

Across the Kitchen Table

By Mrs. Mac.

I am always pleased to have people drop into the of ice and start chatting about the early days in Temiskaming, because as I grow older, the picture in my mind's eye of those days becomes clearer and clearer so it is a nice to talk to someone who remembers them with the same pleasure that I do.

Last week Herbert Poppleton of Timmins, a former Haileyburian came in and chatted about C. C. Farr, one of his personal friends, who named his boat the "finny M" after his donkey. "He was a grand man," says Mr. Poppleton, "the father not only of Haileybury, but of the whole North." I also learned that Mr. Poppleton's wife, formerly Miss Maggie Sullivan, came from Ash ton, within a few miles of where I lived as a child.

Visiting last Sunday in Cobalt with Peter McEwen I heard of the skating ability of

his young grandson, also Peter McEwen, who recently won the Novice "A" Boys Championship in Figure Skating at the Toronto Figure Skating Club.

Peter teamed with Judy Hawkins to win the dance competition and these points, combined with his solo figure skating, gave him the championship.

Peter, senior another pioneer who lived within a few miles of my home before we came north, (fifty five years ago, he used to carry me around on his shoulders, "faith, he couldn't do it now." His wife was my first school teacher, and his son, Kenneth, has been my pride and joy since the day he was born, so it is small wonder that I have followed with interest HIS career as a clever doctor, his marriage to a very lovely girl and now, the accomplishments of his son.

And still on the pioneer theme I had the pleasure of chatting with Mr. Thomas Lemon of Cobalt, who has recently returned from Dania, Florida, where he spent some time during the winter months. He tells me that it was colder there this past winter than it has been for forty years but even so he would like to go back again. On their way home they ran into a severe snow storm in Pennsylvania.

Congratulations to the Haileybury Chamber of Commerce!! They have erected smart looking, easily read signs at both the north and south entrances to the town, proclaiming to all and sundry that Haileybury is the County town and the home of hospitality.

It is nice to know that the Chamber is working on projects such as these that bring the town into the limelight.

Being remembered on Mothers Day is a very delightful and also a very humbling experience. When you get gifts ranging from beautiful blankets, roses, shrubs that you've been wanting to money labelled "for your trip to Scotland," it makes you think of the dozens of times you lost your temper and yelled when you shouldn't have, of all the times when impatience was uppermost, and the thousand and one things, that if you could only have a second chance, you would do so differently. But fortunately for us all, "to err is human, to forgive, divine."

Despite the snow and frost, flowers are coming along apace, and each morning brings a few more colorful spots in the garden. Last night, with the help of a small neighbor boy, I got about seventy-five of the early glads in and by next week end I hope to have the early vegetable seeds tucked away in their little earthen beds.

Flower-like, too, in their brightly colored spring outfits are the tiny tots that are playing in the park these nice warm days. They are a joy to watch as they walk sedately or run boisterously, tumbling "bottoms up" and starting all over again.

If the EDGE of an aluminum SINK SMUDGES the clothing of anyone leaning against it, rub the aluminum with steel wool and apply two thin coats of shellac.

When you motor to the GOLD TOWN make yourself at home with the North's oldest names in Automobiles.
