A Progress Report

To Our Future Viewers

We Will Be Transmitting By September!!

We at Northern Radio Incorporated are proud and pleased to report to the people of this area on the very real progress that we are making in setting up our new television stations. As a result of the great deal of support we received from many people in this area, we are confident that we can look forward with optimism to a happy future of providing you with the best possible television entertainment.

television grows greater, it may well be possible to operate two stations, one for the large French population in the area, and another for the large English speaking population. It is with this in view that we have ordered the finest equipment possible, and we are planning our entire organization in the belief that we will grow with the North. We have ordered the finest 50,000 watt equipment, but this is of a type which can be expanded to give an output of 100,000 watts if required. Although Noranda is in a 25 cycle area, we have made special arrangements to receive 60 cycle

power which provide a much clearer picture than can be transmitted with 25 cycle equipment. We plan to be in full operation in September, and we believe that we can perform a real service to the English and French speaking people of this district. Arrangements will be made to provide local news and entertainment coverage, for Northern Radio is dedicated to the premise that Northern Ontario and Northwestern Quebec have much in common, and the prosperity of one region is necessary for the prosperity of all the region. An examination of the above

map, which is based on the reports of the best technical advice, shows that areas in the good coverage circle (91 mile radius) include Haileybury, Cobalt, Ville Marie, Norembege, Devonshire, Connaught, Matachewan, Gowganda, Temagami, Latchford, Louvicourt, Senneterre, Despinassy. Perfect coverage includes areas in the 61 mile circle, which includes Kirkland Lake, New Liskeard, Swastika, Wavell, Rouyn-Noranda, Val d'Or, La Sarre, Engehart, Earleton, Kearns Virginiatown and Duparquet. We look forward to your seeing our TV in September.
