

You will be sure to lead the Easter Parade with the planned perfection of the costume look from the Evelyn Shop.

If you plan a suit, coat, or dress with jacket, make your selection early from our large collection. We have both coats and suits in petite, regular and half sizes, all with the latest high fashion detailing, in Fortsmann wools, and textured worsteds, in deep blue, soft spring green and pebble beige; coats in looped Boucle, nubby texture, as well as the softness and depth of cashmere; the hand woven Scotia Craft coats, some with matching berets, in classic styling, take really hard wear and come in poppy red, turquoise, soft blue and beige. If you are thinking of the popular camel hair, do not forget that Evelyn specializes in 100 percent camel hair in petite and regular sizes.

A Liberty of London blouse in the finest of Egyptian cotton has the feel of silk, washes like a hankie and requires practically no ironing. These come in beautifully blended colorings.

Gloves impeccably styled and stitched by Paris Gloves, match and blend with any costume. We particularly like the "Launder Leather", machine washable, in soft kidskin. With the shorter sleeve lengths, the longer gloves, softly crushed, are so smart.

Many of our leather bags by Paragon are suede or leather lined, in the versatile bone shade, navy, warm tans and black.

Predictions are that colored hosiery is to be big fashion news in 1959. With the "Hosiery Fiesta" on in Montreal this month, the first of its kind ever held in Canada, a new spotlight will be focused on "leg glamour." Evelyn carries Kayser and Phanton in the new spring shades. It is interesting to note that 80 percent of all sales are in seamless hosiery.

Do not forget, no costume is complete without a new bonnet for Easter, and particularly, one by Piko. One caught our eye in the new Cherry Fizz shade with two roses perched jauntily on the side. We feel sure even the hard-to-please male would nod his head with approval. Remember, too, a deposit will hold your purchase until Easter.

**News Flashes**

(Easter shopping is exciting, isn't it?)

By MRS. MAC

It would be hard to find anything sweeter than the antics of chubby little tots on skates, wearing all kinds of lovely costumes, their eyes filled with the wonder of childhood and their faces, reflecting their sense of importance.

Watching them at the Carnival last week-end, I marvelled at the way even the smallest ones conducted themselves. One tiny wee thing in a delectable pink outfit, kept wandering off by herself and one of the bigger ones would skate after her and bring her back into line.

The older ones, too, were good, in fact the whole performance was a joy to watch and my thanks go to the Haileybury Club for a very enjoyable evening.

"Spring, spring, beautiful spring, when the flowers bloom and the birds do sing!" Do you realize that Sunday is the first day of spring? (laugh here, that's a joke).

"If winter comes, can spring be far behind," says the poet. Well, I can assure him it can be quite a distance behind, but it will eventually catch up and burst out in a blaze of glory and then, ah, then, we will forget all about freezing winds and drifted snow, and think only of the balmy breezes. (Or am I balmy? On second thought, please don't answer that one.)

**JOB MAKERS**

CANADIAN manufacturing in each month of 1958 provided employment for an average of 1,146,156 Canadian men and women. This represented nearly 43 per cent of all non-agricultural employment in Canada.

The combined income of those engaged in manufacturing in 1958 was slightly less than \$5 billion or about 31 per cent of all Canadian wages, salaries, and supplementary labor income.

*Manufacturing is by far the most important part of the Canadian economy.*

Manufacturing provides the greatest amount of employment in Canada. It makes by far the largest contribution to government revenues. Its production enables Canadians to enjoy the second highest standard of living in the world.

Because of its contributions to our way of life, Canadian manufacturing deserves the support of every Canadian through the purchase of goods made in Canada.

Steel is the foundation of all our manufacturing, and Stelco is Canada's largest steel producer.
