

Watchout For Wildlife Deer Don't Take Auto Tests

By R. L. Snow
District Forester.

I know we have written on this topic previously but at the risk of being accused of harping on the subject, here it is again. Almost every week, year in and year out, our Conservation Officers discover or are advised of deer and moose being struck on the highway by speeding motorists. Usually the animal suffers death or injuries so extensive they must be put out of their misery, so there goes another prospective trophy for some future hunter. It's a sad thing and, under no circumstances, could it be considered as part of the balance of nature which removes the old, the weak and the infirm from the wild life population of our forests.

Rather, it could be considered a criminal act and rightly so. Negligence in nine out of ten cases is the cause of these killings. People in most instances can see the animal for a considerable distance before reaching it and should slow down. At night the eyes of any animal show sharply in your headlights to serve as ample warning of their presence. They are unpredictable in their actions and have been known to jump right into the front end of a speeding vehicle in an effort to cross a highway ahead of it. Others will stop in the centre of the road and then suddenly reverse their direction for no apparent reason. The results are usually the same, one dead or badly injured animal and one severely damaged front end, headlights, fender, etcetera on the car. Occasionally a car goes out of control following one of these accidents and more serious damage results to both car and occupants.

Hardly worth it to save a few seconds actually but people are still doing it regularly. Why not drive carefully and slow down at any indication of deer or moose being present.

Save our game animals and also your cash or possibly your life. Fires did not enter into the picture last week despite several electric storms which covered the major portion of the district. Fortunately, these storms were accompanied or followed by heavy rain which successfully checked any strikes that otherwise might have spread.

With the close of some of the angling seasons in the offing we would like to add a word of caution to the fall anglers. Remember, forest fires destroy other things besides timber. They destroy both the quality and quantity of the water supply. They do this by removing shade and by destroying the "spongy" humus on the forest floor that retards water run-off and controls soil erosion. When forests are gone, temperatures go up, the water muddies, floods and droughts follow in quick succession, and your fishing and mine is destroyed. Water may not burn, but forest fires can sure destroy it!

Here is a smart little item that might well be incorporated into the safety driving rules; quote, "The man who can drive safely while kissing a girl, isn't giving proper attention to the kiss." Unquote.

WEDDING BELLS

MORRIS—MORISSETTE

The marriage took place Saturday, of Pauline Helen, daughter of Mr. and Mrs. Napoleon Morissette to George Richard Morris, with Rev. Father Brunette officiating.

The bride was given in marriage by her father and she wore a waltz length Chantilly lace dress with shoulder length, tulle veil and Juliette cap. She carried a nosegay of white carnations and was attended by Mary Ellen Lannan of Toronto, who wore a pink waltz length gown and pink hat and carried a nosegay of pink carnations. The best man was Gabriel Morris, brother of the groom.

A reception was held at the Golf Club where two hundred guests assembled. Later, the bride and groom left for Bermuda and on their return will reside in Montreal.

HAYWARD—BLAKE

An out-of-town wedding of local interest was the marriage on Saturday, September 3rd, of Miss Elizabeth Anne Blake, daughter of Mr. and Mrs. W. S. Blake, of Clarkson, Ont. to Mr. Gordon Stuart Farr Hayward, son of Mr. R. Hayward of Trail and of Mrs. Arthur Moss, of Cobalt, in Clarkson United Church. Rev. Simon Edwards and Rev. R. E. Oliver conducted the service and Mr. Robert Blake, brother of the bride, was soloist. The church was decorated throughout with yellow and

white gladiolas.

Given in marriage by her father, the bride wore rose patterned Chantilly lace and tulle over white satin with heirloom lace fingertip veil falling from a matching shell cap and carried a cascade of blue chrysanthemums accented with forget-me-nots.

Sister of the bride, Miss Heather Blake, was maid of honor and Miss Bonnie Turner, Miss Betty Ann Bagshaw, of Haileybury and Miss Anna Lou Little, of Kirkland Lake were bridesmaids. Cousin of the bride, Miss Patricia Campbell, was flower girl. All the attendants wore bouffant waltz-length gowns in soft forget-me-not blue, dotted silk organdy and matching hats. The maid of honor and flower girl carried lemon cascade bouquets and the bridesmaids like arrangements in white.

Mr. Stuart R. Hayward, brother of the groom, was best man and the ushers were Mr. W. C. Blake and Mr. D. P. Robert Blake, brothers of the bride and Mr. Stuart Little, cousin of the groom.

A reception followed at the home of the bride's parents, in Clarkson. Among Northern guests were Mr. and Mrs. Arthur Little, of Kirkland Lake, Mr. William Bagshaw, Jr. of Haileybury, Miss Evelyn Pipe of Haileybury, Mr. R. Ward, of Cobalt, the Misses Ruth and Georgina Berry, Major and Mrs. R. Simpson, Miss Francesca Moss and Mr. William Starr.

The bride is a recent graduate of the Sick Children's Hospital, in Toronto. Mr. Hayward is the grandson of the late Mr. and Mrs. Stuart Blackwell, of Haileybury, and a great-grandson of C. C. Farr. A graduate of Queen's University, he is presently on the staff of the Imperial Oil Co. at Dartmouth, N.S. After a trip through New England, Mr. and Mrs. Hayward will take up residence at 87 Pleasant St., Dartmouth, N.S.

MAY BORROW HAILEYBURY COBALT HAS 5 DAY WEEK METER

Cobalt council is looking for a water meter for a four inch line. The council wants to measure the amount of water being supplied to Coleman township. But a meter costs more than \$500. and Cobalt town fathers decided to ask Haileybury if there is a spare meter that could be borrowed for a couple of months before they purchase a new one.

At its meeting Tuesday night, Cobalt council agreed that in future the town office will be open only five days a week. The office closed Saturday mornings during the summer months, and the council agreed that the practice should be continued. Haileybury town office has been closed during August, but there has been no decision to stay closed Saturdays through the winter.
