“Mr. Beep” goofed

man! was my face red!

World respected name in petroleum products and services.

"Today I cracked my engine block. The boss has been meaning to take me into the BP station to get me winterized and my radiator filled with BP Antigel —

But he's been putting it off time after time for one silly reason or another — And then, today,

Old Man Winter really zeroed in — froze my system solid and 'zing' went my engine block and radiator.

Take my advice, don't put it off — Get down to your BP service station now and get your winter supply of BP Antigel and BP Visco-Static Oil and BP Energrease. Those boys at the station really know how to fix a car for real low down zero driving."
