Haileybury a Liskeard Suburb Forecast of Hotelman Timmins

The Tri-Town Bypass came under fire by a town businessman at council meeting last Monday night, when J. H. Timmins appeared before the council representing the Hotel Haileybury.

Mr. Timmins fired his first big gun by stating to council members "The Tri-Town Bypass will be completed within the next three years, if you can show me another town that is by-passed by five miles in Ontario then I will show you a town that has suffered the same economic set-back that Haileybury is in for," he continued. "I agree whole heartedly with by-passing, to rid ourselves of heavy transports, but if the bypass does go through under the present plan, by 1962 Haileybury will be known as the only graveyard in Ontario that is lit up at night."

"A lot of people don't think that this by-pass is going to hurt Haileybury, but in the past few weeks I have been doing some research of my own on the situation. I asked several tourists if they would have stopped in Haileybury if the town was by-passed and they replied that they wouldn't. Generally they follow the road map and stop at the most convenient places."

Mayor Cooke reiterated, "Before the by-pass was approved I asked the Chamber of Commerce for a letter so that I would not be voic-

ing my own opinion when it came to discuss the route, at that time the letter read that the merchants of Haileybury were in complete agreement with the present plan, Haileybury has left it too late to protest.

Top Cadet

Lieutenant Denis Jean Louis, 16-year-old son of Mr. and Mrs. Roy Jean Louis of Cobalt, was chosen best cadet of the Algonquin Cadet Corps of Haileybury, obtaining the highest marks in the Master Cadet tests at Haileybury and one of the top five marks in the province of Ontario which earned him a three week all expense paid vacation in Banff, Alberta.

He was accompanied by Captain Gary Deeley of North Cobalt and they went to Toronto by train and flew from Downsview Airport in an Air Force CI-19 plane direct to Banff.

There were 325 cadets chosen from all over Canada to put on a display of judo and rifle drill for the Queen and Prince Philip at Banff. The Cadet Pipe Band of the Cameron Highlanders played while this display was going on.

Mr. Timmins stated, "I think that both Cobalt and Haileybury have been hoodwinked by New Liskeard, they have worked hard to get the by-pass as close to town as possible and they will be the only ones to benefit by the by-pass. I think that if I live long enough there will be letters coming to me addressed, J. H. Timmins, R.R. 3, New Liskeard."

"That statement will amuse you less if you stop to consider that it is far more fact than fantasy," he continued, "the council should take the initiative in matters like this, I can name with no trouble at all at least ten industries which the town has passed up for lack of this same substance, among them the Mental Hospital, which is now at North Bay. If this by-pass goes through on the proposed plan we are soon going to have to look to our laurels, industry is moving out of here far faster than we will ever be able to replace it."

Mr. Timmins focused his second big gun on the cost of water in the town claiming, "The Hotel Hailey-

Haileybury Shot Makers Excel In Tournaments

Ladies At Sudbury Men At Noranda

Four lady players from the local golf club motored to Sudbury last week-end and took part in the invitation golf tournament held there on the Idylwyde Golf Course.

While the weather wasn't of its best on account of rain, it didn't dampen the spirits of the players and some good scores were turned in.

There were 81 entries representatives from eight clubs. They were the Soo, Parry Sound, Barrie, Timmins, Haileybury, North Bay, Sudbury Club and Idylwyde.

Those attending from the Haileybury Club were Flora McFarlane, who played in the championship flight, Phyl Bates in the first flight, Evelyn Pollock in the third flight and Ness McAulay in the fourth flight, who won second prize in this event.

(Continued on Page Seven)

Five players from the local Golf Club journeyed to Noranda and attended the Men's Tournament which was held there last week-end. Two of them getting into the prizes.

Perry Armstrong was runner-up against Hotchkin of Kirkland Lake in group E in the senior event, winning second prize. George Morissette also won a prize in the other division of the tournament.

Those who were present were Perry Armstrong, New Liskeard, George and Ron Morissette, John Knox and Chris Murphy, Haileybury.

