

**WEEK IN COURT**

A 16-year-old New Liskeard youth, Russell Pannell was sentenced to 60 days in jail plus a one-year suspended sentence on two charges of theft and a charge of assault. Magistrate Kenrick made the decision despite pleas from defence counsel W. C. Inch. Pannell, with three other young men appeared before the magistrate October 7 and were remanded until Friday for sentence.

Pannell received a one-year suspended sentence on a charge of assault plus 60 days in jail on a charge of theft of tires and 30 days in jail to run concurrent on a charge of theft of chickens. Mr. Inch pleaded with the magistrate to consider his decision. Pannell was on probation and a report from the probation officer indicated that his conduct was unsatisfactory. "I had considered a penitentiary term," Magistrate Kenrick answered Mr. Inch.

Three other men, William Broderick, Floyd Millin and B. Leverre were given a one-year suspended sentence. All defendants were given a curfew of 11 o'clock nightly to abide by.

Leo Rinfret, 21, of Timmins, still limping and bandaged three months after an accident in which his car killed two Tri-Town youngsters returning from a dance in Temagami early on the morning of July 16, was fined following a plea of guilty to a charge of careless driving.

The magistrate fined Rinfret \$250 with \$147.50 costs and suspended his licence for a year. The court has given the accused 14 days to pay after an urgent plea from G. Evans, defence

counsel from Timmins, to save the man from a three-month jail term.

Const. Ralph Berry of the Haileybury OPP detachment who investigated the crash, testified that at about 2.30 a.m. on a rainy morning Rinfret passed a truck with a burst of speed to smash head-on into a car driven by Leo Lemoine of Cobalt in which Ruth Fauvelle of New Liskeard was a passenger.

Lemoine and his friend were killed and Rinfret himself confined to a seven-week hospital stay as a result of multiple injuries.

Const. Berry stated that prior to the accident 11 miles north of Temagami, Rinfret had tanked up with gasoline in Latchford and had run off the road into the ditch between that town and the scene of the accident necessitating the services of a tow truck. He said there were no skid marks from the Rinfret car.

"The accused was on his way to Windsor to pick up gifts for a shower for his intended bride at the time," G. Evans of Timmins defence counsellor told court. He did not dispute evidence of two previous convictions for careless driving on Nov. 12, 1952 and March 27, 1950 which police produced. These offences earned Rinfret small fines.

"He won't be able to work for some time yet," Mr. Evans added suggesting a suspended sentence. Rinfret, he said, had been planning to get married shortly after the accident date.

"He had trouble in the ditch which should have been a warning," Mr. Walter countered. "He passed the truck on a solid line."

"I suggested to the constable

that the possible explanation is that the man could have been drowsy," he added. "It's hard to figure what mental factors caused him to do so as this is not a case involving liquor."

"Circumstances of this charge are tragic," the magistrate stated. "No sentence can bring the two young lives back. It is a question of careless driving and while two people were killed I am inclined to agree with the Crown." "....He was probably drowsy or else something was probably wrong with his reactions."

A charge of criminal negligence, also laid against Rinfret, was withdrawn by the Crown.

A Hollywood, California driver, William Poole, and his part-Japanese friend appeared in court. Poole was charged with being in possession of a stolen car and being found in a stolen car.

Miss Jeanne Chin, a pretty, part-Japanese girl from Edmonton was charged with being found in a stolen car. The three charges were dismissed by Magistrate E. W. Kenrick.

Constable Ralph Berry testified that he and Cpl. Bruce Pratt were patrolling Highway 11 south of Cobalt when they came upon a parked car on the side of the highway. Police were unable to stop at the time so went further down the highway and returned later. They found the car, bearing an Alberta licence plate, on an old-bush road.

When the police came up beside the vehicle, Poole was standing at the side of the car and Miss Chin was in the back seat. Constable Berry remarked

there were keys in the ignition switch but would not start the car. Further investigation revealed that the car was started by crossing wires.

Poole told police he was an airplane pilot and was loaned to an Edmonton company. He had got the car from another pilot who had rented the vehicle. Poole had no driver's licence. Edmonton police reported the car stolen. The case was dismissed when they appeared before Magistrate Kenrick Friday morning.

Morris Dagenais, F. Deforge and Gerald Towell were charged with breaking and entering and theft of the Cobalt Community Centre. Rowell was sentenced to one day in jail, as he was completing a previous suspended sentence.

A 19-year-old New Liskeard youth, John Lance, was fined \$75, plus \$14.50 costs or three months in jail and a one-year suspension on his driver's licence when he appeared in court here Friday. He was charged with driving while his ability was impaired. Constable Ted Dunnett of New Liskeard reported that on October 5 he met a car driven by Lance going east on Lake Shore Road. The police constable said he had to turn his car up on the curb to avoid hitting the oncoming vehicle.

An Englehart man, William Massales, had his driver's licence suspended for 30 months as a result of an impaired driving charge. He was also fined \$50 plus \$14.50 costs or three months in jail. Massales, who is hard of hearing, apparently crowded a police cruiser off the road October 9.

**CONFEDERATION LIFE**

Confederation Life Association has announced a general increase in dividends for 1956 paralleling the increase effective January 1, 1955.

The improved scales of dividends apply at most ages and durations on the Association's regular Life and Endowment plans. The increase, on the average, is approximately 10%.

In addition the Association has announced a liberalization of the basis for converting cash dividends to paid-up additions. The interest rate credited to dividends on deposit has been increased to 4%.

MAYBE BEST LEFT ALONE—It looks as if man is finally going to be able to achieve one of his oldest and wildest aims—and do something about the weather. American scientists at Geneva

say that the atom-smashers are within hailing distance of the miracles attempted by medicine men.

Unless we make equally great strides in our politics and diplomacy, advises The Financial Post, the scientists might as well be playing marbles. We have a hard enough time reaching any agreement on the controversial questions that confront us now; just think how long we could wrangle about how many inches of rain or hours of sunshine were needed in a given area.

**HOW MUCH HYDRO DOES ONE CENT BUY?**

Based on the average cost of electricity to domestic customers in Hydro municipalities—

**ONE CENT WILL...**

- run a washing machine for 2½ hours
- provide TV entertainment for 4½ hours
- provide refrigeration for 20 hours
- operate an electric clock for 431 hours
- light a 100-watt lamp for 8½ hours

All that for just 5 cents! Where else will your nickel do so much?
