"\$15,000 By May 31st Or No Ice" ---- Doran

Children Setting Grass Fires Parents To Be Held Responsible

If there are any more unauthorized grass fires, Chief Ken Watson is prepared to take drastic action. He said that last Tuesday was the worst in 12 years for the most calls within the shortest time.

At 5:01 p.m. Tuesday the firemen were called to a grass fire close to the Albert Gospel hall. Investigations showed that it was started by children playing with matches.

The firemen were still fighting this call, when the second truck was sent out to Browning street west of the ONR tracks, to light another grass fire.

The firemen had just returned to the fire hall and had refilled

the tanks, when they were called to a grass fire at the corner of Marcella and Meridian streets.

Then at 5:40 p.m. they were called again to vacant property west of Korke avenue, where a grass fire had been started by children.

On Monday, the fire department was called to a chimney fire at J. H. Regimbal's residence on Niven street, to deal with a hot stove pipe.

The fire chief said that the parents of children who set fires can be held responsible, and if there are any more unauthorized grass fires he will lay charges.

ICE FUND

The Cobalt-Haileybury Curling Club has until May 31, to raise \$15,000, and if it doesn't get it local curlers can forget about artificial ice.

Club treasurer Hubert Doran said this today, and stated that so far only \$5,000 of the \$20,000 needed has been raised.

The members of the finance committee are working day and night, but the ordinary members have to pitch in," Mr. Doran said.

The Club treasurer said that a contract for the ice plant has to be signed by the end of this month, and the money has to be in by then.

Over 3,000,000 horsepower is being produced in Canada by General Motors Diesel engines.

FISH AND GAME MEET

Boundaries of the Temiskaming Fish and Game Protective association were set Tuesday night at a meeting in the home of president Jack Dunlop.

The boundaries are on the north, at the Swastika-North Bay forest fire line, which is just south of New Liskeard.

The southern boundary will be the Temiskaming-Nipissing district line, which is about 9 miles south of Latchford. The area will extend to the west to the North Bay forest fire line, just west of Lady Evelyn Lake.

One of the main tasks of the meeting was setting up committees to carry on what the executive plans as an aggressive campaign. Membership will be headed by Bill Grozelle, lake surveys by Allan Green, and prizes by Bill Bilodeau.

Neil McAulay Heads Curlers Drive For Funds Continues

The Annual meeting of the Men's Section of the Curling Club was held on Monday evening April 30th. in the Club Room with over forty members present. Harry Ramey the President was in the chair.

After the reports of the various officers and committees the main discussion was ways and means of trying to get Artificial Ice for the Club this year. Prices were submitted and details explained but the money for same is still lacking so an earnest appeal is put forth for everyone who possibly can to get behind the project and help finance it.

It is not only for the benefit of the curlers but it will be an asset to the town once it is installed.

An interesting part of the evening was a movie shown of the 1955 Briar which was held in Saskatoon.

The following officers were elected for the coming year. President, Neil McAulay Vice-president, Gordon Stevens Secretary-Treasurer, Hubert Doran Directors — Lorne Umphries, Harry, Ramey, Jack Dunlop Al. Hurst, Bill Fleming, Clayton Dunn and George Morissette.

Wilfred Bailey was appointed auditor.

ICE CONTEST

"Hope springs eternal in the human breast," but weather conditions have dashed the hopes of over half of those who sent in guesses on the date of open water on Lake Temiskaming.

Fifty nine guesses were received at this office with the earliest date recorded being April 24, just one lone guess with the same number for April 25 and 26.

Five people favoured the 28th, and seven were sure it would be all gone by the 29th, and five said the 30th.

One guess came for May 1st, and May 2nd, and four were for May 3rd. Three decided on May 4th, and four more said May 5th. May 6th, had three guesses, May 7th, six, and three again for May 8th.

The 9th, had two guesses, the 10th, four, 11th, one 12th, two, 14th, one 15th, three and the 16, one.

And there you are ladies and gentlemen, and may the best guesser win!

