

You Ought To Know

That first off we will deal with the complaint department...we'd like to have a heart to heart chat with the lady who telephoned this office on Friday while we were out of the office and having said what she thought of this writer's failure to cover the most important events in town, slammed the receiver down without leaving her number so that we could have a heart to heart chat about our shortcomings... this newspaper is only too happy to report on anything from a cat fight to a tea party...our aim and our hope is to make this everybody's paper, but to do so, we need a little co-operation... hear then, our little sob story with tears in your eyes and bear with us...beginning with Monday night...we devote this evening trying to write something for the paper that will make sense as office hours which extend from nine until five o'clock week-days and from nine until twelve on Saturdays are not conducive to making sense... newspaper office are notoriously wonderful places to work with nice people dropping in and the phone ringing every three minutes and we appreciate it, otherwise we would never know anything...Tuesday night of this week we go to the Chamber of Commerce meeting...Wednesday is a special meeting of Council Thursday we have the little matter of nomination night and school commencement...add on sports, church functions, the Rotary, the Home and School, the court house, the Hurricane Relief...just keep adding as hard as you can add...and don't say "Well, if she doesn't like it she can do something else" because she loves it, but would be truly grateful if you could take one minute out to notify this office of any event you would like published and we will do the rest...and a happy thought... 98% of the people appreciate this and have given us their whole-hearted support to the extent of

reporting and often typing the news out for us themselves... many thanks. *****

If you have a youngster who has a loose tooth and is squeamish about having you or the dentist or anyone, for that matter, touching it, well Freddie Hargrave is open for business...young Charleen Tessier, daughter of Mrs. Lena Tessier had two little loose teeth that would be better out than in but she wasn't having anyone coming near them...let alone pull them out...she went to play with Freddie...friendship knew no bounds for Freddie simply put his fingers in her mouth and out they came...a few days later, Charleen had an aching tooth "I will have to go and see Freddie" she said. "He is the only one who can do a thing for me." *****

That a week from Saturday, December 4th to be exact, the I.O.D.E. are holding their annual Christmas tea at the home of Mrs. R. D. Cumming...this is one of the very nicest pre-Christmas events that we know of because the ladies of the I.O.D.E. set themselves a high standard a long time ago and have kept it up ever since...we can see last year's produce table and the Christmassy tea table even yet and this year you have a chance on a nice plump turkey... so remember Saturday. *****

That if you are planning to park your car on Broadway south, you are given fair warning to think because you will get a ticket as sure as can be...little by little, the new regulations passed by Council to improve traffic conditions in town are coming into effect and if everyone observes them, a lot of long time headaches are going to cease thudding...and on the same theme, your Municipal Police have a job to do...protecting you and lowering the crime rate...leaving your car unlocked or failing to remove the keys to the ignition are an open invitation...for this reason, the constables have been on the alert to teach you to obey the rules and thereby save you and the police, a lot of unnecessary grief...if you find a little

note saying your keys are at the court house, enjoy just one minute of exasperation and then see that it doesn't happen again. *****

That we find we have something in common with Cochrane this week...it seems they, too, are disappointed with the small individual donations which did not come into the Hurricane Relief Fund drive up that way...we were shooting for \$2,500.00 however a total today of \$1,214.15 is gratifying:

- Elliott Slaght 5.00
- Balance forward .. \$1,089.65
- Haileybury W. I. 10.00
- S.S. Twp. of Bucke .. 5.50
- Anonymous 4.00
- Northern Light
- Rebekahs 10.00

\$1,124.15

That it was ever thus... because of the few, we all must suffer... we met an American recently who was returning to his home ground in a frosty rage... why? ... he had just come down the Temagami Lakes from a hunting lodge... thirty-two men, four guides and two dogs were looking for a deer... all together they were stalking the

great north... the untouched wonderland where the hunter is looked after at \$100.00 a week...as the man said "We know when we are being taken for a ride and you can tell this country for me, I've made my last trip." *****

That we were interested to learn from the Cobalt Concentrates last week that twenty-nine are now enrolled in night classes for New Canadians of all different nationalities... as that is all they can handle with the present set-up, another class will be set up if applications warrant it.
