RED UNION IN COBALT

Mine-Mill Union Enters Cobalt Has Long Pro-Communist Record

A union recognized for years as Communist led and following Communist policies, the Mine-Mill and Smelter Workers has entered the Cobalt mining camp.

The Red union already controls the strategic nickel area at Sudbury, the sulphur plants at Trail, and has been active in the new uranium area at Blind River. It is now entering the Cobalt camp.

The Haileyburian has learned through very reliable sources, that at least 90 per cent of the 40 or more men employed by Cobalt mine in Cobalt have signed Mine-Mill cards, following organization work done by the union during the past three or four weeks.

About three weeks ago, a group of miners were supposed to meet with Mine-Mill leaders at a hotel in Haileybury. Apparently only a few turned up. Mine-Mill organizers have been operating for the past few weeks from a Cobalt hotel, and have held many meetings in private homes.

Activity in the Cobalt camp by the Mine-Mill, follows the establishment of a Canadian Mine-Mill head office at Toronto. This is believed to have been caused by the U.S. government's pressure on all Communist front organizations.

The Mine-Mill was expelled from the American CIO several years ago, for Communist line activities, and later it was expelled from the Canadian Congress of Labor.

Investigations in the U.S.

have shown that Mine-Mill has followed a consistently Communist line. When Hitler signed a pact with Russia, the Mine-Mill immediately denounced the last war as "Imperialist," and attacked President Roosevelt at every opportunity.

However, when Hitler attacked Russia, the Mine-Mill immediately came out in favor of active participation in the war effort.

After the war, the Mine-Mill opposed the Marshall Plan, accused Britain and the United States of an "atom-bomb conspiracy," and opposed the Truman doctrine.

When the CIO investigated the Mine-Mill, it found that the one-time member of the union executive, Kenneth Eckert, had attended the Lenin School in Moscow, and was a member of the U.S. Communist Party.

Nearly every member of the union's top executive was in some way connected with the American Communist Party, and the executive met regularly with top Communist leaders for discussion or instruction.

The Mine-Mill invasion of the Cobalt area has been conducted with a great deal of secrecy, and has avoided all publicity. No public meetings have been announced, and apparently the policy has been to get the union certified at Cobalt before the workers involved could get information on the union's background. However, the Haileyburian has learned that the Mine-Mill plans a meeting at the Canadian Legion Hall in Cobalt for 4.30 p.m. tomorrow.

CANADIAN RED CROSS

The Canadian Red Cross announced today that it will accept donations from former American residents and Canadians who wish to contribute to the current American Red Cross fund drive for flood victims in the afflicted states.

Shortly after news of the extent of the damage and the death toll had been announced the Canadian Red Cross offered emergency assistance to the American Red Cross. This offer of help was gratefully acknowledged by James T. Nicholson, executive vice-president of the American Red Cross. He advised that no assistance of supplies or personnel was required at that time.

In response to many requests from interested citizens, Dr. W. S. Stanbury, national commissioner of the Canadian Red Cross, said today that the Canadian Red Cross would accept donations from persons who wished to express sympathy and provide help for friends and relatives in the stricken areas.

Contributions will be acknowledged for income tax purposes. They should be sent to the Canadian Red Cross Society, 95 Wellesley Street East, Toronto, or to the nearest Red Cross branch; each contribution should be payable to the Canadian Red Cross Society and designated "American Flood Disaster".

Funds donated through the Canadian Red Cross will be forwarded to the American National Red Cross in Washington.

Vice-Chairman Says Hydro Rates Cut

Haileybury hydro users can expect to be paying less for their hydro in the near future. This good news came this week, when W. K. Warrender spoke at North Bay.

Mr. Warrender is vice-chairman of the Ontario Hydro-Electric Commission. He was addressing the Ontario Municipal Association's 57th annual convention.

He said that he did not want to give any exact figures, but the decrease in Northern Ontario Hydro rates should be announced in the near future. The Hydro's northern system stretches from Mattawa to Georgian Bay, and from the Quebec to Manitoba borders.

Ontario Hydro, he said, now has a dependable peak of six million horsepower, an increase of 137 per cent over 1945. However, he warned that soon Ontario would not be able to produce all the electric energy it needs from water power.

MILEAGE 104 FIRE

Clouds of smoke arose above Mileage 104 Tuesday, when an old barn was destroyed by fire. The log barn, property of Tom Allen, was destroyed, together with a quantity of hay in the loft, and stacked at the rear of the building. Cobalt volunteer fire department prevented the blaze from spreading into the nearby bush.

In 1867 some of the names that were considered for the new Dominion of Canada were Laurentia, New Britain, Cabotia, Columbia, Britannica, Boretta, Mesopelagia and Ursalia.

Some of the Douglas fir trees felled on Vancouver Island are more than a thousand years old.

More Pupils At Public School

The Board of Education had to place a hurried order for more desks when noses were counted at Haileybury public school. A total of 255 pupils have registered, compared with 240 last May. A further 10 or 15 registrations are expected, making an increase of some 25 pupils, or a total of about 265.

The kindergarten is filled to capacity, and six entrants had to be turned away. A breakdown of registrations by classes is as follows: Kindergarten, Miss Mary Edwards, 26. Grade 1, Mrs. Iris Knight, 35. Grade 2, Miss Sadie Goddard, 45. Grade 3 combined with part of Grade 4, Mrs. Pelletier, 42. Part of 4 combined with Grade 5, Mrs. Ruby Stevenson, 41. Grade 6 and 7, Mrs. Peggy Hammerstrom, 41. Grade 8, Lorne Wiseman, 25.

