Go Ahead on New Water Line; Sewer System Possible

Council gave positive evidence last Friday night that the water line must be installed in the Rorkei Avenue, Lawlor, Georgina, and Albert vicinity for reasons of health. As the Mayor said "Memories of typhoid epidemics are all too vivid." Regarding sewer installation, they weren't leaping right in without a thorough discussion on whether they could afford it and whether it was a sound venture in view of the fact that it would service only twelve homes and a good many vacant lots. A Mosher led off with a forward punch when he remarked "that if we are going to progress, we must create attractions. D. Gardiner countered with "There are already 80 serviced lots available in town. If they do not choose to live across from me, they can choose an equally good lot in the south end of Haileybury."

He agreed with the philosophy, however, that if we don't go forward, we have no place to go but backwards—even if we go temporarily into debt. A Mosher did not agree with D. Gardiner's statement that we depend entirely on Cobalt. "If it falls flat it's the end of Haileybury," "Exactly what percent of income

from Cobalt goes into Haileybury" asked Councillor Mosher, pleton gave him a list of names compiled for last year's mining grant but Mr. Mosher was optimistic. "Others will come in to replace them."

A Mosher felt that sewers were as important to health, if not more so, than water.

A concentrated study of plans and estimates of Sutcliffe and Company and the anticipated over-all income from water rates next year led them all to the happy conclusion that they could see their way clear to the installation of water by the Town and bearing their share of the sewer under Local Improvements.

The Mayor repeated his oft-stated view that this was the only sound policy "as water is a service we give to the people" and sewer installation is for exclusive use for those people."

Councillor Poppleton suggested that before going ahead with the sewer, they notify the people concerned regarding cost to them so that they could decide if they favour it. "If they are interested they should be here within the week."

Councillor Mosher said "twelve hours." Councillor Gardiner couldn't let that one go and said "Unless they are in Red Lake."

D. Dean Speaks to Board of Trade Members on Tour

"Seldom do we have the opportunity to welcome such a distinguished group" said Dalton Dean in his opening remarks to the touring members of Toronto's Board of Trade who visited the Tri-Town area last weekend. The occasion was a luncheon at the Cobalt Community Hall.

Turning back the pages of history, Mr. Dean told his audience of the early voyage of Chevalier de Troyes and what might have been Lord Birkenhead's "turning point in history." The Indians offered to guide de Troyes to a lead mine on the east shore of Lake Temiskaming but he was disinterested in what developed into the oldest lead mine in the United States or Canada. "It is interesting to speculate" said Mr. Dean "on what might have happened if he had come to the west shore and stumbled on Cobalt where over 400,000,000 ozs of silver have since been produced—in those days an unheard of fortune. The French would never have given up the struggle and we would be today a French colony. As it was 200 years elapsed before Cobalt was discovered

Over 125 Members Children's Aid Society to Attend Convention Women's Institutes

Over 125 delegates and members of the Women's Institutes in the Districts of Temiskaming and Cochrane met in the Schools Auditorium on Monday and Tuesday of this week for their annual convention. They were welcomed to Haileybury by Mrs. H. Cooke, president of the HWI. Mrs. E. Campbell of Haileybury was area chairman, opening all sessions and the presidents of the districts, Mrs. C. Wilson, South Porcupine; Mrs. J. MacPherson, Cochrane North; Mrs. Bert Brownlee, Centre Temiskaming and Mrs. C. Johnson, S. Temiskaming, occupied the chair for one session each.

Special speakers at the Convention were Miss Anna Lewis, Director of Executive Services, W. I. Branch, Mrs. Gordon McPhatter of Owen Sound, President of the Federated W. I. of Ontario and Dr. Lotta Hitchmanova, Director for Canada of the Unitarian Service Committee and Miss Therese Fortier.

NEW APPOINTMENT TO MUNICIPAL POLICE FORCE

Constable Don Scanlon assumed the duties of senior police officer for the Municipal Police force this week. He succeeds Constable R. Berry, who is now with the OPP. Constable John Rundle, well known throughout the District is the new appointment to the Municipal Police.

Ski Club Opens On Saturday Night

A new season at the Northern Ski Club got off to an auspicious start on Saturday when one hundred and fifty guests enjoyed a party and dance.

This year the Executive plan to hold these popular winter parties each month with Cobalt and Haileybury alternating.

The Club have wonderful plans in store to complete unfinished work this winter and before the snow tumbles down, we'll be telling you all about it. Meantime, we only advise you to plan to have your youngsters take advantage of free skiing instruction every week-end this winter. There is nothing healthier than a day in the fresh air and it's a family affair at the Ski Club.

What Council Did

Led off with an informal discussion on what a good Town this is. Councillor Mosher remarked that he had done considerable travelling through small towns and cities, particularly in Western Ontario and had come to the conclusion "that we have one of the finest communities of its size, anywhere. Some times, he said, we do not appreciate a fine hospital, splendid schools, a golf club, a curling club, a water and sewer system—even roads, much as people may complain, are not a bit better than they are here."

The Mayor was happy to listen in for as he said "I have been trying for I didn't know how many years to impress everyone with the fact that we have a wonderful heritage."

Present for Friday's Council Meeting

Present for Friday's Council meeting were the Mayor, Alex Mosher, Don Gardiner, Arnold Dempster and Bob Poppleton.

