Newly Formed Club Need Permanent Club Rooms

Haileybury Camera Club fans crowded the Armouries on Monday evening for the second monthly meeting. Films and talk on the basic principles of photography by Alex MacLean brightened the program.

The club executive discussed the desirability of finding a suitable place to hold regular meetings, which would serve as a club room where books and magazines on photography could be displayed.

Certain committee changes and an addition has been made Miss Rita O'Hara replaces O. M. Hennessy as treasurer and a membership and finance committee will be set up under chairmanship of Jim McEwen.

At the next meeting slated to take place May 30, Connie Vachon will bring colored 35 mm slides for showing and critical discussion.

Each meeting of different club member will bring along his or her work.

Music Festival

The seventeenth Temiskaming Festival of Music is over and

two grand concerts held on May 3rd and 4th have been enjoyed by large audiences in the New Liskeard Memorial Hall.

The following is an account of the remainder of Haileybury pupils not mentioned last week in the account of the Festival:

From St. Mary's Academy Piano Solo Class

15 years and under—Joanna Stubinski, second.

18 years and under—Lucille Mandeville, third.

Bach Invention Class—Jeanine Morris, third.

Bach Prelude and Fugue Class—Lucille Mandeville, third.

Beethoven Sonata Class—Gert-rude Girourd, third.

Haydn and Mozart Sonata Class—Jeannine Morris, first.

Miss Morris was thereby winner of an individual trophy in memory of Mrs. R. D. Wathen and also winner of the O.R.M.

T.A. scholarship of \$10.00 for the highest marks in the open piano classes.

Girls' Vocal solo, 18 years and under—Hukquette Robillard, second, Celina Mino third.

Violin Solo Classes

12 years and under—Francoise Caron, first—winner of an individual trophy (Anonymous).

15 years and under—Jeanne Grignon, first; Cecile Caron, second.

14 years and under with less than 1 year's lessons—John Bourget, second.

LONDON WEEKLY PAPER PRINTS WEIRD STORY ON LAKE TEMISKAMING

A story in a London weekly paper known as Tit-Bits with a Jan. 15, 1955 date line and under the headline "Unknown Terror of World's Most Mysterious

Lake", was without a doubt the most fantastic story ever written about Lake Temiskaming.

According to the story, untold riches lie at the bottom of Lake Temiskaming, some of it the loot of a daring robbery of a consignment of gold from Kirkland Lake. The thieves headed across the thin ice of the lake only to perish in its icy waters with £12,000 in gold.

Another tragic episode in the lake's history was the disappearance of a boat with 65 persons aboard to say nothing of the cargo of gold valued at about £75,000.

These are only two of the many stories of our "mysterious lake" as written in this weekly paper.

All efforts to salvage any of this fortune in gold and silver have failed because of some un-

known force which divers say "dragged them down."

The story ends with these words "the unknown terror of the world's most mysterious lake guards its treasures forever."

It is hard to imagine why any publication would publish such a story and it is impossible to find any truth in it whatsoever.

I STAND on my RECORD

and the record of the Progressive Conservative Government

BOB HERBERT

HERE ARE JUST A FEW OF THE HIGHLIGHTS OF WHAT THE GOVERNMENT HAS DONE FOR YOUR COMMUNITY AND YOUR DISTRICT SINCE 1951. ASK YOUR COUNCILLOR, REEVE OR MAYOR FOR THE RECORD.

TEMAGAMI — Representations were made to the government and ONR for the establishment of the new townsite — lots are now being sold. A coroner has been appointed for Temagami, who is a resident of Cobalt and much closer to the scene. The government brought hydro to Temagami. Assisted in improving the streets and lanes. Improved the department of lands and forests building. Paved Highway 11 through the town. Plans are being made for an ONR dial telephone system. Department of travel and publicity has done much to encourage the tourist trade.

LATCHFORD — Assisted the local hydro-electric commission with a substantial sum. Ensured the future of the lumbering industry by a tight control over lumber cutting and placing the area under skilled forest management.

COBALT — Financial assistance to this community that has special problems. Special grants totalling \$10,000 over and above the regular grants made in the past two years. This year a special grant of \$1,600 for removing snow on Highway 11 in the town. A grant of \$10,000 towards the improvement of the Community Center. Assistance to the Separate School Board. Special grant of \$35 per capita for each miner in the community. This has also assisted Coleman, Bucke and Haileybury.

NORTH COBALT & BUCKE — In addition to the special grant of \$35 per miner paid unconditionally for the past two years, also obtained \$1,500 from the hydro-electric commission for transmission lines crossing the township. I am working closely with the present council to get water in North Cobalt. I believe that North Cobalt will get piped water within the foreseeable future if the present cooperation continues.

HAILEYBURY — A new \$50,000 addition to the school of mines has been approved and plans are being drawn by an architect. A new house is to be built for the jail governor. Three of a total of eight new homes for the provincial police have been constructed. The government is now paying taxes on provincial buildings, and thus contributing towards the town's revenue. Additions to the hospital have been encouraged and assisted with government grants.

NEW LISKEARD — As a result of special representations, the government made a grant of \$75,000 over and above the usual grants towards the cost of the new hospital, and then made an additional grant of \$50,000 to complete payments. A new auditorium for farmers has been approved and will be constructed at the demonstration farm. A \$10,000 grant made to the Community Center and Arena.

BELLE VALLEE — Development road from Belle Vallee to Highway 11, built at a cost of \$50,000, borne by the province. Assistance now being rendered toward a new separate school.

DYMOND TOWNSHIP — The province paid approximately 9 per cent of the cost of the new separate school.

BRETHOUR TOWNSHIP — A new \$50,000 development road connecting the township with Highway 11. A new public school completed with provincial assistance. New steel bridge across Wabi River — 100 per cent paid for by the province.

TOMSTOWN — Development road grants totalling \$3,000.

HARLEY AND CASEY — Government has started major drainage scheme to open up acres of black muck for farming.

EARLTON — New separate school largely financed by the province. Increased assistance on roads. Now planning for the paving of secondary roads into the town.

THORNLOE — New separate school largely financed by the government.

UNO PARK — New separate school.

ENGLEHART — Work started on the connecting road from Englehart to Larder Lake. New tree nursery located at Englehart. Major assistance to the new Englehart high school and the community center.

CHARLTON — Road to Englehart greatly improved and to be paved this year. Charlton to Elk Lake road improved with further work planned.

KERNS — Development road contract placed. A new bridge to be built across the Wabi.

ELK LAKE — The road from the station to the town to be paved. Major improvements to Highway 65 with paving planned for this year.

MATACHEWAN — Mining access road to Kenogami, now taken over and maintained by the department of highways with further improvements planned. The old floating bridge across the Montreal river north of Matatchewan has been replaced with a new steel structure.

AGRICULTURAL DEVELOPMENT — More than \$125,000 has been loaned by the Junior Farm Loan Corporation to establish young farmers in the district.

UNDER A PROGRESSIVE CONSERVATIVE GOVERNMENT, ONTARIO HAS BECOME CANADA'S MOST RAPIDLY GROWING PROVINCE. KEEP IT THAT WAY. KEEP TEMISKAMING IN THE GOVERNMENT.

HERBERT X
