“Mr. Beep”

makes a passing comment...

World respected name in petroleum products and services.

BP CANADA LTD

“Since my boss switched me to all BP service, boy, do I feel the difference! And somehow, I can’t help showing it! The combination of BP Super Gasoline and Visco-Static Oil does things for my insides that no other gas and oil ever did before. Grades and hills don’t mean a thing — and when the boss needs that extra burst of power for safety and convenience, it’s as near as his accelerator pedal with plenty to spare.”
