

THE HAILEYBURIAN

Fire Prevention Week October 9--15

HAILEYBURY - AFTER THE 1922 FIRE

Fire Dept. Makes Big Effort Will Inspect Public Buildings

Well established as one of Northern Ontario's most efficient fire brigades, the volunteers of Haileybury's fire department are making an all-out effort to make Fire Prevention Week a success.

The firemen, from Chief Ken Watson down, believe that a fire-free year is possible if every citizen co-operates during Fire Prevention Week, and during the rest of the year.

Haileybury citizens received one reminder of their duties when they received their water bills. A pamphlet on fire prevention was tucked in with their bill.

The programme for fire prevention week includes a demonstration of fire fighting, that will probably be held at the water front Wednesday evening. An inspection of all public buildings will be carried out during the week starting Monday.

A number of films on fire prevention will be shown at the schools, and tours of the fire hall will be staged for the students, with coloring books on fire prevention and home inspection blanks to be handed out

to the younger children. Fire Chief Watson is appealing to all householders to inspect and clean their chimneys at least once a year. To keep heating systems clean, and replace worn parts. He states that electrical equipment should be repaired by a qualified electrician, and that overloading of wiring should be avoided.

The fire chief urges all citizens to be careful with cigarettes, to use fire resistant roofing to guard against sparks from chimneys. He wants everyone to clean out their basements and attics, and be particularly careful with flammable liquids inside the house.

Members of the fire department are—Chief K. R. Watson; Assistant Chief W. S. Bradley; Captains James S. Blair, William Fleming and Harold Sadler. Secretary Ernest St. Louis; Chairman of volunteers, William Hughes. Volunteers—Cecil Beland, Orville Hughes, Elmer Campbell, Oliver McQuaig, John Hallworth, W. Lemay, Frank Plaunt, Walter Stevens, Bill Allen, Ivan Sadler, Norman Abraham, T. Lovewell, Dick Holman. J. Gauvreau is the full-time director.

Subury Hardrocks Beat Raiders 39-0

Tri-Town Raiders took their worse beating of the season last Sunday. The Raiders were beaten 39 to nothing by the Sudbury Hardrocks.

Coach Walter Ackroyd said that he was disgusted by his boys' performance. Except for a handful, most of the Raiders showed their lack of practice.

Other results in the NORFU schedule over the weekend were Kirkland beat Sturgeon 21 to six; Noranda defeated North Bay six to nothing.

THREE INJURED

Three persons were taken to Englehart Red Cross hospital following a car accident at Earlington late Monday night.

A car, driven by Leon D. Saba of Kirkland Lake failed to make a right hand turn on highway 11 at Earlington as it was proceeding north. It crashed into a ditch, smashed through a telephone pole and skidded in a garage yard.

Three passengers were taken to hospital. They were, Ron Carisse, 25, of Kirkland Lake, Mrs. Robert Neal, 21, of Montreal, and Joan Louise Johanneson, 22, of Winnipeg. None of them is in serious condition.

CLOSED MONDAY

The Haileyburian offices will be closed Monday due to the Thanksgiving holiday.

WEEK IN COURT

Magistrate E. W. Kenrick cracked down on impaired drivers recently handing out fines of \$100 and costs in several cases.

Fred Patterson of Matheson pleaded guilty to driving while impaired. Provincial police in Englehart caught him while he was trying to park his truck outside an Englehart hotel. He was fined \$100 or three months and his license was suspended for three months.

Sam Cozac of Charlton pleaded innocent but the magistrate didn't agree. He was fined \$50 and costs of \$63.40 or three months and his license was suspended for six months. The high costs were because the Crown had called on Dr. Jocelyn Rogers of the attorney general's department but the train was late and Dr. Rogers couldn't testify.

John Keith of Englehart was caught with a sawed-off rifle and driving a car with illegal plates. He was remanded a week for sentence. Urgel Brazeau of Earlington pleaded guilty to careless driving. He was fined \$35 and costs.

Joseph Ernest Boileau of New Liskeard pleaded guilty to breaking into his stepmother's home in New Liskeard and stealing articles worth more than \$250. He was remanded for sentence.

Children's Aid Appeal for Funds From October 17th to 31st

The Annual Appeal for funds of the Children's Aid Society will be held from Oct. 17-31, it was announced at a meeting of board members from the southern part of the District. Quota for Haileybury will again be \$1,500.

Heading the local campaign committee are Alex Wilson and Miss M. Labine, both members of the Board of Directors of the Society. They will be assisted by a corps of volunteers who will conduct a door-to-door canvass of residential and business section of town. Persons not reached by volunteer canvassers will be urged to forward donations to the Children's Aid Society, Court House, Haileybury. Funds raised in the Annual Appeal in the Southern area and the Community Chest campaign in Kirkland Lake amount to about \$15,000. When compared with the Society's total budget of over \$100,000, this amount seems small, perhaps even insignificant. But when viewed in terms of the services provided, voluntary contributions are an extremely important part of the Children's Aid Society's financial structure.

Family service work—designed to strengthen family life and improve home conditions for children—is provided from campaign contributions. The results of this program can never be measured in dollars and cents but there is little doubt that a good community needs secure, stable homes for its children.

Adoption services which bring together homeless children and childless couples are also provided by campaign funds. So are counselling services for unmarried mothers and the help they need in planning for confinement and after-care.

THE DANGEROUS MONTH

Over the years, October has developed as the most dangerous traffic month of the year. Last year, while leading the other months in the number of fatal accidents and the number of fatally injured, the month was third after January and December in the total number of motor vehicle accidents. It was seventh highest for motor vehicle travel.

Two principal reasons are offered for the high hazard during the month: the re-introduction of standard time, which brings sundown and dusk during the evening "rush hour" traffic, and less favourable weather conditions.

Increased alertness, attention and a realization that driving and walking conditions become rapidly less favorable, are the experts advice in the circumstances, for those who wish to avoid accidents.

NO MEETING MONDAY

The council meeting scheduled for Monday evening has been postponed due to the Thanksgiving holiday.

C. W. L. MONTHLY MEETING

The regular monthly meeting of the CWL was held in the parish hall, Tuesday at 8.00 p.m., the president in the chair. Twelve members answered the roll call. Convenors of different booths for our coming bazaar Oct. 28-29th brought in their reports and all are working hard to make it a success. Convenors are as follows: Fancy work table—Mrs. Donegan; Woollen counter—Mrs. Regimbal; Novelty counter—Mrs. Lamothe; Candy counter—Mrs. Beatty; Produce table—Mrs. Bourget; Fish pond—Mrs. Fleury; Lunch counter—Mrs. Cassidy.

It was also decided that afternoon tea be served on Friday and Saturday.

Anyone having articles or donations for any of these counters, kindly send them early as possible. Looking forward to seeing you at our bazaar.

INSATIABLE ENEMY

In its fight to solve the heart-breaking problem of motor vehicle accidents involving children, the National Safety Council insists that "this destruction of our children can be stopped—and by so little."

All it takes to defeat this "insatiable enemy... is a pause, a little patience, another look... but above all, awareness and caution. And these things can be taught, like the Three R's, by constant training—by repeating the same reasons over and over again until they are deeply grooved in our minds and 'sound off' when danger is near."

SAFETY CONGRESS

The 43rd National Safety Congress opens in Chicago on October 17th and continues through the 21st.
