Six Full Days Of Fun And Frolic At Temiskaming Summer Carnival

There will be no excuse for boredom next week when, starting Wednesday, the district wide "Summer Carnival" gets under way. A great variety of events are planned in Temagami, Cobalt, Haileybury, New Liskeard and Elk Lake. The big carnival starts Wednesday and will continue until Monday night.

The carnival is planned as a co-operative effort by the communities concerned, under the general aegis of the Northland Chambers of Commerce.

Each town is staging its own individual attractions, designed to enter local folk and attract tourists too.

There is a great variety of attractions from beginning to end of the carnival.

WEDNESDAY

On Wednesday, golf fans from all over the north are expected to flock to the Haileybury Golf Club, where Bill and Dave Morland of North Bay will take on Al Balding and Bob Gray, two of Canada's top pro golfers.

The exhibition match is being staged in aid of the New Liskeard Nurses' Residence Fund. The Golf Club has donated use of its course and club house, and the pros are just charging travelling expenses. Al Balding hails from Markham and recently broke the course record in the Ontario Open. Bill Morland won the Northern Ontario Championship and brother Dave, just recently, copped the Ontario Championship.

There will be a golf clinic at two o'clock, and the golfers will tee off at three o'clock.

If you don't care for golf, then a Tri-Town swim meet starts off with a splash at the New Liskeard

Beach at two o'clock Wednesday. Haileybury Beach has been given a clean bill of health by the Temiskaming Health Unit, and it seems almost certain that New Liskeard's Beach will be cleared in the next few days.

Other attractions at the Beach in New Liskeard Wednesday afternoon are a teenage rodeo at 2:00 p.m. sponsored by the Jaycees, and bicycle races. The rodeo is open to all between 16 and 25. Names should be left at the Bank of Nova Scotia.

Wednesday evening at the New Liskeard Beach there will be a short official opening ceremony to get the carnival underway, followed by a horseshoe competition, boxing at the arena sponsored by the Canadian Legion, and dancing at the pavilion run by Club '60.

This latter New Liskeard group will be holding dances at the Pavilion every night except Sunday through the carnival.

THURSDAY

On Thursday Cobalt will let its hair down with a day dedicated to the mining industry that made the old town famous. All the stores will be decorated with a mining theme, and already the Legion has erected a prospector's tent on a downtown lot.

At 11:00 a.m. there will be a display of mine rescue work, followed by a hand steeling contest at 1:30 p.m. At three o'clock a tug of war is scheduled between the mayors and councils of the neighboring towns and at 7:00 p.m. the fire brigade will stage a display of fire fighting.

In New Liskeard on Thursday Ontario Hydro will stage a truck rodeo, and the Jaycees will sponsor a bicycle rodeo. At nine

o'clock music fans are expected to flock to the Beach Pavilion where the King Ganam Show, featuring Tommy Hunter will be presented by Club '60.

King Ganam claims to be head of the Royal House of Hoedown, and a rip roaring square dance will be held after the show.

On Thursday too, anyone who would like to look around the many improvements at the Provincial Institute of Mining in Haileybury is welcome, as the mining School is holding Open House.

(Continued On Page Five)

Jeunesse Musicale

Miss Daintree MacDougall will be leaving late this month to attend a summer camp sponsored by Jeunesses Musicales at Magog, about one hundred miles from Montreal, where she takes a course in voice training. She will be representing the Tri-Town Branch of Jeunesses Musicales. Following her success at the Temiskaming Festival of Music, Miss MacDougall was awarded a bursary by the local branch for the purpose of attending this course.

Plan Mass T.B. Survey For Temiskaming District

The regular meeting of the Temiskaming District Tuberculosis Association was held in Englehart on July 19th. The President, Mr. J. H. Litster, welcomed the many members and guests, among whom was Mrs. F. Battson, former secretary of the association, who is vacationing here.

Mr. David Goodyear of the Department of Health, Toronto, reported that plans are well under way for the Mass Survey to be held in Temiskaming District September 19th to October 14th. Area chairmen have been appointed and clinic sites chosen. Chairmen for the different areas are:

Temagami, Mrs. M. E. Sadler; Latchford, F. Keenan; Cobalt, E. Tresidder; North Cobalt, C. St. Cyr; Haileybury, Mrs. L. Wiseman; New Liskeard, R. T. Hutchinson, W. E. Anderson; Rural, Harvey Plaut; Earlton, Maurice Gauthier, Englehart, J. H. Litster; Kirkland Lake, Fred Giddings; Matachewan, Hubert Neumann, O'Brien, J. Wintar; Elk Lake, Mrs. A. H. Leishman; Larder Lake, Mrs. A. M. Mageau; Kearns and Virginiatown, R. Pugliese.

