That this is the year when the lady of the house may get a call to serve on a jury—however she gets consideration in this respect which does not exist for the man of the house—he must have an iron bound excuse whereas she is at liberty to stay with the mixing bowl.

That if we had time to make a survey of the amount of sand used this winter on icy streets and roads, we are sure we could come up with a record—off-hand, Town men have probably used twice as much as an average year and may well have sifted four times the normal—no reports of broken bones so they've done a good job for the citizens.

That the guest speaker at the next Carrie Gray meeting on March 30th will be Miss Elsie Hosie of New Liskeard who will speak on "Famous Bible Women"

That Mrs Norman Reilly, District Trainer for Guides, who now makes her home in Kirkland Lake is a former Haileybury girl—Alice Jones worked for many years in the Provincial Police office here and was responsible for the organization of a Guide pack here.

That Clarence Connelly will be host at one of the nicest parties in town in a long, long time—Saturday night at the Legion Hall the Kinsmen Midget hockey team, their coach Arthur Stollery, managers Chas Camshell and John Hallworth will sit down to a turkey dinner—like a lot of other people in town this winter. Mr. Connelly thought the young Midgets played a fine season of hockey—in fact he told them if they beat Cobalt in the series they played that they would be rewarded with the turkey dinner—so now all they have to do is eat it.

That interest in education has flared to a new high—it's a healthy sign and we are happy to learn that next week Mrs. I. C. Harris will answer Mrs. A. H. Cooke's reply to his talk given to the Home and School recently.

That the greatest miracle on earth is in the air and everywhere—it's free for nothing—you don't need a permit, you don't need a union card and the state has no monopoly.

That the District Wildlife Management officer for the Department of Lands and Forests has made an aerial check of the 4,672 mile forestry district and has only seen twelve deer—during the survey he did not see a single wolf but saw twenty-six moose.

That New Liskeard is consider-

ing the installation of a speed trap—indications are that if this mechanical device proves successful, all three towns will probably be operating it.

That Mrs. S. MacGillivray, Mrs. F. Plaunt, Mrs. C. Fleming and Mrs. A. Hargrave attended a social evening of the Ladies' Auxiliary in New Liskeard. Others who planned to go were prevented due to illness.

Flu Epidemic Hits Cobalt

Nearly sixty-five students were absent from school in Cobalt last week and for a good reason. The 'flu bug wended its way from northern points and hit hard in the silver town.
