

## Masons Honour J. L. Runnalls at Farewell Banquet Recently

At a banquet in the Masonic Temple on Monday, July 26th, forty Masons said "good-bye" to Very Worshipful Brother J. L. Runnalls who with his wife left on Monday for her home in St. Catharines.

The principal speaker, A. W. Sanderson said, "Two weeks ago I read in the Haileyburian of a man making a speech at Northwood Camp. The man, Conny Smythe of the Toronto Maple Leafs said that he was a man of a million words but that was not enough to describe the beauties of Northwood Camp. As you know, I am not of the million word class but it would take many words to tell of the many doings and interests of our Honoured Guest in Haileybury and the District.

Lawrence and Mrs. Runnalls, he continued, came to Haileybury ten years ago. During that period they have endeared themselves to the whole community by their friendliness and interest in everyone."

In a brief sketch of Mr. Runnalls activities, Mr. Sanderson referred to his accomplishments — as a Rotarian serving as Secretary, Vice-President, as a member of the Home and School Association, as a member of St. Andrew's Church, as a golfer

and curler, as a member of Haileybury Lodge and Past First Principal of Temiskaming Chapter of New Liskeard.

"For one with so many interests" the speaker continued, "you would be right to think that he has no time for a hobby, but you are wrong. He has a hobby of woodworking and bookbinding and recently, he has completed a history of Temiskaming Chapter and put it in book form.

Turning to his Lodge work, Mr. Sanderson spoke of Mr. Runnalls assistance in the ritual work and

general management which had greatly assisted in making Haileybury Lodge what it is today. His efforts to instil in us the value of Masonic education is perhaps his most outstanding service. What he has created here will carry on for many years."

Master of ceremonies T. G. Tulloch's gesture of calling upon representatives of the various phases of Mr. Runnalls' life was warmly appreciated — participating in this were Harry Coull, New Liskeard Chapter, Ian MacDiarmid, Rotary, Wyman Edey, Board of Education, O. E. Walli, United Church, Howard Walter, Court House, H. A. Day, Mayor, Dr. W. C. Somerville, neighbour, C. W. Tyson presented a gift of a desk set with an inscribed plaque.

## Uninvited Jubilee Guest Meets With Unhappy Ending

After a happy Jubilee, residents on Browning street were ready to get the garden equipment out again and settle down to a quiet civic holiday. But not before the air was cleared. A skunk upset an otherwise glorious morning. He got caught between the garage and home of A. W. Sanderson and the only alternative was to get the little animal and the residents out of their misery as quickly as possible. A member of the O.P.P. was called upon to use his firearm in the act of mercy.

During July and August at Customs figures show that from Cobequid Bay, N.S., the height New Brunswick, during the 1953 of the sea between ebb and flood hunting season, Americans took tide varies from 46 to 90 feet. took home 3,500 deer.

## NEW GASOLINE ADDITIVE BOOSTS ENGINE POWER

Report Power Gains as high as 15%

In the engines of most cars on the road today, there is a reservoir of power never used—power locked in by carbon and lead deposits.

But now, according to scientists at the Shell Oil Company, a new gasoline additive, blended into Shell Gasolines and sold under the trademark TCP, is neutralizing these deposits and giving power gains up to 15%.

### Two-way Power Loss

In combustion chambers these deposits glow red hot and set off the gasoline-air mixture before the piston reaches its proper firing position. Engineers call this pre-ignition. Power is held captive—the full power of the engine is never realized.

These same deposits—the engineers say—also form on spark plugs, where they cause the spark plug to short-circuit and misfire. They point out that this pair of power-wasters, pre-ignition and spark plug misfiring, is the greatest cause of power loss today.

### TCP Frees Captive Power

Shell Gasolines with TCP, Shell engineers report, put this captive power back to work, boosting engine power as much as 15%. Shell engineers explain it this way:

"TCP additive keeps deposits from becoming red hot—and therefore stops pre-ignition. It also makes the deposits non-conductive and ends spark plug misfiring."