Left the proposed by-law on dogs until the next full meeting of Council for approval. Councillor Dempster had a few unkind thoughts on the matter of stray dogs and garbage tins. He was advised by his friends to build a box for the tins. The Mayor said "ly all means accommodate the dogs!" Several beasts came in for special attention and Councillor Gardiner wondered why the owner didn't build a fence or walk them. Mr. Day said "they could be trained to stay at home." So much for dogs. The next by-law may read "Children Running at Large" from the trend of conversation.

Withheld a decision of sale of a town owned house on Fourth Avenue to E. Laforge until Councillors can inspect the property and assess its true value.

Listened to D. Gardiner, who

Children's Aid Society to Open Annual Campaign

Camp holidays for 85 children were arranged by the Children's Aid Society last summer, Mrs. Nora For, superintendent, told the monthly meeting of the Board of Directors in Kirkland Lake. Of these, 55 were wards of the Society and 30 were underprivileged children, sent through service clubs' generosity. Protestant children went to Camp Lorrain and Catholic children attended the Colonie des Vacances at L'Orignal, Quebec. Their fees, Mrs. Fox said, were paid from Family Allowances and from general funds received during the annual campaign.

The superintendent also told the Board that adoption placements would speed up considerably since the Provincial Child Welfare office had established a clearing-house for information about children available for adoption and prospective adoption homes throughout the Province.

Referring to the annual campaign from September 27th to October 9th, Mrs. Fox said the objective for south Temiskaming was \$6,500. New Liskeard's was \$3,500, Haileybury's \$1,500 and Cobalt \$1,000. Local chairmen are J. E. McDonough, Mrs. R. L. O'Gorman, R. W. Brotherhood S. E. Tripp and Bill Pape.

Had been instructed to look at a lot next to F. Simpson's which the latter had bid on to buy. Mr. Gardiner said it appeared to be a good building lot; however, the only objection he had to a sale for non-building purposes was that it would be the first exception to an established policy which says "No building, no lot." It was decided that when a full Council meets, the whole policy will be discussed and reestablished.

Issued a license to Paul Gervais of the Township of Hudson as a transient meat vendor in the Town of Haileybury on the recommendation of the Health Unit.

Gave Authority to the Waterworks Committee to sell the old 2200-volt water starter, a pump and copper line to the reservoir.

Heard D. Gardiner give a favorable report on pumps which are down to twelve hours working time. This, he thought was considerably better but still far too much.

Wondered whether to take A. Mosher's advice and use a magnetometer this winter to locate the rod and wire screen in Lake Temiskaming which needs replacement or acquire the services of a deep sea diver. Anyway, it will be a car trip down, according to Councillor Arnold Dempster.

WEEK IN COURT

Cobalt had liquor unlawfully and was also fined.

Two Charged With Impaired Driving

For driving a farm tractor while his ability was impaired, Gordon Nowry of Earlton was sentenced to 14 days. His defence, W. C. Inch argued that a farm tractor was not a motor vehicle as no license was required. Acting Crown Attorney, R. D. Cuming asked "It is driven by a motor and if it is not a motor vehicle, what is it Maurice Pelletier of Rouyn was also fined \$75.00 for impaired driving.

Alphonse Beaulieu of Englehart did not stop after an accident and was fined \$100.00 and costs. Careless drivers William Bush and Charles Humphreys of New Liskeard were both fined \$20.00 and costs. Frank King of New Liskeard did not have the rear license plate illuminated and paid \$5.00 and costs.

Second offence in a public place against Gordon Micmac of Haileybury brought a sentence of \$50.00 or one month. Norman Moore and Earl Tinker of Cobalt were also fined for this offence. Charles Gervais of

- Saturday, Nov. 27th—United Church Bazaar.
- The Women's Institute, now a world-wide organization, was founded at Stoney Creek, Ontario by Mrs. Adelaide Hoodless back in 1897.

"Today," Mr. Dean said, "I believe that the town of New Liskeard has one of the best balanced economies of any town in Ontario." Those who expect to see only rock and bush are amazed to find a fertile clay belt with prosperous farming community. There are thousands of acres yet to be cleared and its future can be increased threefold. In the town itself the Hill Clark-Francis, the focal point for lumbering in Northern Ontario; the Wabi Iron Works; Eplett's; George Taylor Hardware Wholesalers—all serving the gold mining area."

"The town of Cobalt is a fabulous town. Whether it was discovered by Fred LaRose chipping a rock with a hammer thrown at a fox or not, it is rich with stories and legends still recounted. In fifty years, this camp of fame and fortune has paid out over \$100,000,000 in dividends alone. The surface," Mr. Dean continued, "has barely been scratched and a bright future lies ahead. A great note of stability has been introduced

With the opening of the Cobalt Chemicals Refinery, it may well give rise to a series of secondary industries. Today, the town has the highest per capita retail trade of any town in Canada"

"It may be difficult for you to see how the people in Haileybury, the most beautiful town in the north make their living. Over half in the County Town are associated with mining. The largest payroll is that of the Morissette Diamond Drilling Company.

With all this and the gold mining industry behind us, we have no haunting fear of depression." But he emphasized, to get ahead we need your understanding of our province, your realization of our potentialities and your co-operation in bringing it to production."
