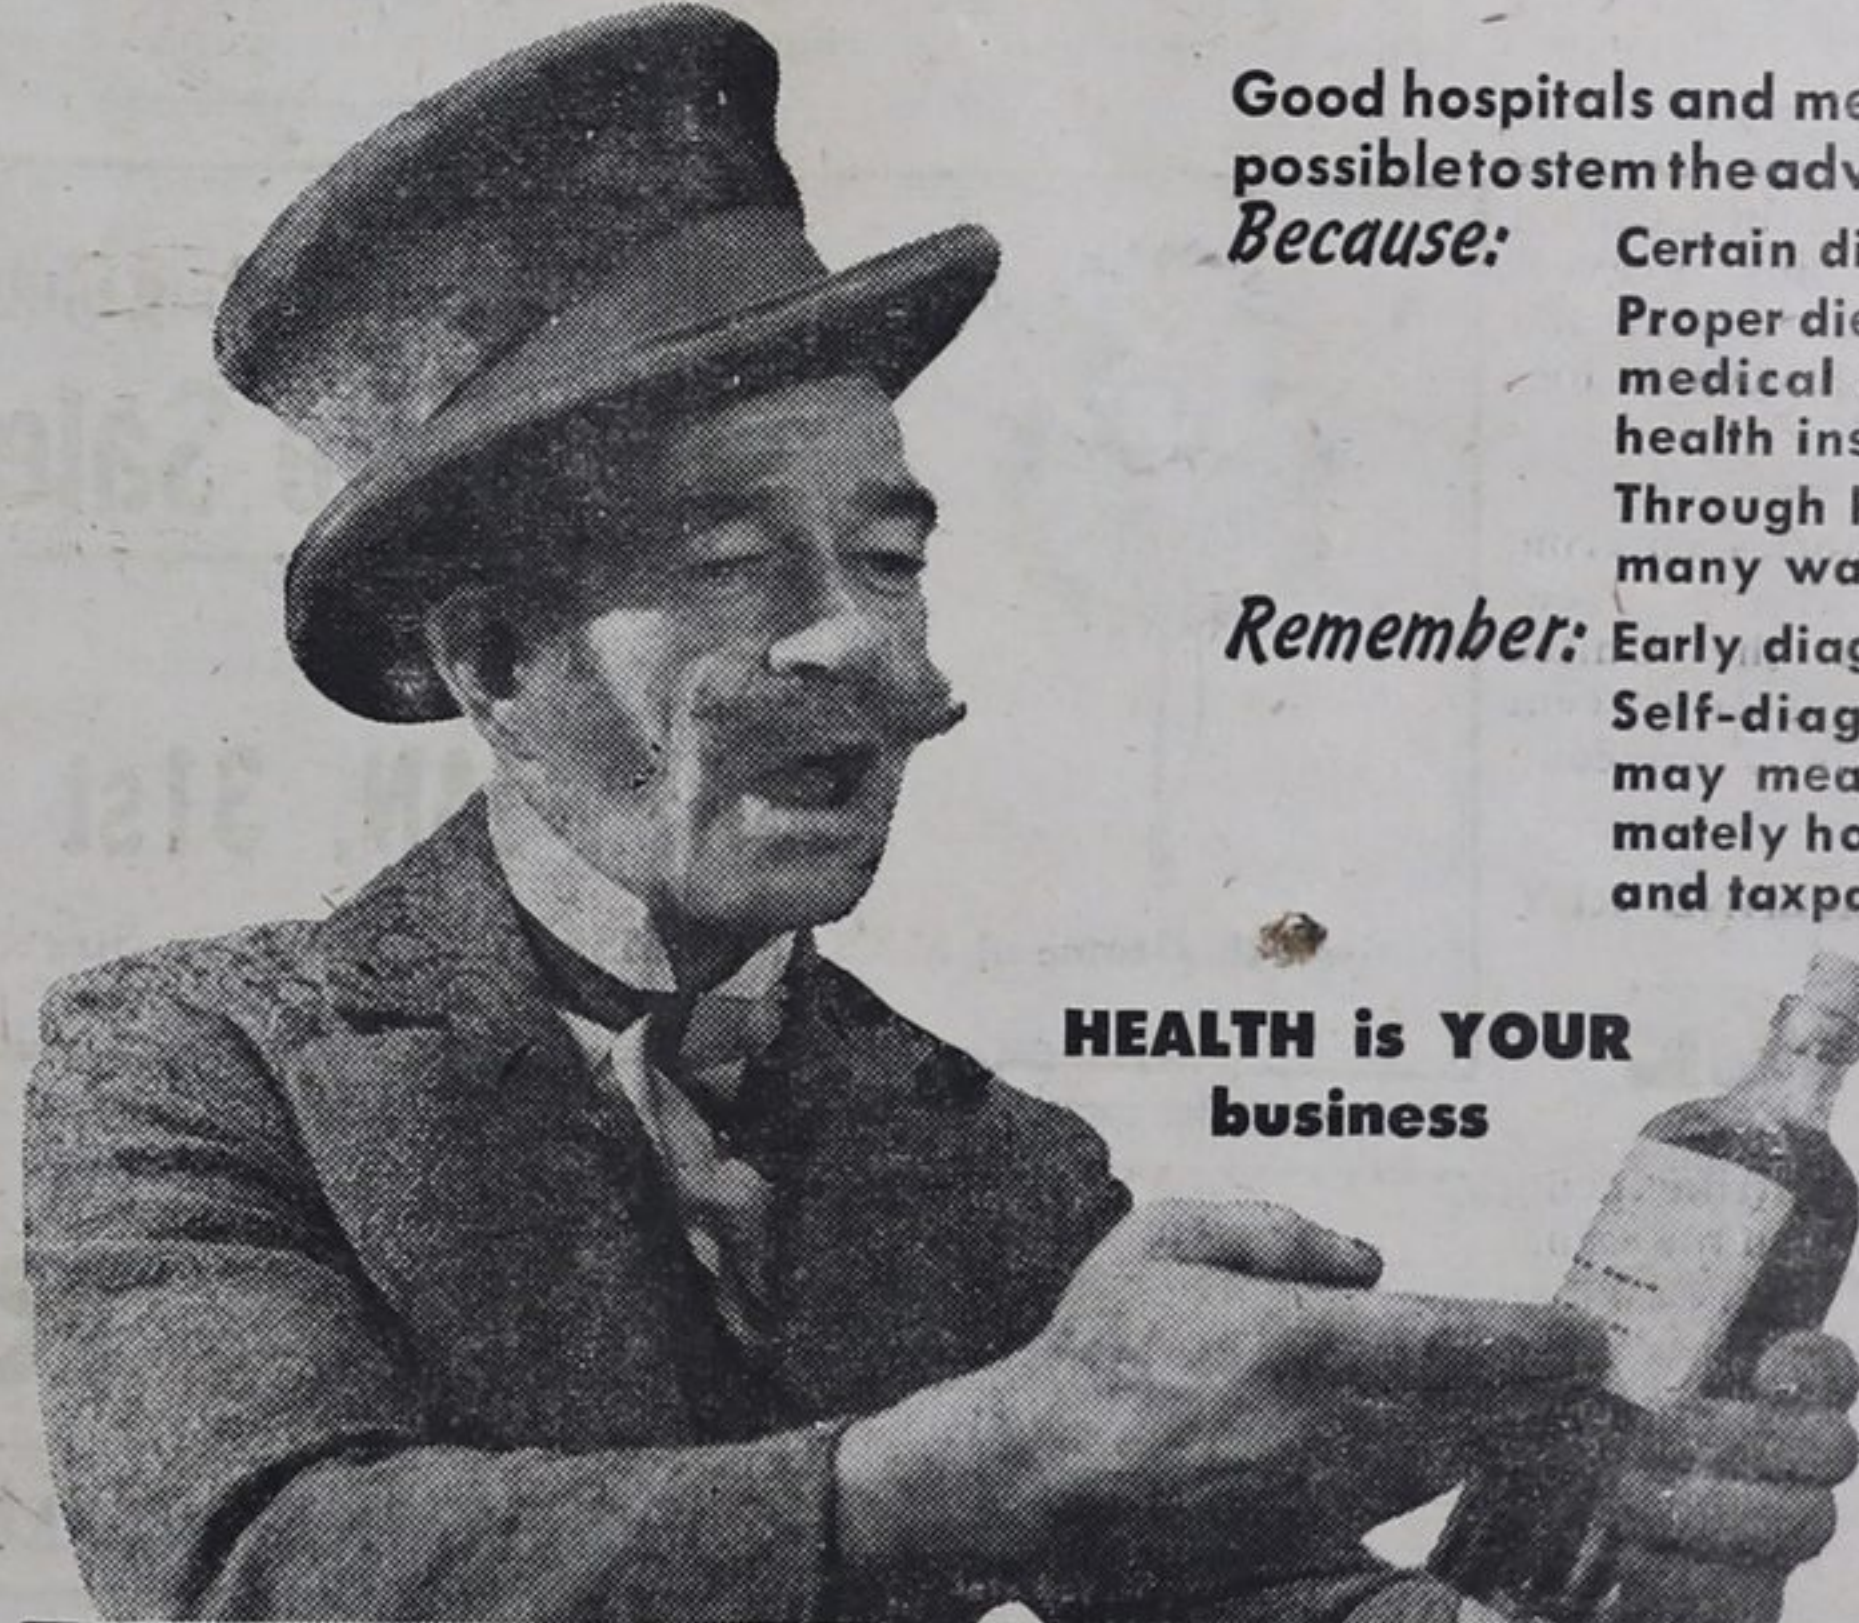

rives, he can get his shot before you can say "t/8."

Another point you'll notice about the successful news cameraman, who usually must shoot in a hurry, is that he doesn't worry too much about composition and arrangement when he's making pictures. He's more interested in snapping the subject than in producing a striking composition. Of course, that's not the best way to get appealing pictures, but it's sometimes the necessary procedure. You can, of course, crop and trim a picture to improve the composition once you've got the image on your film.

Generally speaking, you'll discover that technically the news cameraman doesn't have any terrific advantage over the average amateur. He uses standard developers and printing papers. He has to follow the same basic laws of photography. But he does have the advantage of constant picture making and is thoroughly familiar with his camera. And familiarity with equipment is important to all good photographers.

John van Guilder

THE *Only* REAL HEALTH INSURANCE IS PREVENTION

HEALTH is YOUR business

Good hospitals and medical care are essential—but it is possible to stem the advancing demand for hospital beds.

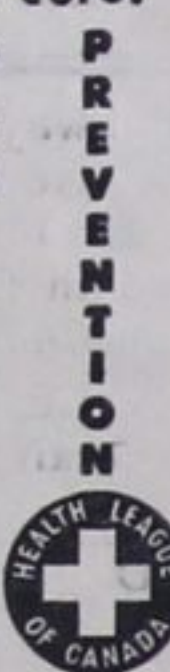

Because: Certain diseases can be prevented. Proper dietary and living habits, with regular medical and dental examinations, insure health instead of sickness.

Through health education you may learn the many ways to maintain continuous health.

Remember: Early diagnosis usually means early cure.

Self-diagnosis and self-treatment may mean neglect, delay and ultimately hospital care, costly to patient and taxpayer alike.

Consult your own Department of Health or the Health League of Canada, 111 Avenue Road, Toronto for further information.