Mobile X-ray units will be sent from Toronto and in the larger centres tuberculin tests will be

given as well as X-rays. The tuberculin test consists of a small injection just under the skin and two days later a second visit is made to the clinic to have the reaction read. A positive reactor is a person who has had contact with active tuberculosis, but does not necessarily mean this person has TB. An X-ray is then taken and will show whether any activation has taken place.

It was decided to purchase needs for a san. patient from this district and also clinic supplies for Dr. J. Brown for monthly clinics. These clinics have been discontinued for the month of July, but will be conducted regularly starting on August 12 at Haileybury Hospital, August 26th at New Liskeard Hospital and August 31st at Englehart Hospital.

Swimming

The Health Unit has notified the Haileybury Recreation Commission that the water at the Haileybury Beach is now safe for swimming.

The Life Guards are now on duty and the Swimming Classes will begin immediately.

Parent-Teacher Tea At Holy Cross School

Sunny skies, summer flowers and beautiful Lake Temiskaming formed the background for a successful tea sponsored by the English section of the Parent-Teacher Association of Holy Cross School, Saturday afternoon, July 16, with the proceeds going towards the library fund.

The tea was held on the patio at the home of Mrs. D. Pelangio, where the guests were welcomed by the hostess and the president of the association, Mrs. G. Vezina.

The attractive tea table was centred with a white figurine, dressed in a profusion of mauve, pink, white and yellow summer flowers and flanked by mauve tapers in silver candelabra. Silver tea services at either end completed the appointments.

Pouring during the afternoon were Mrs. Rene Morissette and Mrs. J. Caufield, Mrs. D. Herbert and Mrs. G. Lemay.

The small tables for the guests were laid with white covers with a rose floating in a rose bowl as a centrepiece on each. Serving the guests and attending to the kitchen duties were Mrs. D. Day, Mrs. J. Hughes, Mrs. Gordon Short, Mrs. G. Rouse, Mrs. R. Fleming, Mrs. H. Jones, Mrs. A. Mon, Mrs. R. Barron and Miss Joanne Murphy.

In charge of the attractively arranged bake table were Mrs. R. Regimbal, Mrs. T. Johnston and Mrs. C. Burns.

Mrs. J. Hughes donated a cake, decorated in the form of a doll, on which she sold tickets, with the winner being Mrs. H. Jones.

An unusual feature of this tea was a Floral Arrangement contest

for organizations or individuals. Each competitor brought their arrangement and entered it in the contest which was judged by Mrs. H. Pickard, Mrs. J. A. Joyal and Mrs. J. Neelands. Following the judging the prize winners were announced as follows: first, Mrs. J. Mason; second, the French section of the Parent-Teacher Association; third, Mrs. W. C. Arnold.

New Industry

Mayor Arthur H. Cooke of Haileybury is trying to get the German steel and armament firm of Krupp interested in Northern Ontario. The mayor says that reports in a Toronto paper indicate that the company is planning to bring 1,000 German workers and their families to a 500 acre plant planned for Whitby, Ontario.

