## News from the Evelyn Shoppe

No doubt many of you have noticed all the smart Canadian fashions shown in the February issue of Mayfair magazine, photographed all over the world, on Canadian models. A number of these you will find at the Evelyn Shoppe, such as the newest of the season's costumes with a bowed box jacket over a raised-waistline sheath in topaz pure silk piessanti by David Taub and Son, photographed at the Buddhist Temple, Bangkok.

Silk and cotton shirtwaist separates by Nat Gordon, shown in Calcutta, or in Hong Kong, sampan pants with smart tops. So rest assured when you shop at Evelyns, you are smartly dressed to travel anywhere.

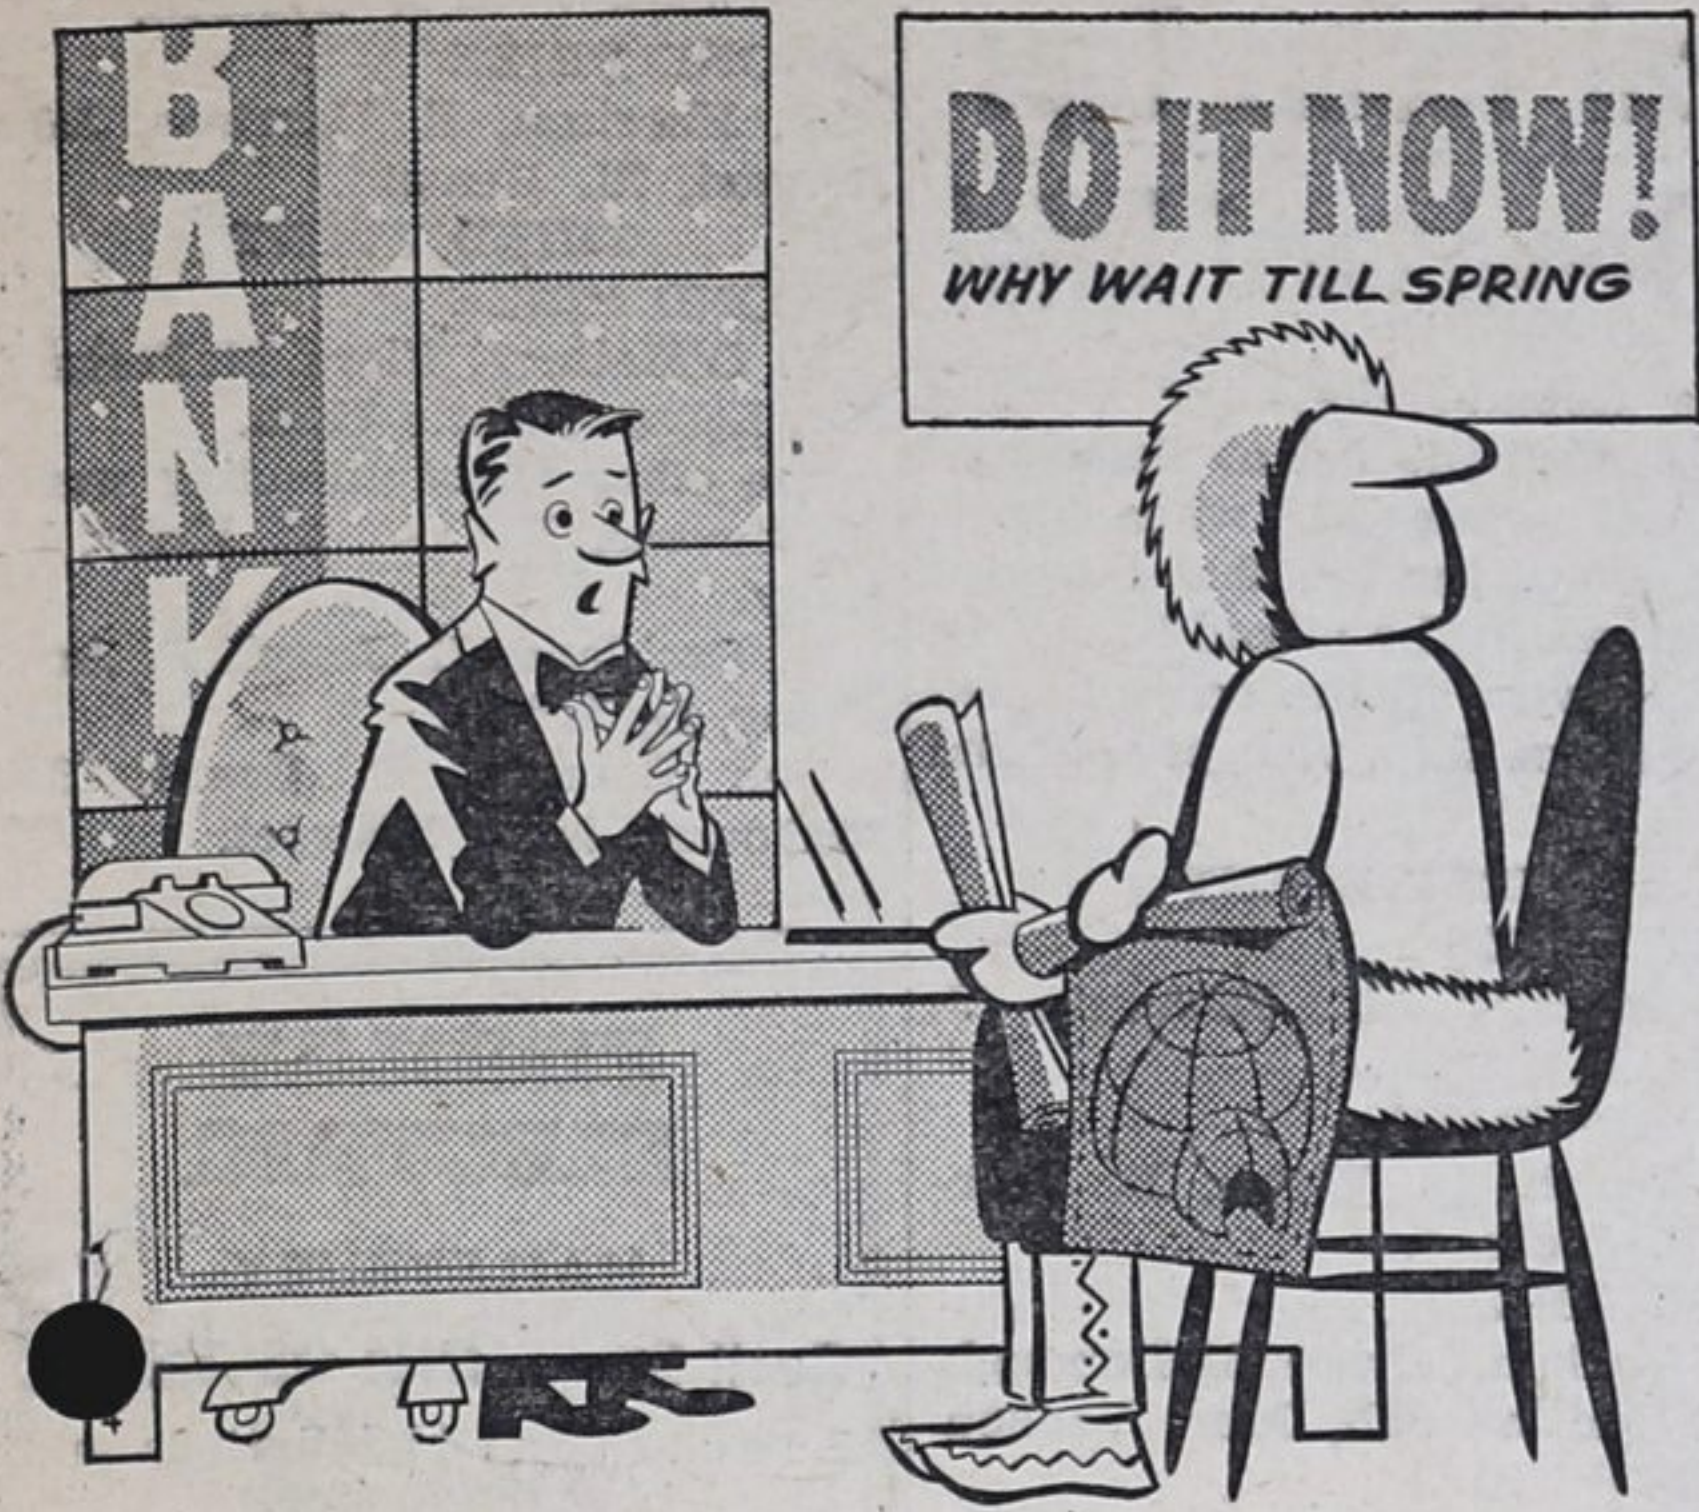

The hats in fashion clear the brow and neck and are very wearable. You MUST have one for Easter. Even the pillbox has a different look. One we like, banded in velvet, is oh, so smart with a needlepoint suit in sprout green, with cropped jacket and the new shorter sleeve length, by Gordon. This would give the most jaded spirits a lift!

The new 1959 Muffin Cloche in crisp straw is so wearable, worn with one of our colorful printed silk dresses.

This year, Fashion says, "shadow your legs in color." The darker toned hose with your white, beige and pastel costumes, or the exquisitely soft shades in colors to match or contrast.

We are so enthusiastic about all the colorful merchandise arriving daily. You will be too. And remember, Evelyn and her staff are happy to have you come in and brouse around. Looking can be fun!

## Across the Kitchen Table

By MRS. MAC

When I pick telephone numbers at random from the phone book in an effort to find some personals for the columns of the Haileyburian, I often find I have called some person who, through ill health or other reasons, seldom gets out, especially in the winter months, and who is really lonely.

