

Canadian Legion News BY BOB FLEMING

We, of the men's branch of the Legion had our joint executive meeting with the Ladies executive of the Auxiliary.

The business discussed was the control of the hall. For the past year and more the Ladies have handled it all themselves and carried all the finance for its up-keep.

Last night it was agreed that the Ladies continue their running of the hall, but they are to receive financial assistance from the men until the early part of the new year. When, at that time, another meeting will be held, and the men are to consider taking it over themselves again. With financial assistance from the ladies, of course.

At the present time the men can help financially but are not able to take it over. We have offered help for a period of time until we are in a better state ourselves, which we hope will be in the very near future.

One big reason that we can not handle the hall situation completely is the lack of members, and activity, in the branch.

At our last meeting things appeared to take a big step forward. We hope we can continue to take more steps in the right direction with more new members, and new ideas such as developed from our last meeting. If you are a veteran, or even a Legion member that has not been coming out, we will be very glad to have you with us. We need you, and you will find a great deal of self-satisfaction in being an active Legion member yourself. I can truthfully say that you could not be a part of a better organization.

I have been very lax in getting things rolling for our poppy campaign but I intend to get going immediately. Give poppy day a lot of thought and also your most needed financial support.
