Community Clubs Behind Rotarians Film Council Begin Second Year of in Hollowe'en Plan Community Service

Hallowe'en and all the fun that this day brings us just around the first pumpkin. Soon, the flickering candle flame will light the funny faces in the window of the early dusk and oh to be a child again and dream upon a spooky costume to scare the daylight's out of you and me. But over at the Schools' Auditorium on October 31st, is the place where the biggest surprises of all are in store. And we're not fooling either. What else can you expect when the Rotary, the Haileybury Art Club, the Home and School and the I.O.D.E. all join hands in one magnificent community effort to give the kids a day of days. The Art Club will do the decorating, the Home and School will see to the entertainment and the I.O.D.E. have made themselves responsible for overall assistance and specifically the food.

The School Grades, six hundred children all will be divided into groups which means three different parties. In the afternoon, Pre-School and Grades I and II will have their fun. In the evening from 8:30 to 9:00 p.m., Grades 3, 4, 5 and 6 will take over. After that, Grades 7, 8, 9 and 10 will have their turn. It's all going to add up to something different and something new.

Parents will also do their part as they have in the past. Rotarians will leave their boxes in convenient business places next week for the donations which go to make the parties a complete success. If everyone just gives what they can and no one passes by, Hallowe'en will be a happy day for everyone. Remember, all these clubs are devoting their time to help your town and you and it's nice for them to receive the same support in return.

Film Council Begin Second Year of in Hollowe'en Plan Community Service

The Haileybury Film Council reports that it has completed its first year of service and is now prepared to begin a second year with twenty excellent films available each month.

Last year, two hundred and ten films were supplied to local groups; instruction was given to all those interested in operation and care of projection equipment and four previews were held locally. The Executive headed by Mrs. C. R. Lowery feel that valuable experience in this important phase of the educational life of the community has been gained and they look forward to another successful year.

The first block of twenty films is now ready for distribution and the Council hope that as many as possible will take advantage of this service. All interested parties are requested to call or write either Mrs. J. Shouldice, Secretary or Mrs. W. Hammerstrom, Film Librarian.

Films available for the month are Australia's Coral Wonderland Coronation of Her Majesty Queen Elizabeth II, Eye Witness Horizons of Quebec, Island of Faith, Prince Edward Island, Rumpelstiltskin, Seven Pagodas Sheet Metal Worker, Speckled Trout Across Canada, Citizen Vark, Germany—Key To Europe Hold Back the Night, House of Windsor, Point Pelee, Rhythm and Percussion Sailing in Canada, Stagecoach to the Stars, Story of Money, Youth in Our Town.

Second Crop of Red Raspberries

A whole branch of raspberries just ready to eat was the happy find of Fred Page on Tuesday morning and it has sent others scurrying to have a look to see if a dessert awaits them on a cold October day.

NEW ALGONQUIN COMMANDER

Major Wilbert Fischer, OB.E., of North Bay, who has been appointed Officer Commanding The Algonquin Regiment. Major Fischer, of North Bay, has been second in command of the Algonquins for the past three years, and served for five years with the regiment during the war, both in Canada and overseas. It is expected that Battalion headquarters of the Algonquins, now an armoured regiment, will be moved to North Bay in the near future.

What Council Did

Heard citizen John Gilkes' request for assistance in clearing up a drainage problem on Meridian Avenue. Mr. Gilkes said he had to replace the culvert at his home and he would like to see the town tackle the rest of the problem. Councillor Poppleton pointed out that to do it properly "the road should be crowned from away back." The Town Foreman pointed out that the Town grader was not suitable for doing this work and that a considerable amount of gravel would have to be put down if and when we could get some dry weather. A suitable machine, the time and the gravel. Mr. Gilkes also repeated his annual request for a light and Councillor Mosher assured him that they were attending to lights as the budget allowed and he would consider the matter. After Mr. Gilkes left, Councillor Poppleton pointed out that Mr. Gilkes had been advised when he bought his property that he could not expect too much out of service area. More discussion on culverts arising from a letter from Temiskaming Construction requesting advice on the proposed installation of a culvert at their Ethel Street property resulted in a motion "that the cost of all culverts for entrance to private lots, either new or replacements will be borne as follows: Cost of material by person who requires the culvert; cost of labor for installation by the municipality."

Heard Mayor Dav ask "exactly what provision has been made for gravel and sand?" Councillor Mosher pointed out that his proposal in the spring whereby sand and gravel would be made available from the quarry had been flatly rejected but fellow Councillors reminded him that it involved getting a crusher of their own which was not possible. The foreman assured them that there would be sand available when needed. As far as gravel was concerned they would continue to get it as best they could. The Mayor and Councillor Mosher referred to the urgent need of gravel at the Armouries corner which will be given attention.

