**CONGRATULATIONS
TO THE SPEAKER
ON ANNIVERSARY**

Many and varied are the congratulations extended to the Temiskaming Speaker on their having reached their 50th year of publishing this paper.

We would like to add our words of congratulation for a job well done in expanding their paper and printing facilities until to-day it has one of the most modern of weekly newspapers and job printing establishments in Ontario.

FISH AND WILDLIFE

The fire rangers are not the only ones who are feverishly preparing for the summer season. Last week a special meeting was convened under the chairmanship of D. Roseborough from Main Office. All our Conservation Officers were present and each one brought three licensed guides from his patrol area with him.

Mr. Roseborough is currently engaged in working with and training guides with a view to ward improving and stabilizing this important business. Guide councils are being organized and will hold regular meetings amongst themselves and with officials of the Department of Lands and Forests. At these meetings new methods of operating can be discussed, problems aired and new ideas presented with an end view of closer co-operation and better understanding.

Yes, the 'old picture is even changing. Gone are the days

—Ont. Dept. of Lands and Forests Photo
Smelt run begins in countless Ontario streams when the ice goes out each spring. Here are some of the sardine-like little fish, netted annually by the thousands, as a Whitby "smelter" sorts 'em out. Ontario Dept. of Lands and Forests expects big catches this year.

when a guide was expected to merely pack across portages, paddle the eager fishermen and keep quiet. These men are becoming conservation minded and can see the importance of following the rules to protect and provide for their own future and that of their guests.

Our forest heritage of fish and wildlife is one which is continually renewing itself. If the crop is sensibly and carefully harvested it remains in a plentiful and balanced state for our use and pleasure and probably more important for those generations which will follow us.

Temporary Guardian

Girls and women who like children and who have patience with them enjoy earning extra money as baby sitters. To be a successful and safe temporary guardian of other people's youngsters, the sitter should be capable of dealing with emergen-

cies as well as being able to spend a quiet evening. The sitter should be able to give the baby his formula if necessary. In case of fire or other emergency, she should have presence of mind and know how to summon help. A course in both first aid and home nursing are available to the baby sitter. When the parents leave her in charge, she should be sure that she has a telephone number where they may be reached in case of necessity.

Expect Election Day Announcement at End of Session

modern housing facilities. There are many jobs to be done. We can see to it that every municipality is provided with all necessary services, including sewers and abundant water supply.

We need more teachers and more schools to meet the needs of our expanding population. We need more trained nurses and doctors, more hospitals, so that we can inaugurate a system of health insurance. We urgently need more institutions to properly take care of the aged and the chronically ill. We need more highways and more modern highways to reduce the alarming rate of traffic accidents and death. In our metropolitan areas we need subways and expressways to relieve traffic congestion. We need hundreds of small harbors. We need an expansion of our recreational facilities, such as beaches and parks. When we have done these things we can think about a shorter work week, we can think about an earlier retiring age.

These are some of the broad

aims of our Legislators', which will provide a more abundant life and enable us to live together as good neighbors.

Your time, your energy and your money makes Red Cross service possible. If you haven't the time or the energy your money can help carry on the work.

Best Foot Straight Forward

The way we walk has a lot to do with our becoming tired and with his feet pointed "ten minutes to two" will tire much more quickly and actually take more steps than the walker who steps out with feet pointed straight ahead. The latter method not only gives better balance but also puts less strain on the bones and muscles of the foot.

Hotel Haileybury

Is becoming more and more popular as a rendezvous for businessmen and a place for Family Parties

The excellent food—accompanied by good service is provided in a quiet, friendly atmosphere in which Dining becomes a Real Pleasure

**Last Chance for
Free Haileyburian
Contest Closes Apr. 4**

Readers entering The Haileyburian's annual ice guessing contest on the date of the ice leaving Lake Temiskaming are again reminded that they must comply with the rules to be eligible for the prize—a year's subscription free.

This week the record and coupon are appearing for the last time this year. The closing date is Monday, April 4th. All entries handed in or mailed on or before that date will be accepted.

Up until the present week there has been little or no change in the condition of the ice on Lake Temiskaming, but with continued warm weather the picture can change very rapidly.

For your convenience we again print the list of previous openings with the coupon.

Address

The first person to attempt the ride over Niagara Falls was a woman, Miss Anna Edson Taylor. In 1901 she made the drop in a barrel with an anvil for ballast and survived.

**They're talking about Canada
in Rio de Janeiro**

Opening of the Seagram Exhibition at the Copacabana Palace.

Beneath the majestic crown of the Sugar Loaf, the people of Rio de Janeiro welcomed the Seagram Collection of Paintings of Canadian Cities.

At the Brazilian premiere in famous Copacabana Palace, and then at the Museum of Art, this Seagram Collection was seen by thousands of enthusiastic citizens.

Throughout Latin America and Europe, the Seagram Collection portrayed the vitality of Canada; her industrial expansion, her cultural progress, her vision and talents. Abroad for a full year, the Seagram Collection helped bring a lasting appreciation and a fuller understanding of Canada to millions of people around the world.