The engineers say that Shell Gasolines with TCP act so quickly that a motorist will feel that his engine has had a tune-up before he's finished the second tankful. But Shell warns that since deposits constantly accumulate, there is only one way to maintain the increase in power—continued use of TCP. They call TCP the greatest gasoline development in 31 years. Shell Premium and Regular gasolines with TCP are available only at Shell Dealers.

## Amateurs Perform In Fine Show Of Talent

Amateur night at the Armouries was a revelation in local and district talent. Out of all the variety and good fun, the prize winners were Joe MacDonald and Hardy Mallais from North Cobalt with their Violin and guitar, Mary Whitby and Glenna Speicher with their Dances of the Ages and Bill Watson of Kirkland Lake with his tap dance.

Flags fluttering gayly in the breeze on Haileybury's beautiful Lake Shore Road and on the docks, a blazing sun in a clear blue sky, citizens and visitors lining every street and around the familiar bend leading into town came the gala parade.

More than thirty colourful floats were highlighted by a beautiful tableau of Florence Nightingale and the nurses of the Misericordia Hospital who took first prize. A cold sight on a torrid day with the happy scene of the "Roaring game" who swept their way to second prize. Through it all, we sympathized with the judges who had only three prizes and a continuous stream of "firsts" drawing applause at every block. The Township of Bucke was right in there for Haileybury as they have been from the beginning and were easy winners with their scene reminiscent of the good old pioneer days.

Gathering at the Rotary Beach where once the early trail blazers landed in their "Pointers," the ceremony began with Mrs. A. H. Moss granddaughter of the founder, C. C. Farr stating "With the cutting of this ribbon, I declare the Diamond Jubilee open." With her on the platform were Mayor H. A. Day, Ann Shipley, MP, Bob Herbert MPP and Cyril T. Young.

In his speech, Mayor H. A. Day said "that it was a great honour to address Haileyburians old and new as well as so many visitors from all parts of Canada and the United States. This town, he continued, has been the cradle of some of the most distinguished residents of the north—the mineral resources of Kirkland Lake and Timmins, not to mention Red Lake and the uranium deposits of the north are intimately tied up with Haileyburians and Haileybury enterprise."

