#### New London Travel Centre

Facilities and services for travellers are being expanded in Britain to meet the demands of Coronation year. Newest aid to the visitor is a second information bureau in London. Situated in Australia House in the Strand, the new centre is primarily intended to help Australian guests, but its facilities will be available to all overseas visitors, thus supplementing the main information office on St. James's Street, near Piccadilly, already used by thousands annually. Information about travel to Britain may be obtained in Canada from British Travel Association, in Toronto (327 Bay Street until April, thereafter, 90 Adelaide Street, Wst.

#### Fish and Wildlife

After issuing several warnings against angling with too many lines and leaving them out over night a general patrol of Trout Lake and Lake Nipissing in the vicinity of North Bay was recently made on which a total of 151 fishing lines were seized, 37 of these on Trout Lake. One man had as many as 46 lines set out and paid a fine of \$15.50 in court. Investigations are continuing and more prosecutions may follow.

Dogs in the vicinity of the Village of Temagami have begun their annual run of deer and to date two dogs have been shot for running and killing deer. Officers are endeavouring to trace the ownership of dogs found running deer with a view to prosecution. It is illegal to allow dogs to run at large during the close season for deer in a locality which deer usually inhabit or in which they are usually found.

#### Crown Lands

The past ten days has brought unusually heavy interest in Crown lands and the volume of enquiries regarding summer cottage sites and land available for farming has been greater than normal for this time of year.

During the recent mining flurry at the city of North Bay the Lands staff was bombarded with enquiries day and night regarding the staking of claims. As nearly all Crown land in the immediate vicinity of the city has now been staked the pressure is easing.