Listened to Councillor Millar advise that he felt the Horticultural Society were justified in their request for \$300.00 grant rather than the 100.00 which stood in the budget, apparently through a misunderstanding. Councillor Gardner registered a decided vote against and levelled the accusation that "every time anybody asks for a dollar we give it. Taxes are going up and we are getting a lot of criticism. Mr. Millar had the unanimous support of Council n that the Horticultural Society were doing exceptionally fine work for the Town. "I accept Mr. Gardner's criticism but in this instance, we should understand that the Society have not had any assistance for two years." The chairman of Finance was outspoken and there was no dissenting voice as he made it clear that he was fed up with estimates, that were out of line, "There was no excuse," he said, "for the Fire Department to casually put in an estimate for a new boiler at the Fire Hall which was so far out of line in the final analysis that it was ridiculous. Mr. Gardiner agreed and said "If we were in a commercial enterprise, we would be out of business."

Did not take up the Mayor's insistent plea to sell every lot we have in town regardless of whether it was for building purposes or not. "A Town was never intended to be in the real estate business and every lot sold means taxes coming in. After that, it is not our business what happens," said Mayor Day. Councillor Gardiner did not feel they could sell a lot to F. Simpson

Hurricane Hazel Lashes District at Journey's End

By any comparison, the results of an all-night's whipping by Hazel on Friday night were negligible. In the face of the almost unbelievable horrors and the awful loss of life suffered by residents of Southern Ontario, we are tempted to not even mention our own slight discomfort.

From the Hydro we learn that although lights were out for one hour and twenty five minutes it was a matter of broken poles between New Liskeard and Co-not believe that it was in any way harmful to either the emotional and one on the West Road snapped but continued in service. One wire broke at Cunningham-Dunlop's on Latchford Street.

The Town Foreman reports that although he and his men were kept busy until the early dawn, particularly at west Main Street where the gully next to Morissette's plant had filled and overflowed, they did not encounter too much difficulty. Roads in general took a beating from the excessive rainfall with south Latchford and Florence bearing the brunt of it.

In a wild sea timbers tore loose from an already decadent breakwater and much of it crashed on private docks in front of C. Connelly's and W. E. Bagshaw's with slight damage.

On Marcella Street, the home of Verdun Cooke which was braced on posts for the construction of a foundation was blown off its moorings and settled over the excavation.

At the Montreal River, Claude Alderson's main lodge was badly damaged by a heavy tree which crashed right over the building.

Recreation Parley Says Competitive Sport Detrimental

Two issues came before 75 delegates at the Northern Ontario Recreational Conference in New Liskeard last week-end. What is the effect of highly competitive sport on children 12 and under? Western's Director of Physical Health, Dr. Zeigler, believes that it is definitely harmful, particularly too many games in a week before large crowds. Dr. F. Farlinger of New Liskeard, however, forwarded the view that he did believe that it was in any way harmful to either the emotional or physical development of the child. The discussion arose out of a resolution passed at ORA's spring conference. The Northern Ontario delegates passed a resolution 11-10 asking the ORA to re-consider even though it was felt the criticism was aimed at merchants or other sponsors who exploit the children for glory at the expense of their welfare.

A heated discussion on the acceptance of baptismal certificates for hockey players resulted in a decision that Quebec lads would be required to show proof-of-age cards signed by a Deceational Director to substantiate the baptismal certificate.

The sessions on Saturday covered (Continued on Page 4)

for breaking and entering the property of Floyd Aviart of Englehart and Mrs. A. J. Kruger Kirkland Lake. Jack Engel and Robert Waldriff of Englehart were fined for stealing gasoline. Having a gill net and carrying a firearm without licenses cost W. D. Paul of Elk Lake \$20.00 and costs. T. Guilbeault of Cobalt and Nelson Vinkle of O'Brien failed to stop at a highway entrance and were fined \$3.00 and costs. For travelling at 40 m.p.h., Charles Simons of New Liskeard paid \$10.00 and costs. L. Peever of Tomstown went 45 m.p.h. and paid \$15.00 and costs. Intoxication in a public place cost C. Pryde of R.R. No. 3, Forest, A. Weatherston of Alton \$10.00 and costs. R. Renaud of Englehart paid \$50.00 and costs on second offence. Ernest Deschamp of Brethour and Jack Engle of Englehart had liquor unlawfully and were fined. Causing a disturbance in a public place cost Armand Forcier of Cobalt \$15.00 and costs.

WEEK IN COURT

Two Charged With Impaired Driving

Elwin Neill of R.R. No. 1 Thornloe and Walter Broderick of Brethour P.O. were charged with impaired driving last week in Magistrate Atkinson's Court and paid fines of \$75.00 and \$50.00.

Edward Juteau of Chamberlain Township was sent to the Kingston Penitentiary for 2 1/2 years of Cobalt \$15.00 and costs.
