

You Ought To Know

That we are happy to be back with nothing but Jubilee talk . . . right away, we want to thank the Temiskaming Speaker for doing such a fine job of publishing our Jubilee edition . . . not ever, have we enjoyed such whole-hearted co-operation from so many on one staff . . . all in one great effort to make Haileybury's Jubilee edition worthy of the occasion.

The cement was poured to bury the souvenirs and papers for the Centennial leaders to unearth and while the camera played on Mayor Day, Leo Gough and Vice-Chairman Sam Hughes, we thought it was a nice Jubilee note that Albert Palmer and Hector Villeneuve should be handling the shovel and the trowel to lay the plaque.

That what is a parade without a band and such music swinging from our good neighbour, New Liskeard who sent the Lions Bugle Band and Neil McIsaac who didn't send the Highlanders . . . he went to get them in Kirkland with his bus service and after the parade and all day long played host . . . boaters and bathers spent the day enjoying a free show of Scottish dances and all the trimmings and then off to Cobalt in a bus to give a little tune to Cobalt as well . . .

That we have greetings from far points which came too late to publish before but are none the less warmly received . . . from Mrs. Jos. H. Thomas who writes from Palmeter Traylor Park, Florida: "it is with much regret that I am not able to attend the homecoming that Haileybury is extending to old timers . . . the trip from here is a bit too strenuous for folks of our age . . . through these many years, I have always enjoyed looking back at Haileybury as the best governed town and the most beautifully situated of any in my travels . . . I sincerely wish you the best of everything . . . and from Mrs. Goldie Nyman of Red Rock, Ontario who is visiting in Finland "you will be surprised to get a letter of congratulations and best wishes from the other side of the world. Finland is a very nice place but no place can compare with Canada . . . I was born in Haileybury in 1912, the daughter of George Anderson and Eleanor Childs. . . I am the granddaughter of Mrs. James Childs, Amwell St. who is, I believe one of your oldest citizens in age there."

That we could go on forever . . . but we can't . . . to the Evelyn Shoppe to Whorley's, to Dewey's, to Sander-son's for their window displays providing interest for all our visitors . . . to Whitby's and the Ideal Dairy and Conlin and Hogan for their spirit in entering floats in the big parade . . . "You did a magnificent job" . . .

That he came early to Haileybury and offered to do anything and everything for the Jubilee and he did, Paul Hermiston of Cobalt and Jack Gale of Swastika kept that Lake Shore mining camp humming from dawn to dusk and what is more, it was Paul's idea to launch those pioneers — a tearful and happy moment for all . . . Mrs. A. Dickson has not lost one grain of her pioneer spirit for it was no easy task to

hurdle that rail on the steamer but undismayed she made the leap with the help of Mrs. N. Austin and much happy laughter . . . old timers we noticed on the boat were Cap Burns, Mrs. Bill Edwards, Mrs. Anne Campbell, Mr. and Mrs. Bill Cain, Mrs. Cherry, Jack Dunn, Heber Briden, Margaret Berry, Mr. and Mrs. R. Jenkins, Mr. and Mrs. D. Murray, Mrs. Swan Nelson, Mrs. A. Olson, Mrs. Byberg, Mrs. Fred Hume, Mr. and Mrs. John Fleming and Mrs. Creasy. . .

That the most vivid and cheerful glow through the past week was the lights shining up through the shrubbery at the home of A. W. Sander-son on Browning street . . . down Florida way, this is a sight that catches the eye of every tourist . . . We pass the idea on to you hoping that you will tuck it away and make use of it so Haileybury will shine forever and attract the attention of everyone through its warm welcome.

That the beautifully colored picture of the Provincial School of Mining provided a background for a display of precious metals that was breath-taking . . . congratulations to O. E. Walli. . .

That we have had many nice remarks about the display of pictures at the Curling Rink and you ought to know that Miss Suzanne Smith is solely responsible for this great effort . . .

That our skeptics in town who still don't believe us when we tell them

that television moved in on Friday because according to the boys that had better get near a television set did the job, it's \$4,000 worth of

advertising for Haileybury . . . That Haileybury appreciates the

efforts of Miss Henrietta Boyle of (Continued on Page 6)

They're talking about Canada the world over

A few months ago, Jose Caballero, noted Spanish artist, sketched his impression of The Seagram Collection of Paintings while they were exhibited in Madrid at the famed Castellana Hilton. Like Señor Caballero, 30,000 people of Spain took the opportunity in the next two weeks to view these original canvases of 22 of our cities and to see, too, for the first time, a new aspect of a great and growing Canada as reflected in these impressive portraits of our nation's thriving metropolitan centres.

