 Girl in the Picture

## The University

(Continued from page two)

years, the first day he suggested a University to them, regardless of its location.

Since it is impossible to decide on the location at this time it is obviously not possible for the NOUA to combine with the Northeastern University Committee at present.

Mr. Trusler of the North Bay group requested the moral support of the NOUA. Rev. Hilliard of Copper Cliff, speaking for the NOUA said that they were deeply grateful to the Northeastern University Committee for their invitation to federate with them and assured him that they would receive the same moral support as those groups promoting the location of the University in other northern centres. He assured him that there would be no reason not to give their moral support since they may federate with them at some future date. A few men present including some Protestant ministers, were members of both groups and expressed their intentions to remain members of both groups.

Both organizations are working to promote advanced education in northern Ontario. They are not at cross-purposes with each other. The colleges formed by each would admit students of any denomination. A federated University so formed would form a nucleus for a Federation of Colleges such as there is in Toronto.

Dr. Lautenslager was asked when he thought the NOUA could be ready to begin its College. He said with the proper support of the plan it should be possible to establish a College in two years provided there is a Roman Catholic college to federate with.

Father Weaver, principal of the North Bay college, said the Catholic Junior College could be started in the fall of 1960. The Northeastern University Committee has obtained a 475 acre University site in North Bay and is offering free land to any group desiring to establish a University College in federation with the Catholic college. At present the Catholic Order

of the Society of Jesus have a charter college in Sudbury.

All of us require the services of University trained people, doctors, lawyers, ministers, teachers, etc. The problem of a shortage of Universities concerns everyone indirectly and a great many people directly. Because of over-crowding, Universities have had to raise their entrance standards and we are already losing men and women who could serve their country well if they could obtain further education. By 1965 the present University population will have doubled. By 1972 it will have tripled. We hope the people of the North will respond to their need.