They seem so glad to be able to chat, even for a few minutes, that I am wondering if there isn't some way of getting these persons in touch with one another so that they could at least call and have a little "telephone chat." Many of them are pioneers of the town and have a wealth of memories to share. One whom I called the other day, who originally came from Scotland, was so interested in my coming trip to her homeland and told me some interesting things regarding it.

I wonder if any of those people who do not get out much, and who would like a "telephone friend" would want to give me their phone number to be printed in this column so that they would get to know who would like to have telephone chats and in this way, they could help to relieve each other's loneliness.

Do you want to try it? If so, my number here is Os-2-3066. You know, something nice that

we could start thinking about these cool, frosty mornings is "when will the ice be out of the lake?" This is the last week in February, remember, another two months and that old lake surface will be looking pretty well moth-eaten. So it's not too soon to be taking time by the "fetlock," as I once heard a girl say, and begin polishing up your guessing ability.

The longer days, or something, is bringing my African violets along beautifully, and buds are popping up all over. It will soon be time to get some seeds started, too, oh happy day! And then the first thing we know, there will be the gleam of the crocus, the sunshine of the daffodils, the bleeding heart will be sending up shoots, just daring Jack Frost to touch them, (he'll take the dare, too, don't worry!) and then, poof, we'll forget we ever growled about the snow or cold weather. Such is life.

The two largest tunnels in the western world, each five and a half miles long with an inside finished diameter of 45 feet, run beneath the city of Niagara Falls, Ont., carrying water for hydro-electric power generation.