Everywhere these paintings went . . . north and south of the equator . . . on both sides of the Atlantic . . . they won new friends and favourable comment for Canada. In sixteen cities

along a 30,000-mile international route through 15 foreign lands, more than a quarter of a million people came to visit them; to observe the skyline of our land, and to try on their lips the unfamiliar name of our Canadian Cities.

Accompanying the Collection were 48-page booklets containing reproductions of the paintings. These were available to all who visited the exhibition. The Seagram Collection is now back home on a two-year Canadian tour but it continues, through these booklets, to build goodwill for Canada abroad. In many thousands of homes, the text and pictures of these booklets are keeping Canada talked about the world over.

NO. **7** IN A SERIES . . . YOUR HYDRO AT WORK FOR YOU AND YOURS

The Gifts of Nature for Two Great Countries

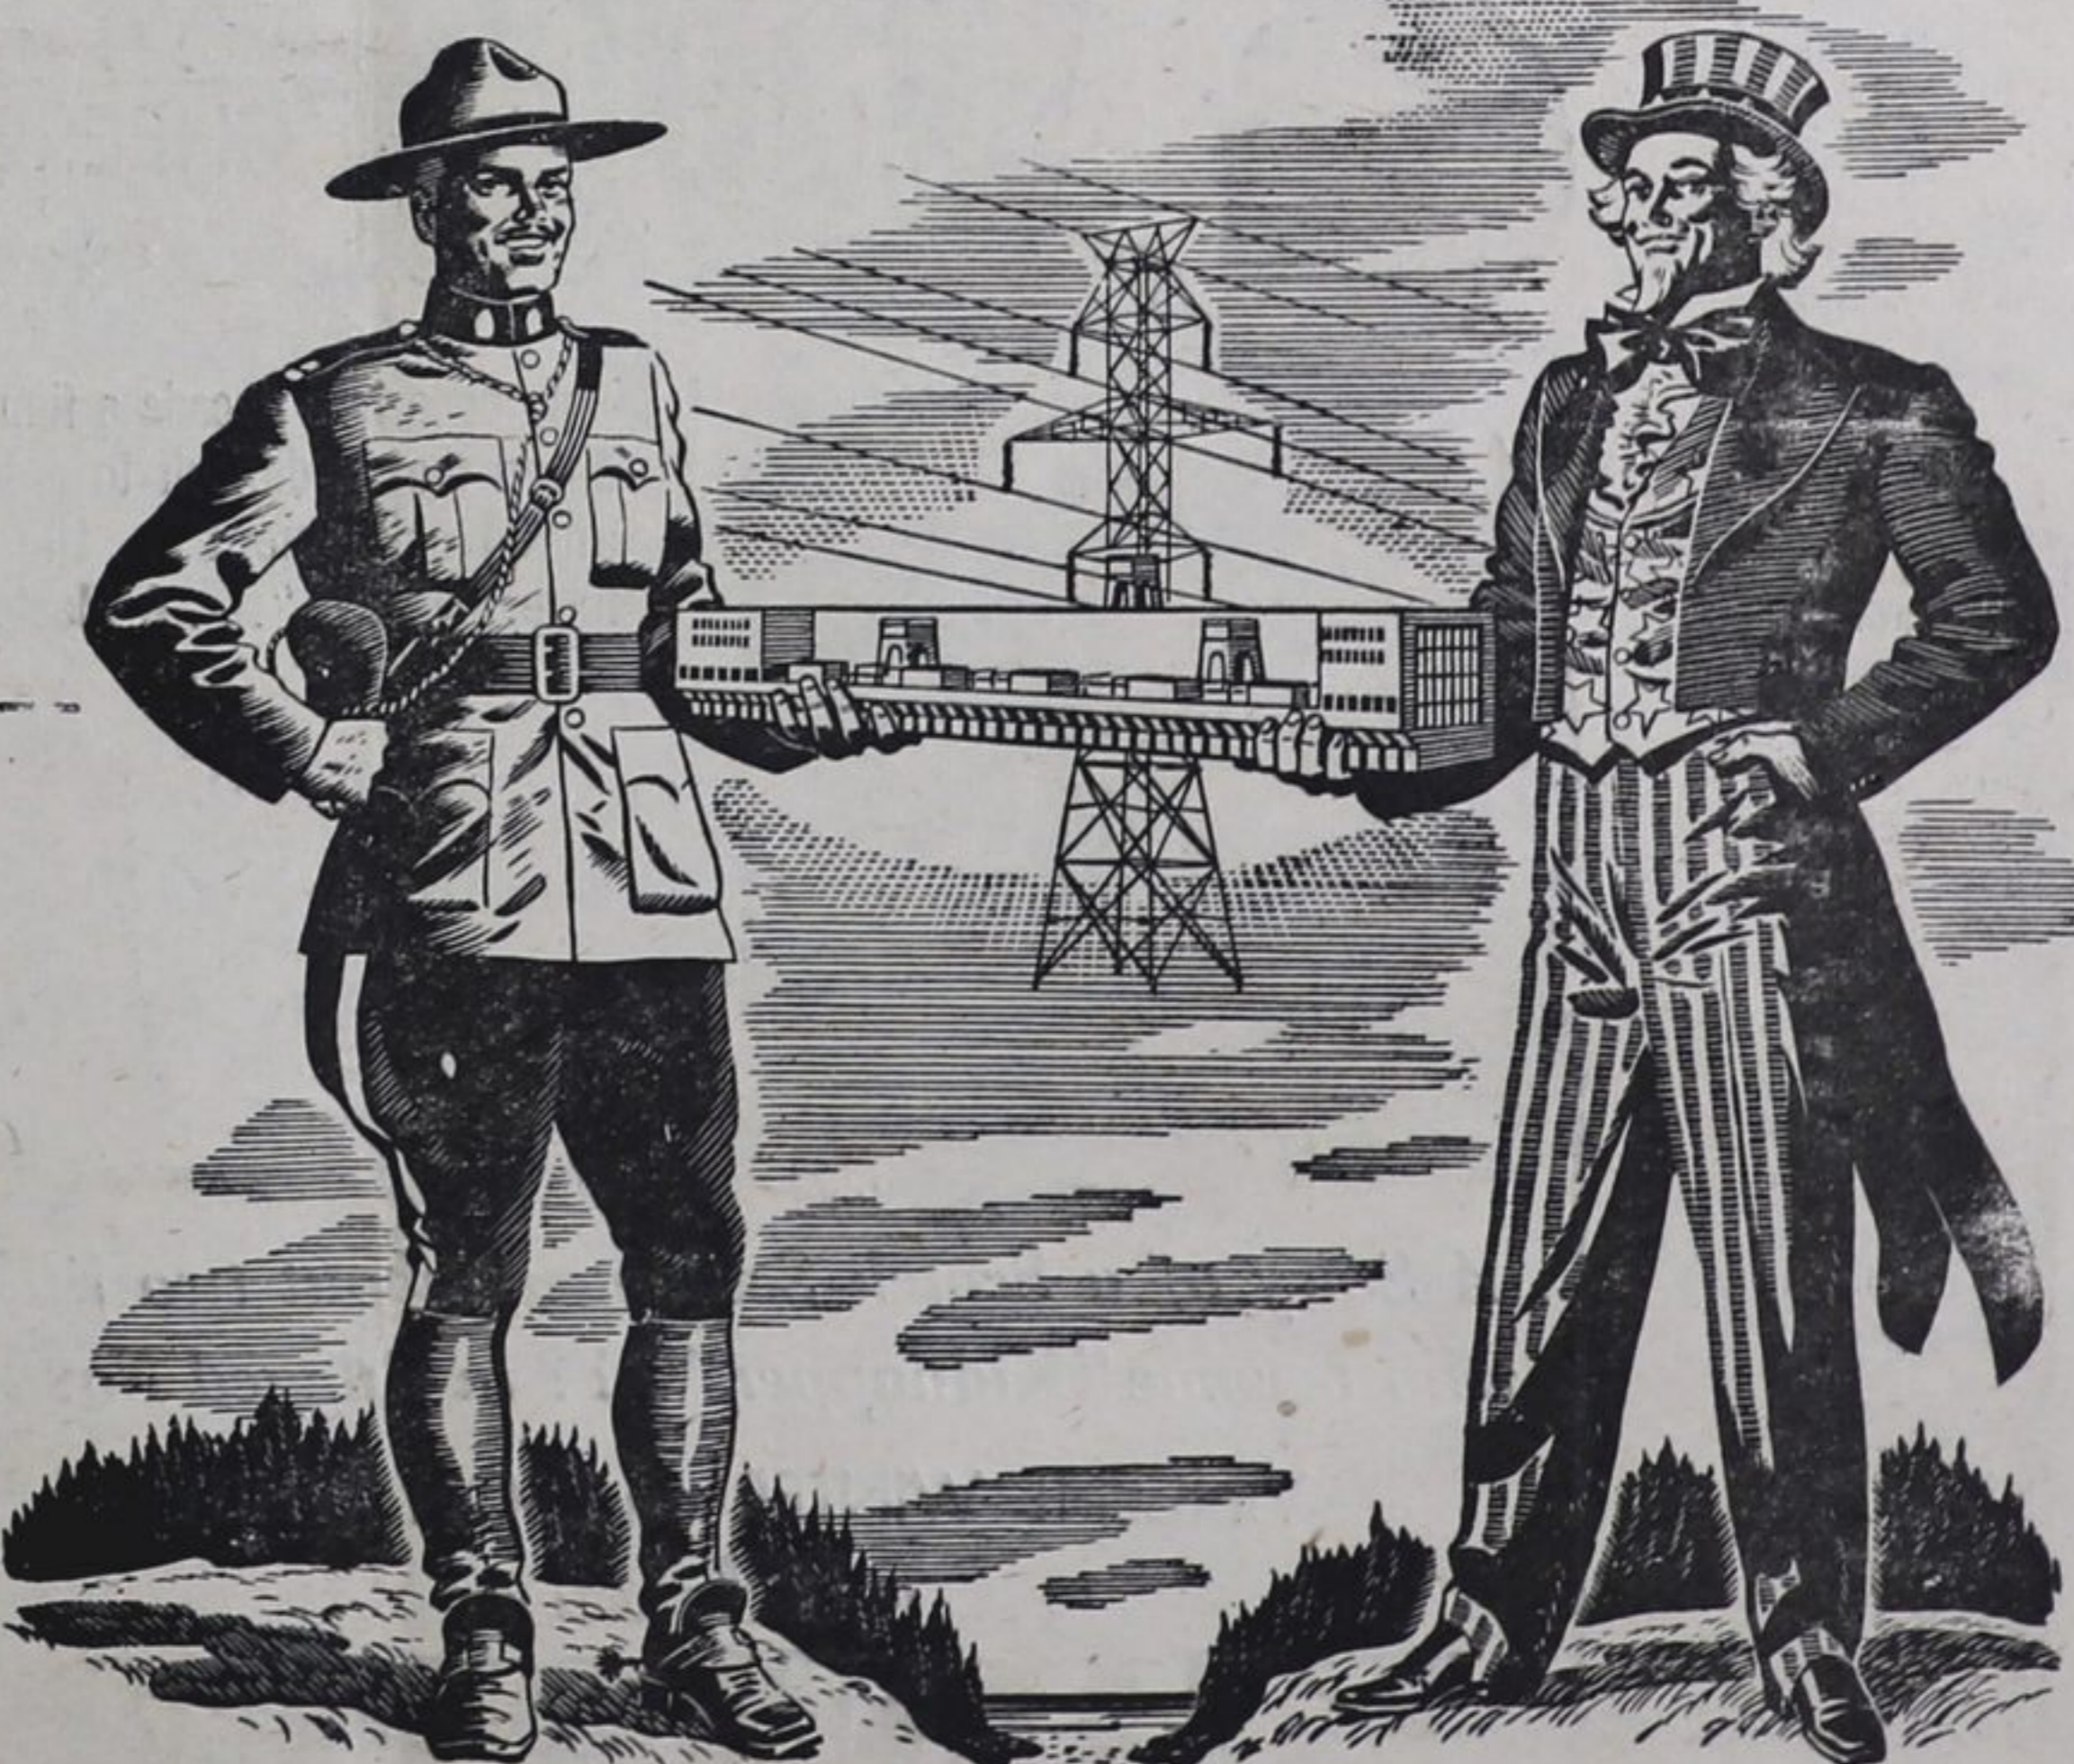

The dream of power from the St. Lawrence was born somewhere in the last century. Halfway through this one it is about to become a reality.

The turning of the first sod for this important power development is a high point in your Hydro's 48 years of progress . . . progress that has been the bedrock of Ontario's economic development and prosperity.

Ontario Hydro thanks the Statesmen, public-minded citizens and all others who helped bring to a successful conclusion years of protracted negotiations. The result is proof once again of the beneficial outcome of co-operation between Province and Dominion and between the Governments of Canada and the United States.

The objective of Ontario Hydro and the New York State Power Authority, is to complete this great, 2,200,000 horsepower project in 5 years with the generation and sale of power in 4 years.

The straining tractors and bulldozers, chugging drills, labouring trucks and corps of hard-hatted construction crews will be visible evidence to all in the area of . . .