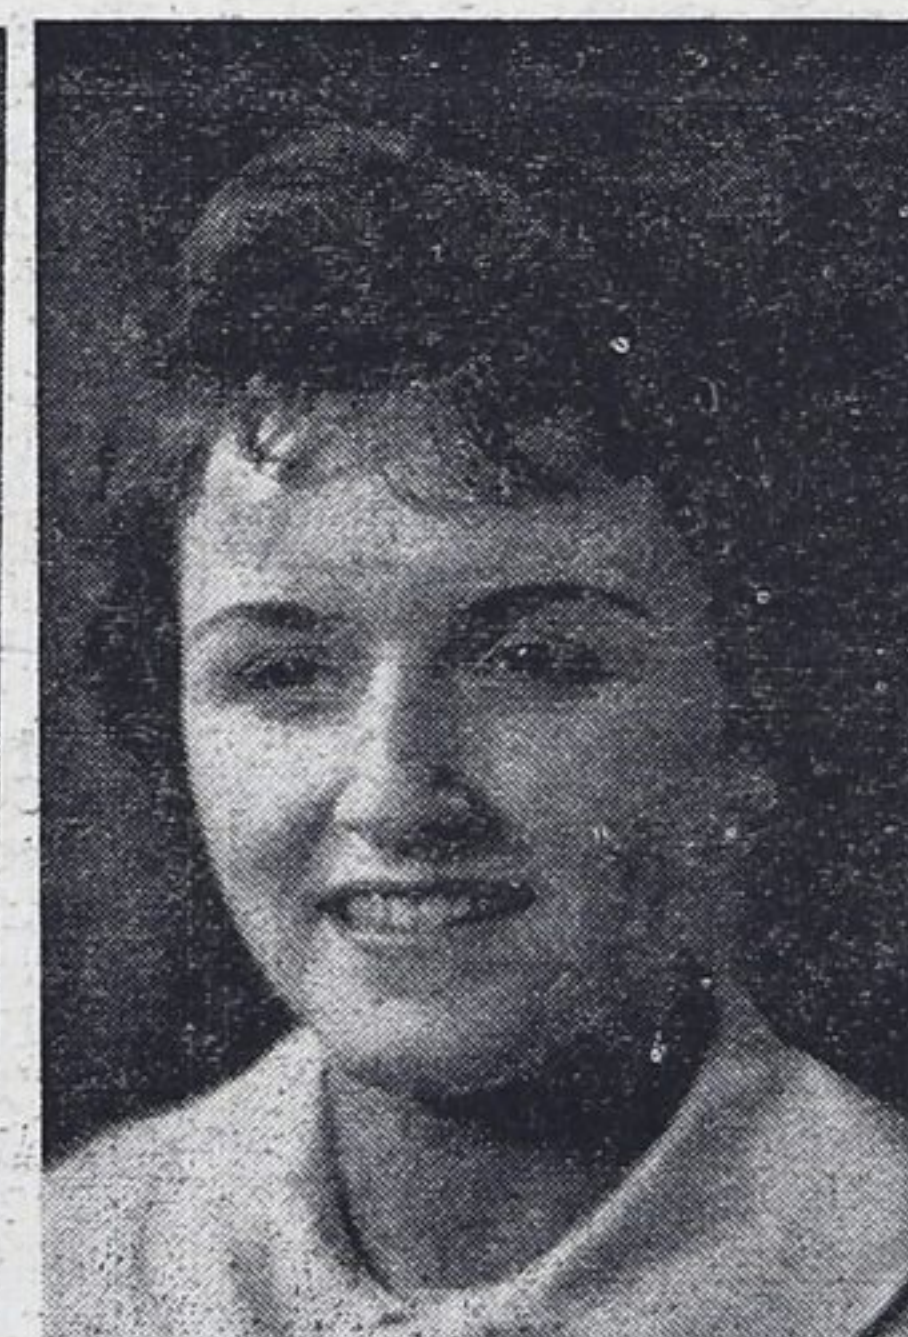

According to the report the company intends to manufacture electric generators at the Whitby factory.

Mr. Cooke said that he does not care whether the plant locates at Haileybury, but he feels that the Tri-Town area as a whole is worthy of consideration.

Mr. Cooke had Haileybury businessman Klaus Sroka telephone to his father, Dr. W. Sroka, who holds a responsible position in the West German civil service. Dr. Sroka said that he would try and bring the matter to the attention of Krupp officials.

Three Leave For Stratford With Canada Council Train

One hundred and eighty Canadian high school students will travel to the Stratford Festival this summer as guests of the Canada Council. During a four-day visit to the famous Shakespearean centre the students will attend performances of "King John", "A Midsummer Night's Dream", "Romeo and Juliet" and "H.M.S. Pinafore". They will also visit the exhibitions of paintings, books, theatrical costumes and Indian crafts on display in Stratford and tour backstage at the unique Festival Theatre. A luncheon has been arranged at which the students will have an opportunity to meet and talk with many of the stars of this year's productions.

Three girls from this district will attend. Heather MacArthur, Cobalt, Sally Anne Whitby, Haileybury, and Delia May Geary of New Liskeard.

Chosen for a particular interest in drama, music or literature, the students were selected by the Provincial Departments of Education in co-operation with the Canadian Education Association. They will

travel to Stratford aboard the "Canada Council Train", leaving Victoria, B.C., and St. John's Newfoundland on July 22. Along the route they will be joined by students and chaperones from ten provinces, the Yukon and North West Territories. In order to make connections, many of the young people will have to travel miles from outlying areas to the main transcontinental line using every form of transportation from airplane to motor boat. Eastern and Western halves of the train will join in Toronto on July 26 and cover the last lap of the journey together arriving at the Festival centre about noon.

In speaking of the Canada Council Train, Dr. A. W. Trueman, Director of the Council said, "The young people travelling to Stratford will be the future artists and audiences of Canada. It is important for them to see Shakespeare come alive as the plays are performed by what Brooks Atkinson called 'the finest classical company in North America.' Providing them with this fine introduction to fine drama and music, is one of

the soundest and most enduring investments we can make."

Last year, students attending the Festival reacted to the Stratford productions with wonder and excitement. "Never until I had seen the plays performed on the Festival stage did I ever dream Shakespeare could be so exciting, so alive and so moving", wrote an Ontario student.

Most of the students also commented on the impact the journey had on them. Few had previously travelled far outside their own province and for those from the extremities of the country the trip was a revelation. A new sense of the vastness, diversity and potential of Canada was impressed upon them.

One girl wrote from the prairies, "I was prouder of Canada than I've ever been before. We future citizens have indeed a rich inheritance in Canada". Equally important was the opportunity provided by the Canada Council Train for young people of English and French backgrounds to get to know one another during the visit to the festival.