Since New Departure Division of General Motors Corporation originated the self-sealed, lubricated-for-life ball bearings for automotive and industrial applications, more than 300,000,000 have been put into service.

TOWN EMPLOYEES IN PENSION PLAN

Twelve Cobalt town employees, will be able July 1, to participate in the first pension plan ever to be opened to them.

At a special meeting last night Henri Gareau, representative for the National Union of Public Service Employees, Local 27, presented the workers demand which met with municipal approval.

The town passed a motion in which it agreed to contribute an amount of money corresponding to that which the worker puts into the fund, with minimum and maximum set at \$1, and \$5 a month.

Mr. Gareau's request, however that the agreement be made retroactive to Jan. 1, 1956, didn't meet with the approval of council.

Workers will be free to decide on the amount they contribute to the plan, but will have to stick to the amount for a year at least. They must contract for the amount of the contribution 12 months in advance, during the month of January each year.

If the employee leaves the employ of the town at any time he is entitled to all money put into the fund for him.

More than one-third of the total number of General Motors passenger cars bought by Canadians in 1955 were finished in two-tone styling.

Mrs. J. Muir Noranda Elected President W. M. S. Presbyterial

With receipts of over \$4,025 last year Temiskaming Presbyterial of the Woman's Missionary Society of the United Church of Canada exceeded its allocation by \$800. This report was presented during the annual meeting held recently in Cobalt United Church. The extra amount was voted to the Indore Girl's Christian College, India and to the "Cars for Canada" fund. An allocation of \$3,310 for this year was accepted by the meeting. Temiskaming Presbyterial now has 11 auxiliaries, 5 federations, 8 affiliated societies and 1 mission circle.

The President, Mrs. O. T. Orr conducted all sessions. The afternoon session opened with a worship service led by Mrs. T. J. Duncan, followed by Communion with the pastor, Rev. George Brown presiding. The Explorers, led by Mrs. Cameron conducted the evening worship service. Mrs. George Brown presided at the organ and accompanied Mrs. Svaekers in a vocal solo.

Mrs. J. Muir, Noranda was elected President for the coming year. Other officers are as follows: Mrs. J. Flick and Mrs. Bradford as central and eastern vice-presidents; Mrs. R. J. Mc Clanahan, recording secretary; Mrs. R. D. H. Hignmore, corresponding secretary; Mrs. Chas. Reid, treasurer.

Portfolio secretaries include Mrs. H. C. Pickard, christian stewardship; Mrs. S. E. Jeffery mission circles; Mrs. A. Sjoln, affiliated CGIT groups; Mrs. C. Kingyens, mission circles; Mrs. G. Brown affiliated explorers; Mrs. J. F. MacAskill, baby bands Mrs. N. J. Sullivan, associate members; Mrs. L. Fielder, supply; Mrs. R. Hrushowy, community friendship; Mrs. R. T. Bowman, literature; Mrs. S. Mac Donald, missionary monthly and world friends; Mrs. C. R. Plaskett, christian citizenship; Mrs. M. F. Cook, press.

Candidates without portfolio

Coat Button Stew

The question of what to serve for meals often bothers the busy housewife but any wife who could go with her husband away up north, on the "Dew" line, could if necessary, whip up a "coat button stew," using the buttons off her husbands parka at a moments notice.

Graham Hennessy whose work takes him to the frozen north, where he says the temperatures are really something, has a parka, such as the airforce issues, which has just about everything one could want including lambswool and down lining, special wired front "frill" to keep the wind off the face, and to top it all, the large buttons can, if the wearer is lost in the bush without food, be removed and made into soup.

Mr. Hennessy says he has never tried it but a chap he knows did, and his reaction to it's taste was not favourable.

Mr. Hennessy has some interesting tales to tell of the north and some excellent color pictures of scenery and a baby polar bear which they caught and presented to the Zoo at Fort William.

He also had pictures of some very attractive Indian children who attend the Catholic Mission school at Weeniesk River.

From one million gallons of water available per day, the Frigidaire plant at Scarborough now uses approximately 700,000 gallons per day.