Hostesses at the Golf Club Tea August 12 were Mrs. D. Dean, convener, Mrs. G. Black, Mrs. G. Morissette, assisted by the Misses Diana Dean and Joanie Murphy.

The second round of the Tuer Event is scheduled for Saturday, August 15, in the ladies section.

The finals of the Taylor Cup are scheduled to be played off on Saturday afternoon, August 22, weather permitting, otherwise will be August 23.

Those who have qualified are: Mr. and Mrs. Doug McLennan, New Liskeard; Mr. and Mrs. John Knox, Mr. and Mrs. Neil McAulay, Mr. J. W. Lecky and Mrs. N. McAulay Sr., Haileybury.

Haileybury Council Split On Water Works Cost

Last week's council meeting was the scene of much whoop-de-do about water. Charley Camsal, chairman of the water and resources committee came up with a brand new plan designed to solve all the problems and make everyone, whether high on the Haileybury Hill, or low by the shores of mighty Temiskaming, happy to the highest degree.

His plan is to completely do away with the Constance Lake set-up which was instituted some years ago as a solution to the water pressure problem, and instead, on the same site build a reservoir with a 30,000 gallon capacity to do the same job. The site will remain at the Constance Lake site for two fold reasons; the first is that the site is 175 feet above the highest level of the town, and would supply maximum water pressure; the second reason is that the pipe is already laid to Constance Lake and will save a great deal of expense.

Councillor J. J. Whelan had this to say about the new proposal, "I am disappointed about the size of the reservoir, it should be at least 50,000 gallon capacity, it will cost only an additional \$3,000 for the 20,000 gallon added capacity and at the rate the town is likely to expand out the west road when the by-pass is completed this is well worth while."

Councillor Neil Fleming said, "I don't think that we should build the reservoir, with the by-pass going in five miles from town, we don't know what the situation will be ten years from today. I think that we should make shift with a large auxiliary pump just over the tracks, and then we are free to complete the job at a later date."

Council decided to put off decision on the water works for the present and hold a special meeting next week to solve it.

Mayor Cooke said that this seemed to be the only possible solution, but that he did not like to put the pertinent issue off too

long, or change present plans, since he had made a promise to the towns people that the water would be installed and working satisfactorily by fall. He said, "If we put this off now and change the plans it will take an indefinite time before we will be able to have the new plans approved again. We owe it to the people to solve this problem at the earliest possible date."

Taxpayers Satisfied Provincial Police Stay

Interested residents of the District Town who have been following the council's deliberations on the policing issue will be happy to know that they are well protected again for another year. After a lengthy investigation into the merits of Provincial Police protection, council decided unanimously Monday night that they would ask for OPP service for another term.

The town had previously received two applications from persons with considerable experience for the position of Chief of Police, if they decided to form a Haileybury Town Police Force.

The decision was made with the rising costs of policing in mind to retain the Provincial Police. Next year the cost of the police will be

\$800.00 per policeman more and an additional cost of \$360 for the police cruiser making a total of \$2760 more in 1960 than in 1959.

Mayor Cooke stated, "I've talked with numerous taxpayers and they say they are satisfied, they claim they are willing to pay more for good policing, but this new boost in pay will make them the second highest salaried job in town, they will be making more than the town clerk or the postmaster."

Councillor Fleming recalled, "From previous experience I know that local policemen have a tendency to get involved with town officials, and are not generally as dependable."

The new contract will become effective on December 31, 1960.

Watch Your Step!

Many complaints have been received about glass strewn all over the streets from broken bottles in particular.

As children may not realize the seriousness of breaking bottles, if the parents who give their little ones a bottle of soft drink would insist it be returned when empty, the temptation to break it would be eliminated.

Also older ones should use discretion where they are disposing of them and think of the danger broken glass can cause.

Above is a view of Constance lake recent source of water pressure for the town of Haileybury; the lake has no source of water supply and must depend upon rain yield. Recent years have seen the water in the lake retreat until it has become so low that it is unsatisfactory for the purposes originally intended. To rectify this situation council are investigating the possibility of building a cement reservoir on the same site.
