That we've just heard about the novice who couldn't stand it any longer. I mean this uranium rush and being left at the starting post. So she nervously placed her order in a hushed voice for 50 shares of Inspiration and left two elements on high. When it started to go down her spirits sank and she phoned in to sell. When her broker said "Do you want to get rid of it at market?" she said "Oh heavens no. I just want to do it all through Doherty Roadhouse."

That the Fire Chief has a word of friendly warning for those delightfully inefficient home-steaders who expect the chimneys to go on functioning forever without attention. Alternate mild weather and cold spells increase the danger of chimney fires so look to your pipes.

That we didn't know it could happen but it has. We have a letter from a Toronto friend this week who is not caring for the obvious crack down this year on a lot of obscure points of law in the Highway Traffic Act. A \$5.00 fine for driving with a license plate obscured by snow. Considering that it has only snowed twice in the big city, it was hard to take. And what does the Act say? "The number plates shall be kept free from dirt and obstruction and shall be so affixed that the numbers thereon shall not be obscured or obstructed by spare tires, bumper bars or by any part of the motor vehicle or trailer or attachments thereto, or by the load carried."

That we are still on the market. 'tis being said around that if Gunnar goes down, there will be many, oh so many, choice lots for sale at 10c in ye little old town of Haileybury.

That March is just around the corner. This is the month that puts the whether in the weather predictions. For March is neither winter nor spring and fair weather or foul, is about as predictable as March hares. So with the weatherman, it's just a matter of guessing—whether 'twill be or whether 'twon't. Rain, snow, fog or sleet. March weather can't be beat.

That we have received a report from a reader that crows were spotted sitting on a fence in New Liskeard. Is there something in the matter with the fences in Haileybury?

for crippled children. Mr. H. Brown represented the local club. The best site suggested was Sesekinika because of the central locality, its proximity to the road, its easy accessibility to motorists and its fine sandy beach.

That a pretty green butterfly and a common housefly made their appearance last week in The Haileyburian office. We would appreciate reports on any such wildlife heralding spring.