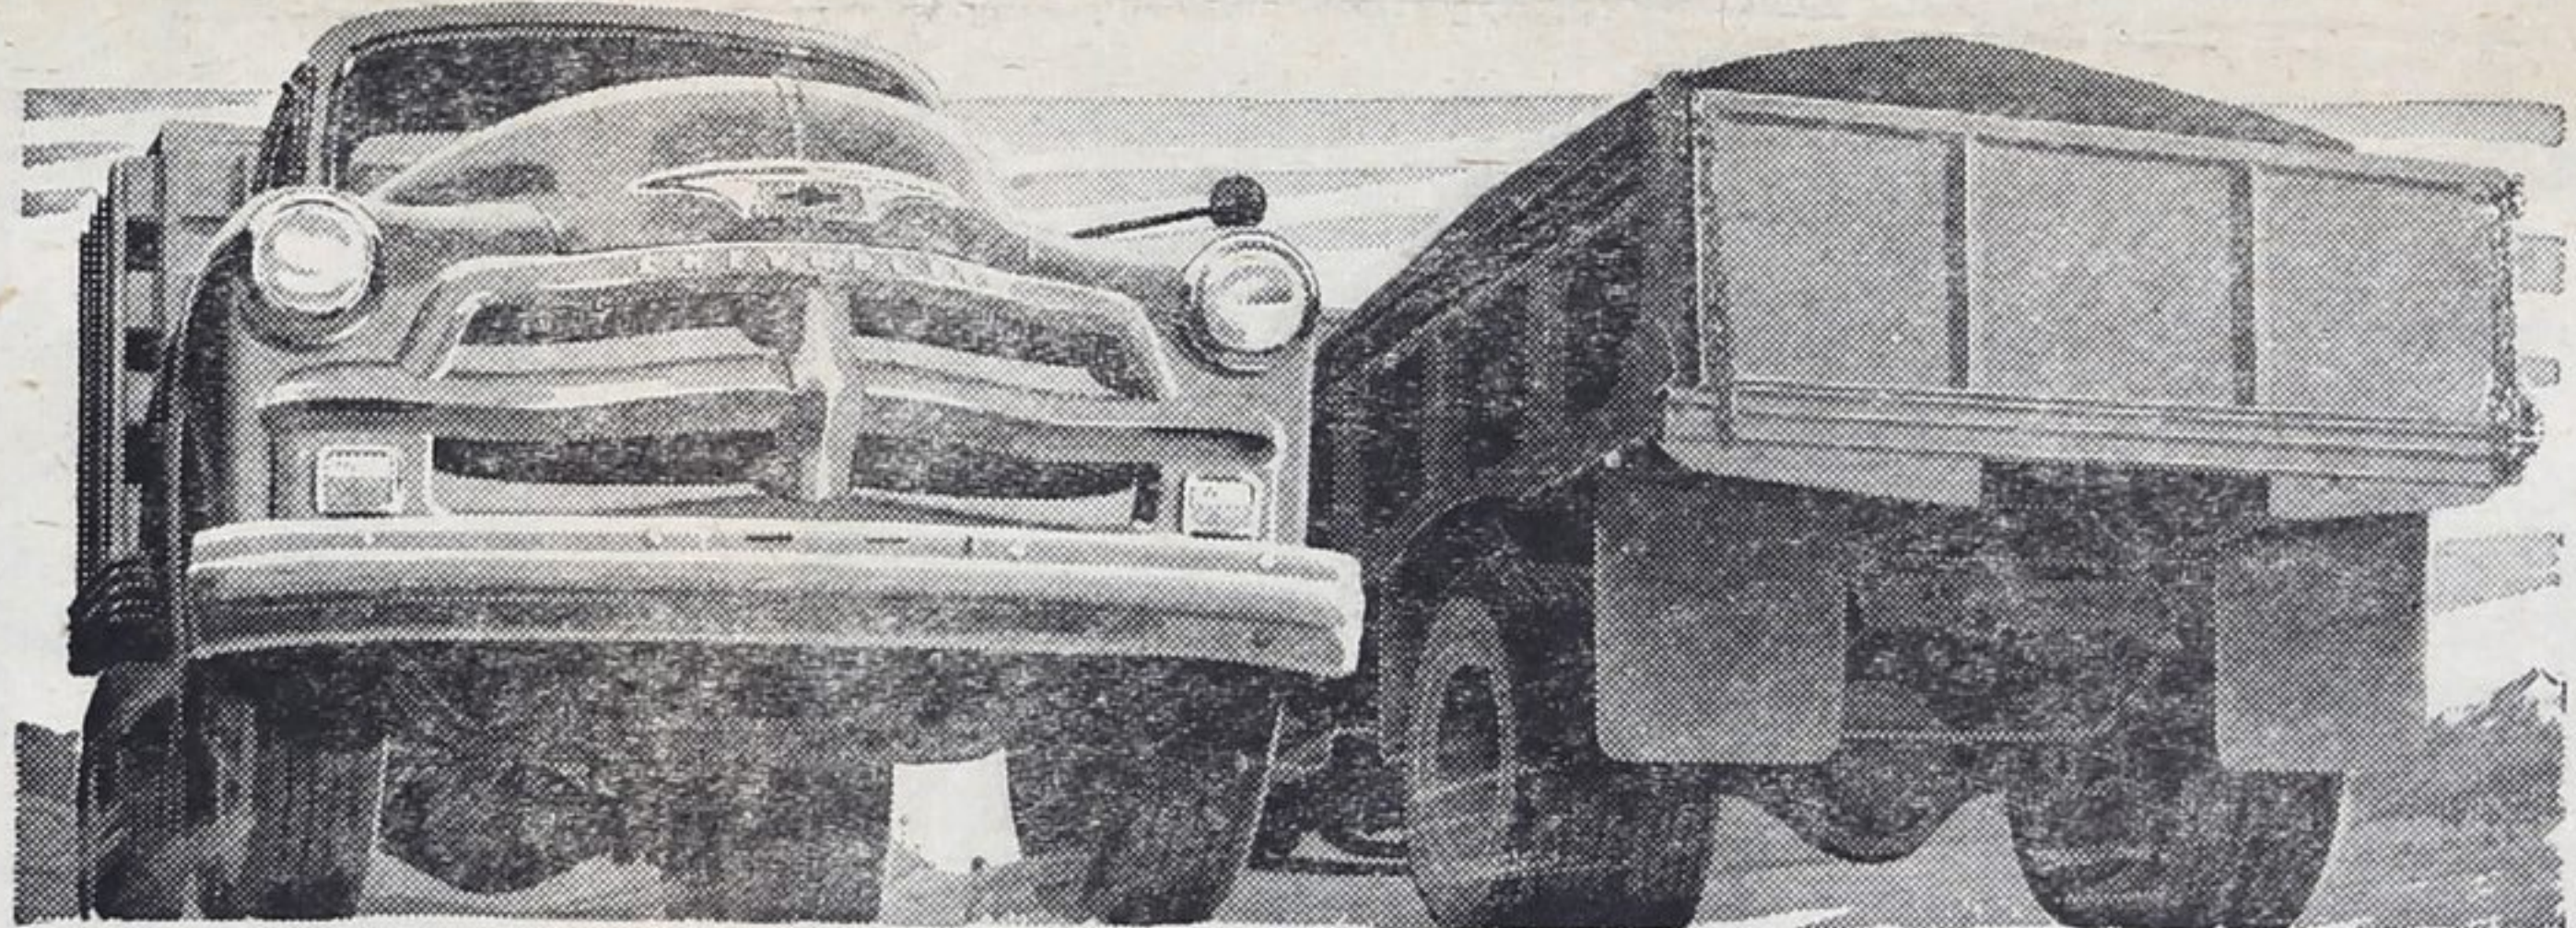

Looking ahead, Cyril Young, Mayor of Haileybury in 1908 "saw great possibilities in future years with the coming of the gas line for the development of this beautiful north country."

To a cheering audience, Ann Shipley and Bob Herbert brought greetings for a successful jubilee and the day was underway.

## Sailors Take Over Lake Temiskaming

White sails on a blue lake on Friday afternoon were one of the loveliest sights and the winners in the race were Clarke Hare, Keith Oliver, Bob Hare and Mrs. A. Cheadle from the Cobalt Chemicals property where sailing is a favourite sport.

## Under the HOOD...under the LOAD...

## More POWER and STRENGTH where it really counts!

### Under the HOOD

### Under the LOAD

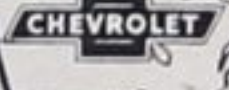

- CHOICE OF 5 FAMOUS ENGINES  
... Chevrolet enables you to choose the engine which exactly fits your power requirements.
- UNBEATABLE VALVE-IN-HEAD ECONOMY  
... valve-in-head operation combined with high compression ratios gives more power per-gallon.
- EFFICIENT FULL PRESSURE LUBRICATION  
... Chevrolet engines operate in a "Niagara Falls" of oil, greatly increasing engine life.

- MOST DEPENDABLE TRANSMISSIONS  
... Chevrolet offers a wide choice of specially engineered transmissions—including famous automatic transmissions.
- WIDE CHOICE OF AXLES  
... Engineered for the road and the load, Chevrolet axles feature amazing durability and strength.
- NEW, GREATER CARRYING CAPACITIES  
... More carrying strength, means bigger payloads than ever with Chevrolet.
