

BERMUDA HOLIDAY: Judge and Mrs. John B. Robinson of 112 Lake Shore Road, Haileybury, Ontario are spending a holiday at Horizons, a cottage colony, in Paget Parish. Judge Robinson is the District Court Judge in Haileybury. The couple, who have vacationed here for the last three years, arrived in Bermuda on April 8th. They plan to return to Canada, via Trans Canada Air Lines, on April 19th.

Haileybury Personal

Dr. and Mrs. G. Judson of Haileybury are in Toronto guests at the Park Plaza.

Mr. and Mrs. Arnold-Dempster returned last week from a holiday spent in Florida.

Mrs. Pearl Brown is leaving early next week for her home in Nanaimo, B.C. after spending a month with her parents, Mr. and Mrs. F. Dempster, Meridian Ave.

Mr. and Mrs. H. Pickard of Haileybury, will be attending a meeting of the New Liskeard Horticultural Society, Monday evening, May 4, at eight o'clock. Mrs. Pickard will give a talk on African Violets and will demonstrate the proper methods of dividing and repotting.

Mr. Pickard will speak on the preparation of plants and flowers for exhibition. Anyone interested in flowers of any kind are invited to attend.

Guests at the home of Mr. and Mrs. R. F. Richardson last week were Mr. and Mrs. Ira Boyd of Fort William.

An article by Richard Jackson, in "Ottawa Offbeat" regarding Royal Canadian Mounted Police Assistant Commissioner Douglas O. Forrest, has reminded Haileyburians that Mr. Forrest grew up in Haileybury.

He is the son of Mr. and Mrs. Mel Forrest and at the age of 51 has been with Mounties for 30 years, in all parts of the country.

He has been chosen to be in full charge of security for Queen Elizabeth's six-week, 15,000 mile tour of Canada beginning in mid-June. While he and four other picked men will have the special responsibility for the Queen's safety and comfort, nearly all 6,000 members of the RCMP will be involved in the Royal tour, in some way or another.

Mr. and Mrs. W. E. Vannier left Wednesday on a motor trip to Chicago. They will be joined at Sudbury by their son, Jean and Mrs. Vannier of Elliot Lake, who will accompany them to Chicago.

Mrs. H. Pickard and Mrs. W. C. Arnold were in Swastika last week to attend the annual meeting of the Temiskaming Presbyterial of the WMS of the United Church, representing the local WMS.

Mrs. Ross Davis is leaving this week for Quebec City where she will be the guest of Major and

Mrs. Ivan McLaughlin.

A most successful bake sale was held Saturday afternoon, April 25, in Connelly's Show Room under the auspices of Northern Light Rebekah Lodge.

A draw was made for a basket of groceries and Miss Ann Campbell was the lucky winner.

The draw was made by Ken O'Grady.

Rev. George Johnston, who has been relieving minister at the United church in Haileybury for four or five years, and who was a professor at Emmanuel College in Toronto, has been appointed to the Chair of the New Testament of the Faculty of Divinity at McGill University in Montreal.

Dr. Johnston came to Emmanuel College in 1952 and prior to that was associate Professor of New Testament and Church History at Hartford, Conn. Dr. and Mrs. Johnston and their three children, Christene, Ronald and Janet, are well known in Haileybury and North Cobalt and have spent some time at Camp Lorrain

Life expectancy for women in Canada is 73 years; for men it is 68 years.

Bird House Builders At Haileybury P. S.

What's for the birds? Why bird houses of course. For the past two years the students of Grade VII and VIII at Haileybury Public School have been holding their displays of bird houses and feeders, as the highlight of their year's work in manual training under the capable direction of Fraser Reavell.

Last week the preparation for the show was all complete and they were ready for the judging in their various classifications. Connie Vachon and Sam Hughes were the adjudicators with the difficult job of awarding the prizes. The three main classes for the houses were, houses for wrens, robins, and swallows, and although they are not the only birds that visit our region, it was made clear that marauding birds would have to go without a roof over their heads.

But the birds won't be the only ones that will benefit from the houses, it has been proposed that the class sell the homes to bird lovers around the town so that they might decorate their grounds with the stately mansions and at the same time supply our migrating friends with a new abode upon their return from the sunny south.

The effects of the pupils who donated their time and effort to the worthwhile cause were also recognized in the form of substantial awards from interested citizens for the best efforts.

Mr. Reavell announces that the show of handicraft will take place in the showroom of Connelly's Garage.

Tops in honors were:

Grade VII: Swallow homes — Michael Hammerstrom, John Neilson, Walter Adams. Robin homes — Bobby Dempster, Rory McDiarmid. Wren homes — David Laroie, Walter Oslund. Feeders — Russell Findlay, Victor Larocque.

Grade VIII: Swallow homes — Carl Nielson, George Culhane, Earl Houghtling and John Horncastle. Feeders — Bob St. Louis and Wayne Russell, Paul Hough.

Labour income in Canada is 1958 totalled \$16.2 billion, compared to \$15.8 billion in 1957 and \$14.3 billion in 1956.

Research Essential In Work for Blind

"Research makes Rehabilitation, Residential care and Recreation effective tools in work for the blind," said Mrs. R. D. Cumming chairman of the South Temiskaming Advisory Committee to The Canadian National Institute for the Blind, in reviewing the multi-service program of the CNIB. She pointed out some of the most recent additions to the all-inclusive program.

Research has provided CNIB with a great background of information. "When a need is discovered we endeavour to track it down and meet it." She did not merely express an opinion but illustrated it with factual examples. She referred to the Library for the blind which houses 22,000 volumes of Braille reading and more than 35,000 hours of listening in talk-

ing book records. Not only does the Library lend books without cost to the blind, but it also publishes periodicals in Braille. A unique service provides textbooks recorded on disc and tape. These are made available to young blind students who despite their handicap pursue higher education in Canadian Universities.

CNIB also conducts a research program on farm methods for the Blind. "Did you know there are more than 120 blind farmers in this province?" enquired Mrs. Cumming.

Mrs. Cumming discussed the Sight Conservation and Sight Restoration program which is so important in this community's fight against blindness. She is convinced that CNIB's 4R program ranks second to none. "That's why I and 15 other people are members of this Advisory Committee. That's why we ask the public to support the annual appeal of the CNIB which will be conducted from April 27 to May 9.

The scream of skidding rubber behind you may be a warning of an impending rear-end collision. If you brace the neck with hands and/or seat back you may avoid serious injury. The main danger from rear impact is the "whiplash" effect that can dislocate the neck.

TOWN OF COBALT
