CSAO WORKSHOP HELD AT COCHRANE

By Jack Hetherington

Districts 7 and 11 of the C.S.A.O. met in a workshop session in the Legion Hall at Kirkland Lake on Saturday, July 19th. with representatives from the Branches from The Soo east to North Bay, north to Cochrane and west to Hearst.

The meeting was under the leadership of Professor Ted Evans of Guelph and John Pearson of the Toronto Branch who is also a professor though neither man made any allusion to that fact. Both these men have played a very prominent part in AMCO. (Annual Meeting Committee on Organization). Also present were Miss. Jan Clark, editor of The Trillium, J. F. Robinson, Jack Sedore and Harold Bowen who assisted in the discussion and presented advice on technical details.

With the passing years the number of Civil Servants has exceeded 30,000 but basically the structure of the Association has remained unchanged and we are now faced with the problem of altering that structure to best serve our members and our employer. Our Board of Directors has become so large that it is unwieldy and contact must still be maintained with the Branches who form the base of the Association. It is proposed to have more and smaller Districts and the District Directors appoint regional representatives to the Board. It is also proposed to have regional Departmental representatives work in conjunction with them. It is hoped that a plan will have been set up before the Annual Meeting which will form a firm base from which to work.

Other problems pertaining to the Service ranging from political patronage to the ineptitude of supervisors and uniform hours of work were discussed.

Tom Huff, George Brown and Jack Hetherington represented South Temiska-

ming at this workshop which was the first of this nature to be held and from it lessons will be learned to guide future operations. The next one will be held in Kingston in September.

The thanks of the Districts concerned are hereby tendered to the Kirkland Lake Branch and to Mr. Len Baird, Reeve of the Township of Teck, for services rendered and for courtesies extended.

GOLF TOURNAMENT

Miss. Anne Gluckstein of Parry Sound was the Champion of the N.O.G.A. Tournament which was held at Kirkland Lake last week winning the final round on Saturday afternoon from Alma Nagle Iroquois Falls after a thrilling game and playing to the 21st. hole to decide the match.

Shown above are J.M. Shouldice's Invincible Fastball team. Left to right, front row; Bob Boissoneault, Paul Fleury, J.M. Shouldice, manager, Gerald Gelinas, Vince Gabbani and Roger Morin. Back row; Chuck Fleming, Bob Tyson, Bob Brown, George Mahon, and Harold Dinell. Seated in front is their batboy, Donald Sauve.

HAILEYBURY'S DRY!

Constance Lake is finished as a source of water for the town. That is the opinion of Charles Camsell, Chairman of the Haileybury council's water works committee. Ron Mensies and Charlie Grant conducted a survey early this week which showed only three feet of water over most of the lake.

Most of the residents west of the railroad tracks are without water, and the town does not have any emergency supply if the downtown pumps break down.

Mr. Camsell said that the town may have to install a booster pump at the top of the hill to bring water from the downtown pump house.

Jail investigation

R. CONNELL, VISITED HAILEYBURY

R. Connell, minister of reform institutions, visited Haileybury this week to make a personal investigation into the situation at the local jail. Mr. Connell issued the following statement.

"I felt in all sincerity and fairness to the principals concerned in the Haileybury jail controversy, that I should make a personal investigation, and recommend some solution to the officials of the reform department, based on grass roots observation. I have done just that.

I have talked to many people in area, business men, merchants, professional people, and most important, the man on the street. I have gathered a lot of pertinent information on this subject, and feel that I can now submit suitable recommendations to the officials in my department, that will clarify the whole issue as it stands.

"Results of my personal investigation, will, I feel precipitate the procession of a suitable compromise, fair to all concerned."
