

SPORTS PARADE

Monday nite the ball season again rolled along after the holiday weekend lay-off. Steelworkers took a decisive 11-7 victory from the Ideal Dairy, Ted Bates won his fifth game of the year in relief, Bob Kirkwood started the game. Ed Huard making his first start as a pitcher was the loser, he was relieved in the 2nd by Lee Huff.

The Dairy were without their heavy hitting centre fielder Dud Huff, which did not help their situation although errors plagued both teams.

Jim Nadeau and Reg. Scully each contributed 2 hits for the steelworkers. Ed Huard had his best night with the bat to date with 3 for 4.

Steelwork. 0421202 11 6 9
Dairy 0500020 7 9 9
Umpires—W. Grozelle, R. Sauve

On Tuesday a postponed game was held between Town and O'Brien with O'Brien taking its worst beating to date, 14-3.

The game looked like a runaway in the first inning as the town collected 11 runs on nine hits.

Bill Grozelle again led the town in the hitting department with a triple and 3 singles. A triple by Lawrence Othmer, and doubles by Johnny Caufield and Guy Wilson, and a single by W. Fairburn were the only hits given up by Doug. Hargrave and Sheldon Dobbs who shared pitching duties. Johnny Caufield took the loss.

Town 11300000 14 3
O'Brien 0000300 3 10
Umpires—J. McAndrews, and E. Puhakka.

The following is the team

Sponsored by the Recreation Co. are kept busy amusing their story to some of the many child

standings in this tight race with only 4 points separating first and last.

Steelworkers	5	4	0	10
Town	5	3	0	10
O'Brien	4	3	1	9
N. Cobalt	3	4	1	9
Dairy	3	5	0	6

In the race for the R. A. Morrisette Shield, the top ten follow
Bill Grozelle 542
Ed. Ramsay 480
Dud. Huff 471
Ted Bates 440
Fred Abraham 400
L. Huff 370
Jim Nadeau 364

SCHEDULE OF GAMES

JUNE

Thurs., 30—Town vs. O'Brien

FASTEST TO 5 CONTINENTS AND 65 COMMUNITIES IN CANADA

The Greater the need for High Octane The Greater the need for TCP

Today's engines deliver more power than ever before—and with greater economy, too!

They're high compression engines. They're built to squeeze more power out of every drop of the high octane gasolines they require.

But high octane alone will not keep these engines delivering their full power. They must be protected against the harmful effects of deposits that build up in combustion chambers.

The reason is this:

When your engine warms up, these deposits warm up, too—glow red hot. And these glowing particles act like hot coals—ignite the gasoline mixture ahead of time . . . before the pistons reach proper firing position. This is called pre-firing and means that power works against you instead of for you.

In addition, these same deposits have another

power-wasting effect: They foul spark plugs, causing your engine to miss.

Engineers will tell you there's nothing more wasteful of power and gasoline than pre-firing and spark plug "miss."

But there is an answer—there's one high octane gasoline that gives you all the advantages of high octane without the power-crippling effects of these deposits—Shell Premium Gasoline with TCP*.

TCP, the Shell-developed additive, fire-proofs the deposits so that they no longer cause pre-firing. No longer can they glow red hot and ignite the gasoline mixture. And TCP stops spark plug "miss," too. Your spark plugs do the job they are supposed to do.

Start getting the full power built into your engine. Get Shell Premium with TCP. It's the most powerful gasoline your car can use!

*Shell's trademark for this unique gasoline additive developed by Shell Research. Patent applied for.

Only Shell Premium Gasoline has both TCP and High Octane!
