Claim Staking Down This Year

Prospecting activity in Ontario was at a comparatively low ebb during the first six months of this year when only 8,522 mining claims were recorded with 14,138 at the half-way mark in 1959.

Figures released by the Ontario Department of Mines show that of the 14 mining divisions in the Province, only two, Timiskaming and Montreal River, show increased activity. In Timiskaming the number of stakings is almost double the total for the first six months of last year. There has so far been relatively little reaction evident in the Red Lake, Patricia and Kowkash divisions as the result of the 16,000 square mile aeromagnetic survey carried out last year. About one-quarter of the maps compiled on the basis of the survey have already been released.

In the six-months period this year 19,279 claims have been cancelled and the ground has reverted to the Crown. This compared with 14,138 cancellations to the end of June last year. Altogether 4,981 miners' licences were renewed in the first half of this year as compared with 6,356 in the same period of 1959.

In Timiskaming 1,220 claims were started in the first six months of this year, compared with 669 in the same period of last year.