HUNGARIAN PARTRIDGE SCARCE

There can be no doubt now that the Hungarian Partridge, so well known in eastern Ontario, is at the bottom of a serious decline and that hunting conditions this fall may not be good, according to N. D. Patrick, of the Rideau district staff, Ontario Department of Lands and Forests. Other officials are not overly surprised because, they say, advance warning signals have been evident for some time.

Close checks in the Rideau district have shown that for several years the number of young birds produced per adult pair has dwindled steadily. In spite of this, however, population remains at a high level apparently because of the unusual survival of old birds during the mild winters of 1952-53 and 1953-54.

A combination of unusually wet spring and summer weather followed by a severe winter with much snow and cold weather and topped off with sleet resulted in very poor reproduction and a subsequent serious loss of adult birds.

"No one can be certain," says Mr. Patrick, "what caused the slump, but the reasoning outlined seems the most logical in the face of present figures and knowledge of the situation. Hunting success was poor last fall and definitely showed that the slump was already under way."

ANGLICAN CHURCH

The Anglican Church's regular monthly meeting to be held in the Parish Hall Tuesday September 13th at 3 p.m.

Mary Whitby Wins Big Award May Study To Teach High School

Mary Whitby, 18 year old daughter of Mr. and Mrs. Max Whitby of Haileybury has been awarded one of Ontario's top educational prizes.

Miss Whitby learned this week that she has won the Maurice Cody memorial scholarship, valued at \$150., and four years tuition at Toronto University, valued at \$1,222. The scholarship was granted for Miss Whitby's outstanding accomplishments in Latin and English.

The scholarship award is based on the results of the last Ontario department of education examinations. Miss Whitby graduated from Grade 13 of Haileybury high school last June.

In her last exams, she secured 70 in English Literature, 84 for English Composition, 81 Latin Authors, 83 for Latin Composition, 78 Trigonometry and Stat-

ics, 70 Physics, 78 French Authors.

Miss Whitby is a product of Haileybury's education system, having worked her way through public and high school. She has two sisters, Sally, in grade seven, and Nancy in fourth grade. A brother, Teddy is in kindergarten.

Miss Whitby was active in high school affairs, and last year was president of the student's council. She is fond of swimming, and teaching dancing. During the summer she has been working in the offices of Temiskaming Construction.

She says that she has not yet made up her mind as to what she wants to do in the future, but expects to use the scholarship to study English languages and literature with a view to majoring in English and Latin, and becoming a high school teacher.

TUD COBALT

Tud Cobalt Mines Limited with two properties located in Destor Township and LaCorne Lithium area, Quebec, are planning a broad program of development when the current preliminary exploration work has been completed. The base metal Destor Township claims comprising 1000 acres in the Duparquet area adjoin the south boundary of the Lyndhurst development. Line cutting, mapping and sampling of showings on the claims is expected to get underway within the next few weeks.

The 800 acres in LaCarne, Fiedmont area, are situated approximately two miles East of the property of Quebec Lithium Corporation and a similar distance West of the base metal find of Kagador Mines.

In accordance with the recommendation made by the company's Consulting Engineer, Geo. H. Dumont, P. Eng., a magnetometer survey is to be undertaken on the claims immediately. The company is capitalized at 4,000,000 shares, \$1.00 par value. The head office is located at Haileybury, Ontario.

WEEK IN COURT

A second offence for impaired driving earned a 14-day jail term for Wilfred David of Englehart in police court here yesterday. His licence was suspended for two years by Magistrate E. W. Kenrick.

A Cobalter, James McCarthy, who pleaded guilty to a charge of vagrancy following a complaint from a janitor early on the morning of Aug. 24, was also sentenced to a 10-day jail term by the magistrate.

"This boy when he works is a good worker," Mr. Inch told the court. "He had already been in jail since Aug. 24 and I am asking that the period he has already served be deducted from his sentence."

The magistrate complied. Rapidly dispensed with following a guilty plea by the accused, was the case of the Crown against Ralph McKenzie of North Temiskaming for intoxication. The cad slapped on a fine of \$10 and \$4.50 costs for the Aug. 27 infringement.

Out of court, intoxication cost a Timmins man, L. McGlashan the same amount, for having liquor. On traffic counts, C. M. Binkley, New Liskeard paid \$1 and \$3 for illegal parking and P. Lasyk also of New Liskeard, \$16 and \$3 for speeding.

In Canadian cities of 4,000 population and over there were 64 murders known to police in 1953, and 51 of the cases were cleared by arrest.

Raiders Take Third Loss "Will Win if Practice"-Coach

Tri-Town Raiders were beaten 14-11 Sunday by Noranda Fantassins. The defeat was the third of the season for the Raiders.

Coach Walt Acroyd said that his boys will have to turn out for practice if the Raiders are to do better. At the present some 10 or 12 of the players are carrying the load, and the balance only show up for the games.

"With practice we can still match anything that is to be found in the league," Coach Acroyd said.

The Raiders dressed 22 men last Sunday, with new recruits including Giddings, Devins, Weiss, and Keon. Poor tackling and

fumbled passes accounted for most of their defeat, although they were outweighed by the very heavy Noranda squad.

Noranda had it all their own way in the first three quarters, but the Raiders started clicking in the last. Chiteroni set up a nice play, Bob Fleming caught the pass and Bob Rouse scored the Raiders' first touchdown.

Then O'Grady smacked over the line for another five points, and Bob Rouse converted. The Raiders were all set to even the score, when the timekeeper called it quits.

FIRST QUARTER
Noranda, McCauley (touchdown) 5
