## John W. Whips Up Grits

John Wintermeyer, Ontario Liberal leader, is currently trying to pump some life into the local Grits. Mr. Wintermeyer attended a dinner meeting in the Hotel Haileybury last night, attended by local Liberal leaders and a few unrepentant Tories.

He urged local Liberals to hurry up and select a candidate, and said that the Liberals have an excellent chance of taking Ontario, as the Frost government is disintegrating.

Mr. Wintermeyer said that he is not interested in just criticising the government. He is touring the

province to get grass roots opinions which will help him formulate a platform.

"The Liberals have to show the people of Ontario that they can form a responsible government, capable of tackling the problems with new and imaginative thinking," he said.

Mr. Wintermeyer heard Mayor John Damiani appeal for aid for the Cobalt mines in marketing cobalt ore, while Mayor Art Cooke of Haileybury rapped the O.N.R., and said that it is not being run as a development road, but is stifling Northern development.
