FOSTER CONFIDENT

Foster Rice is confident of victory. Arnold Peters is sure that he's going to repeat his miracle performance of last June. The Liberals are certain that they will win, providing they can find a candidate.

That's the situation in Temiskaming today. Foster's fit, Arnold's happy, and the Grits don't seem quite sure what they are up to.

According to P. J. Burns of Kirkland Lake, the Liberals haven't made a deal with the Tories to wipe out Peters. According to Arnold Peters, he wouldn't be surprised if they did. Mr. Burns has stated that there will be a Liberal candidate but no one knows who he will be.

Mr. Rice states that never before have the Tories been so well organized. He's certain that if all the Tory supporters get out and work, the riding will be won for Diefenbaker.

Fluoridation Favored

The Temiskaming Health Unit is in favor of fluoridation of water as a measure to prevent tooth decay has probably been debated more than any proposed health measure in recent years.

A brief explaining fluoridation was issued in 1951 to district municipalities.

While at least two towns favored fluoridation, none of the communities were prepared, at that time, to undertake the cost of the service.

Today about one million Canadians are reaping the benefits of fluoridated water supplies in 24 communities. Many thousands more people have been drinking naturally fluoridated water all their lives.

When the Temiskaming Health Unit tested water supplies in the district six years ago, a small amount of flourine was found in only one of the specimens examined, that from New Liskeard.
