# Paint new thix quality way END DRIPS • RUNS • MUSS!

A new kind of paint—  
for today's kind of people

## Scarfe's JELLED thix

A new idea is setting a nation-wide trend in painting. It's Scarfe's THIX, a different kind of paint that's entirely free from run, drip or splash. It does everything any other fine quality paint will do—only the muss is missing!

Here's why. THIX is jelled by Scarfe's exclusive formula. THIX stays in a jelled state until you make the first brush or roller stroke—then it turns into a smooth-flowing liquid.

You'll find THIX much easier to apply—it glides on. And the job you get matches the fine quality of the paint. It's far easier to get a smooth, professional surface. For THIX can't run or make rivers to spoil your work... no spatter.

Finally, Scarfe's THIX is lasting, washable, beautiful, and the colours are non-fading.

Ask your Scarfe Dealer to let you try THIX in his store. He'll be glad to have you do this without any obligation.

NO MUSS OR FUSS—no need to cover floors, furniture. No tiresome wipe-up afterwards.

THIX WON'T DRIP on clothes, floor or furniture.

THIX NEEDS NO STIRRING—just dip your brush and start to paint.

THIX WON'T RUN down brush handle.
