The nurse is saving regularly for a vacation trip

The father is saving for the things a growing child will need

Both have a bank account - and a purpose for saving

Nurse and father both agree that some things are too important to leave to chance. So, like most Canadians, each uses a chartered bank for planned saving, making regular deposits to accomplish a definite purpose.

Your own savings plan may be a short-term, modest one — maybe a vacation trip, or new drapes for the living room. Or your goal may be long-range, like providing more security, greater comfort and independence for you and your family.

But whatever use you find for the money you save, you'll always be glad you saved it!

Save at a bank — millions do!
